

JOURNAL OF NEUROLOGY NEUROSURGERY AND PSYCHIATRY

Why do central arachnoid pouches expand? WARD WILLIAMS and A. N. GUTHKELCH <i>page</i> 1085	Comparison of thymic histology with response to thymectomy in myasthenia gravis J. M. YETTERS and J. A. SIMPSON <i>page</i> 1139
Intracranial volume-pressure relationships during experimental brain compression in primates PETER LEECH and J. DOUGLAS MILLER	Anterior interosseous nerve palsy: spontaneous recovery in two patients CHRISTOPHER GARDNER- THORPE <i>page</i> 1146
1. Pressure responses to changes in ventricular volume <i>page</i> 1093	Neuropathology of the oesophagus in diabetes mellitus BARBARA SMITH <i>page</i> 1151
2. Effect of induced changes in systemic arterial pressure and cerebral blood flow. <i>page</i> 1099	Myelinated fibres in human paravertebral sympa- thetic chain: white rami communicantes in alco- holic and diabetic patients OTTO APPENZELLER and GARY OGIN <i>page</i> 1155
3. Effect of mannitol and hyperventilation <i>page</i> 1105	Myeloma cells in the cerebrospinal fluid in plasma cell neoplasia A. M. AFIFI <i>page</i> 1162
Spinal myoclonus A. P. HOPKINS and W. F. MICHAEL <i>page</i> 1112	Encephalitis associated with carcinoma ALLEN M. KAPLAN and HIDEO H. ITABASHI <i>page</i> 1166
Buccal absorption of ergotamine J. M. SUTHERLAND, W. D. HOOPER, M. J. EADIE, and J. H. TYRER <i>page</i> 1116	Radiation myelopathy of cervical spinal cord simulating intramedullary neoplasm R. FOGELHOLM, M. HALTIA, and L. C. ANDERSSON <i>page</i> 1177
Spectrophotometry of cerebrospinal fluid in sub- acute and chronic subdural haematomas K. G. KJELLIN and L. STEINER <i>page</i> 1121	Book reviews <i>page</i> 1181
Protein pattern of cerebrospinal fluid in spasmodic torticollis K. G. KJELLIN and H. STIBLER. <i>page</i> 1128	Letter to editor <i>page</i> 1186
The cerebellum in mucopolysaccharidosis: a histo- logical, histochemical, and ultrastructural study R. DOSHI, S. A. SANDRY, A. W. CHURCHILL, and BETTY BROWNELL <i>page</i> 1133
