Subject index

AAA syndrome, Allgrove or 4 “A” syndrome: an autosomal recessive syndrome causing multisystem neurological disease, 654
abdominal reflex, The deep tendon and the abdominal reflexes, 150
ABN Abstracts, Joint congress Association of British Neurologists and the Neurological Association of South Africa, University of Cape Town, 29 January – 1 February 2003, 1166
Proceedings of the Association of British Neurologists and the British Neuropsychiatry Association, Royal College of Physicians, 2-4 October 2002, 397
Proceedings of the Association of British Neurologists, Cardiff City Hall, Cathays Park, 2 April–4 April 2003, 1448
Proceedings of the Head Injury Conference and Annual Meeting of the British Neuropsychiatry Association, the Institute of Child Health, central London, 12-14 February 2003, 830
acetylcholine receptors, Autoimmune myasthenia gravis after cardiac surgery, 392
acetylcholinesterase, Brain acetylcholinesterase activity in mild cognitive impairment and early Alzheimer’s disease, 113
acetylcholinesterase inhibition, Acetylcholinesterase inhibition: a novel approach in the treatment of neurogenic orthostatic hypotension, 1294
Acetylsalicylic acid, Brain acetylcholinesterase activity in mild cognitive impairment and early Alzheimer’s disease, 113
Acetylcholinesterase inhibition, Acetylcholinesterase inhibition: a novel approach in the treatment of neurogenic orthostatic hypotension, 1294
Acute stroke, Clinical radiologic correlations in acute stroke: is the signal intensity at the end of the tunnel getting brighter quicker?, 840
Acyclovir, Brain stem encephalitis caused by primary herpes simplex 2
Adhesion molecules, Human cellular inflammation in the pathology of acute cerebral ischaemia, 1476
Adolescence, Cognitive dysfunction in young men following head injury in childhood and adolescence: a population study, 933
Neurological and cognitive decline in adolescence, 1555
Acute stroke, Clinical radiologic correlations in acute stroke: is the signal intensity at the end of the tunnel getting brighter quicker?, 840
Acyclovir, Brain stem encephalitis caused by primary herpes simplex 2
ADHD, Interface between neurology and psychiatry in childhood, 117
New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
Adrenoleukodystrophy, Improvement of central motor conduction after bone marrow transplantation in adrenoleukodystrophy, 373
Adrenomyeloneuropathy, Clinical and electrophysiological improvement of adrenomyeloneuropathy with steroid treatment, 822
Adult neuronal ceroid lipofuscinosis, Neuroleptic malignant syndrome in Kufs’ disease, 385
Affect, Dissociation of affective modulation of recollective and perceptual experience following amygdala damage, 253
Age, Onset age and severity of motor impairment are associated with reduction of myocardial 117m-I-MBG uptake in Parkinson’s disease, 423
Aging, fMRI studies of associative encoding in young and elderly controls and mild Alzheimer’s disease, 44
AIDS, Progressive multifocal leukoencephalopathy with unusual inflammatory response during antiretroviral treatment, 1142
The clinicopathological spectrum of Rosenthal fibre encephalopathy and Alexander’s disease: a case report and review of the literature, 807
Alexander’s disease, The clinicopathological spectrum of Rosenthal fibre encephalopathy and Alexander’s disease: a case report and review of the literature, 807
Allgrove’s syndrome, Allgrove or 4 “A” syndrome: an autosomal recessive syndrome causing multisystem neurological disease, 654
a motor neuron, The relation between Ashworth scale scores and the excitability of the α motor neurones in patients with post-stroke muscle spasticity, 646
ALSAQ, Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSAQ-40 and ALSAQ-5), 242
Alzheimer’s disease, Alzheimer’s disease: differences in technetium- 99m HMPOA SPECT scan findings between early onset and late onset dementia, 715
A randomised placebo controlled study to assess the effects of cholinergic treatment on muscarinic receptors in Alzheimer’s disease, 1567
A study of stereotypic behaviours in Alzheimer’s disease and frontal and temporal variant frontotemporal dementia, 1398
Brain acetylcholinesterase activity in mild cognitive impairment and early Alzheimer’s disease, 113
Coexistence of CADASIL and Alzheimer’s disease, 790
Cerebrospinal fluid amyloid β protein, An association of neprilysin polymorphism with cerebral amyloid angiopathy, 749
amyotrophic lateral sclerosis, Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSAQ-40 and ALSAQ-5), 242
amnestic, A case of frontal network amnesia, 106
Hypothalamic amnesia and frontal lobe function disorders after Langerhans cell histiocytosis, 1348
Limbic encephalitis presenting with topographical disorientation and amnesia, 110
amoebiasis, Identification of amoebae in the CSF in a patient with meningococcal meningitis, 1445
amygdala, Amygdala volumetry in “imaging-negative” temporal lobe epilepsy, 1245
Dissociation of affective modulation of recollective and perceptual experience following amygdala damage, 253
Similarity and disparity of obsessive-compulsive disorder and schizophrenia in MR volumetric abnormalities of the hippocampal-amygdala complex, 962
amyloid β protein, Association of neprilysin polymorphism with cerebral amyloid angiopathy, 749
**amnestic, A case of frontal network amnesia, 106**
Hypothalamic amnesia and frontal lobe function disorders after Langerhans cell histiocytosis, 1348
Limbic encephalitis presenting with topographical disorientation and amnesia, 110
amoebiasis, Identification of amoebae in the CSF in a patient with meningococcal meningitis, 1445
amygdala, Amygdala volumetry in “imaging-negative” temporal lobe epilepsy, 1245
Dissociation of affective modulation of recollective and perceptual experience following amygdala damage, 253
Similarity and disparity of obsessive-compulsive disorder and schizophrenia in MR volumetric abnormalities of the hippocampal-amygdala complex, 962
amyloid β protein, Association of neprilysin polymorphism with cerebral amyloid angiopathy, 749
**amyotrophic lateral sclerosis, Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSAQ-40 and ALSAQ-5), 242**
Diffusion tensor imaging detects corticospinal tract involvement at multiple levels in amyotrophic lateral sclerosis, 1250

Dysphagia due to Chiari I malformation mimicking ALS, 549

Early or late appearance of “dropped head syndrome” in amyotrophic lateral sclerosis, 683

Effect of a multidisciplinary amyotrophic lateral sclerosis (ALS) clinic on ALS survival: a population based study, 1996–2000, 1258

Persistent bitter taste as an initial symptom of amyotrophic lateral sclerosis, 687

Polymerisms of taxifining and detoxifying hepatic enzymes in amyotrophic lateral sclerosis, 1161

Predictors of successful self control during brain-computer communication, 1117

Prolonged survival in motor neuron disease: a descriptive study of the King’s database 1990–2002, 995

Quality of life in motor neurone disease—towards a more practical assessment tool?, 287

Transcutaneous cervical root stimulation in the diagnosis of multifocal motor neuropathy with conduction block, 1329

aneurysm, Central and peripheral fusiform aneurysms six years after left atrial myxoma resection, 280

Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680

angiography, Measuring carotid stenosis, 140

Reappraisal of early CT signs to predict the arterial occlusion site in acute embolic stroke, 649

angioplasty, Vertebral artery origin angioplasty and primary stenting: safety and restenosis rates in a prospective series, 586

angiotensin I converting enzyme, Shifts in angiotensin I converting enzyme insertion allele frequency across Europe: implications for Alzheimer’s disease risk, 1159

ankle reflex, Comparison of the tendon and plantar strike methods of eliciting the ankle reflex, 1351

anorexia nervosa, Central pontine myelolysis associated with hypokalaemia in anorexia nervosa, 353

anterior canal failure, Anterior canal failure: ocular torsion without anterior canal failure, 602

anteriobasal ganglia antibodies, Tourette’s syndrome: a cross sectional study to examine the PANDAS hypothesis, 602

anticholinesterase agents, Endplate dysfunction causing respiratory failure in a patient with prior paroxysmal polyneuropathy, 370

anti-epilepsy drugs, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 336

anti-GAD antibodies, Autoantibodies to glutamic acid decarboxylase in downbeat nystagmus, 998

anti-GQ1b IgG syndrome, Recurrent anti-GQ1b IgG antibody syndrome showing different phenotypes in different periods, 1350

anthypertensive treatment, Should I start all my ischaemic stroke and TIA patients on a statin, an ACE inhibitor, a diuretic and aspirin today?, 1461

anti-Ma2 antibody, Anti-Ma2 antibody related paraneoplastic limbic/brain stem encephalitis associated with breast cancer expressing Ma1, Ma2, and Ma3 mRNAs, 1332

antimicrochondral, Adult paraneoplastic opsoclonus-myoclonus syndrome associated with antimicrochondrial autoantibodies, 1595

anti-trefoilviral treatment, Progress in multifocal leucoencephalopathy with unusual inflammatory response during antiretroviral treatment, 1142

anxiety, Specific phobia is a frequent non-motor feature in stiff man syndrome, 462

The effect of brain tumour laterality on anxiety levels among neurosurgical patients, 1278

anxiety disorders, Mental illness in new neurological patients, 817

apoprotein E, Apolipoprotein E genotypes and clinical outcome in Guillain-Barré syndrome, 971

Apoprotein E genotypes and outcome from out of hospital cardiac arrest, 1441

Debrisoquine hydroxylase gene polymorphism (CYP2D64) in dementia with Lewy bodies, 135

Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857

Long term neuropsychological outcome after head injury: relation to APOE genotype, 1047

Mental deterioration late after head injury—does it happen?, 1014

apomorphine, Deep brain stimulation of the subthalamic nucleus: effectiveness in advanced Parkinson’s disease patients previously reliant on apomorphine, 170

aqueduct stenosis, Effect of endoscopic third ventriculostomy on neuropsychological outcome in late onset idiopathic aqueduct stenosis: a prospective study, 222

arachnoid granulations, Intracranial hypertension secondary to giant arachnoid granulations, 418

arousal, Lack of hemispheric dominance for consciousness in acute ischaemic stroke, 889

arterial hypertension, Influence of age on the association between primary haemorhoidal spasm and arterial hypertension, 979

ARX gene, Brain cysts associated with mutation in the ARX gene, 536

aseptic meningencephalitis, Lymphocytic hypophysitis successfully treated with azathioprine: first case report, 1581

Ashworth scale, The relation between Ashworth scale scores and the excitabilty of the α motor neurons in patients with post-stroke muscle spasticity, 646

aspirin, Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452

association study, Role of the dopamine D5 receptor (DRDS) as a susceptibility gene for cervical dystonia, 665

asthma, Pseudoaureus and asthma, 639

asymmetrical signs, Mirror movements of the non-affected hand in hemiparkinsonian patients: a reflection of ipsilateral motor overactivity?, 1352

ataxia, Ataxic arm movements and thalamicotomy for Parkinsonian tremor, 258

Atollary dysfunction in degenerative ataxias, 1435

ataxic polyneuropathy, Incidence of endemic ataxic polyneuropathy and its relation to exposure to cyanide in a Nigerian community, 1417

atherosclerosis, Raised plasma oxidised LDL in acute cerebral infarction, 312

ATPase, Corticoesteroids do not prevent optic nerve atrophy following optic neuritis, 1139

Autonomic diseases: clinical features and laboratory evaluation, iii31

Autonomic diseases: management, iii42

Constipation in neurological diseases, 1008

autonomic nervous system, Autonomic diseases: clinical features and laboratory evaluation, iii31

Autonomic diseases: management, iii42

Autonomic nervous system testing may not distinguish multiple system atrophy from Parkinson’s disease, 56

Intensive care neurology and the autonomic nervous system, iii42

Autonomic nervous system, Adult paraneoplastic opsoclonus-myoclonus syndrome associated with antimicrochondrial autoantibodies, 1595

autimmune myasthenia, Autoimmune myasthenia gravis after cardiac surgery, 392

autonomic disease, Autonomic diseases: clinical features and laboratory evaluation, iii1

Autonomic diseases: management, iii42

Constipation in neurological diseases, 13

autonomic nervous system, Autonomic diseases: clinical features and laboratory evaluation, iii1

Autonomic diseases: management, iii42

Autonomic nervous system testing may not distinguish multiple system atrophy from Parkinson’s disease, 56

Intensive care neurology and the autonomic nervous system, iii1

Organisation of the sympathetic skin response in spinal cord injury, 56

Autonomic regulation, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765

autosomal dominant cerebellar ataxia, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444

Debrisoquine hydroxylase gene polymorphism (CYP2D64) in dementia with Lewy bodies, 135

Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857

Long term neuropsychological outcome after head injury: relation to APOE genotype, 1047

Mental deterioration late after head injury—does it happen?, 1014

apomorphine, Deep brain stimulation of the subthalamic nucleus: effectiveness in advanced Parkinson’s disease patients previously reliant on apomorphine, 170

aqueduct stenosis, Effect of endoscopic third ventriculostomy on neuropsychological outcome in late onset idiopathic aqueduct stenosis: a prospective study, 222

arachnoid granulations, Intracranial hypertension secondary to giant arachnoid granulations, 418

arousal, Lack of hemispheric dominance for consciousness in acute ischaemic stroke, 889

arterial hypertension, Influence of age on the association between primary haemorhoidal spasm and arterial hypertension, 979

ARX gene, Brain cysts associated with mutation in the ARX gene, 536

aseptic meningencephalitis, Lymphocytic hypophysitis successfully treated with azathioprine: first case report, 1581

Ashworth scale, The relation between Ashworth scale scores and the excitabilty of the α motor neurons in patients with post-stroke muscle spasticity, 646

aspirin, Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452

association study, Role of the dopamine D5 receptor (DRDS) as a susceptibility gene for cervical dystonia, 665

asthma, Pseudoaureus and asthma, 639

asymmetrical signs, Mirror movements of the non-affected hand in hemiparkinsonian patients: a reflection of ipsilateral motor overactivity?, 1352

ataxia, Ataxic arm movements and thalamicotomy for Parkinsonian tremor, 258

Atollary dysfunction in degenerative ataxias, 1435

ataxic polyneuropathy, Incidence of endemic ataxic polyneuropathy and its relation to exposure to cyanide in a Nigerian community, 1417

atherosclerosis, Raised plasma oxidised LDL in acute cerebral infarction, 312

ATPase, Corticoesteroids do not prevent optic nerve atrophy following optic neuritis, 1139

Autonomic diseases: clinical features and laboratory evaluation, iii31

Autonomic diseases: management, iii42

Constipation in neurological diseases, 13

autonomic nervous system, Autonomic diseases: clinical features and laboratory evaluation, iii1

Autonomic diseases: management, iii42

Autonomic nervous system testing may not distinguish multiple system atrophy from Parkinson’s disease, 56

Intensive care neurology and the autonomic nervous system, iii1

Organisation of the sympathetic skin response in spinal cord injury, 56

Autonomic regulation, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765

autosomal dominant cerebellar ataxia, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444
bacterial infection, Aetiological diagnosis of brain abscesses and spinal infections: application of broad range bacterial polymerase chain reaction analysis, 728
balance, Brain white matter lesions detected by magnetic resonance imaging are associated with balance and gait speed, 94
basal cell carcinoma, Ulcerus terebrans: an unusual cause of paraparesis, 1643
basal ganglia, Childhood onset generalised dystonia can be modelled by increased gain in the indirect basal ganglia pathway, 1509
basilar artery, Herding manifestations of basilar artery occlusion with lethal or severe stroke, 1621
basilar thrombosis, Herding manifestations of basilar artery occlusion with lethal or severe stroke, 1621
behavioural dysfunction, Behavioural abnormalities contribute to functional decline in Huntington’s disease, 120
Behcet’s disease, Prevalence and patterns of neurological involvement in Behcet’s disease: a prospective study from Iraq, 608
benign sensory changes, Hemisensory syndrome is associated with a low diagnostic yield and a nearly uniform benign prognosis, 1113
beta adrenergic receptor expression, Expression of β2 adrenergic receptors on peripheral blood mononuclear cells in patients with primary and secondary progressive multiple sclerosis: a longitudinal six month study, 197
beta endorphin, β endorphin concentrations in PBMC of patients with different clinical phenotypes of multiple sclerosis, 495
Bickerstaff’s brain stem encephalitis, Recurrent anti-GQ1b IgG antibody syndrome showing different phenotypes in different periods, 1350
bilateral ataxia, Bilateral cerebellar ataxia as the sole manifestation of a unilateral rostral pontine segmental infarct, 1445
bilateral hearing loss, Sudden bilateral simultaneous deafness with vertigo as a sole manifestation of vertebrobasilar insufficiency, 539
bilateral medullary infarction, Isolated total tongue paralysis as a manifestation of bilateral medullary infarction, 1698
bilateral subthalamic deep brain stimulation, Defining a role for the subthalamic nucleus within operative theoretical models of subcortical participation in language, 1543
blepharospasm, Botulinum toxin type B in blepharospasm and hemifacial spasm, 687
Eyelid tremor in a patient with a unilateral paramedian thalamic lesion, 356
blood-brain barrier, Blood–brain barrier permeability in type II diabetes, 6
Increased blood-brain barrier permeability in type II diabetes demonstrated by galectin-3 magnetic resonance imaging, 70
BOLD fMRI, BOLD fMRI activation induced by vagus nerve stimulation in acute spinal cord injury, 784
brain infarction, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
brain infection, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
brain injury, Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a portal replication, 857
Normal jugular bulb oxygen saturation, 784
brain lesion load, The longitudinal relation between brain lesion load and atrophy in multiple sclerosis: a 14 year follow up study, 1551
brain metastases, Cerebral metastasis after primary renal cell carcinoma, 141
Spontaneous haemorrhage into metastatic brain tumours after stereotactic radiosurgery using a linear accelerator, 908
brain oedema, Hemicraniection for large middle cerebral artery territory infarction: outcome in 19 patients, 800
brain sagging, Brain stem and cerebellar dysfunction after lumbar spinal fluid drainage: case report, 992
brain stem, Brain stem encephalitis caused by primary herpes simplex 2 infection in a young woman, 1323
New onset migraine with a brain stem cavernous angioma, 680
brain tissue, Brain tissue oxygen guided treatment supplementing ICP/CPP therapy after traumatic brain injury, 760
Effects of decompressive craniectomy on brain tissue oxygen in patients with intracranial hypertension, 513
Intracerebral microdialysis and CSF hydrodynamics in idiopathic adult hydrocephalus syndrome, 217
brain tumour, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
Magnetoencephalographic representation of the sensorimotor hand area in cases of intracerebral tumour, 1649
Second harmonic imaging: a new ultrasound technique to assess human brain tumour perfusion, 333
The effect of brain tumour laterality on anxiety levels among neurosurgical patients, 1278
brain-computer communication, Predictors of successful self control during brain-computer communication, 1117
breast cancer, Anti-Ma2 antibody related paraneoplastic limbic/brain stem encephalitis associated with breast cancer expressing Ma1, Ma2, and Ma3 mRNAs, 1332
CACNA1A, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444
CADASIL, Coexistence of CADASIL and Alzheimer’s disease, 790
CADASIL syndrome, “CADASIL coma”: on underdiagnosed acute encephalopathy, 249
callusal disconnection, Reversible callusal disconnection syndrome in internal hydrocephalus, 389
camptocormia, Head drop and camptocormia, 692
The naming of parts, 692
cardiomyopathy, Association of cardiomyopathy caused by autonomic nervous system impairment with the Miller Fisher syndrome, 689
carotid artery, Measuring carotid stenosis, 140
Meningioma presenting as stroke: report of two cases and estimation of incidence, 136
carpal tunnel syndrome, Clinical surveillance of carpal tunnel syndrome in two areas of the United Kingdom, 1991–2001, 1674
Splitting for carpal tunnel syndrome: prognostic indicators of success, 1342
cassava, Incidence of endemic ataxic polynuropathy and its relation to exposure to cyanide in a Nigerian community, 1417
catecholplexy, CSF hypocretin-1 levels in narcolepsy, Kleine-Levin syndrome, and other hypophysiomias and neurological conditions, 1667
catastasia, Regional cerebral glucose metabolism in alcoholic catatonia and after remission, 1003
catecholamine, New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
caveolin-3, Immunohistochemical study of caveolin-3 in idiopathic hyperCKaemia, 547
cavernous angioma, New onset migraine with a brain stem cavernous angioma, 680
cavernous haemangioma, Hypertrophic olivary degeneration following pontine haemorrhage: hypertensive crisis or cavernous haemangioma bleeding?, 797
CD45, The role of the PTPRC (CD45) mutation in the development of multiple sclerosis in the North West region of the United Kingdom, 944
central nervous system, Brain lesions in the course of generalised tetanus, 1432
Congenital abnormalities of the central nervous system, 13
Linear scleroderma "en coup de sabre" coexisting with plaque-morphae: neuroradiological manifestation and response to corticosteroids, 661
Molecular pathogenesis of neuroinflammation, 1364
central pontine myelinolysis, Central pontine myelinolysis associated with hypokalaemia in anorexia nervosa, 353
Central pontine myelinolysis temporarily related to hypophosphataemia, 820
cerebellum, Olfactory dysfunction in degenerative ataxias, 1435
cerebral amyloid angiopathy, Association of neprilysin polymorphism with cerebral amyloid angiopathy, 749
cerebral aneurysm, Failure to detect Chlamydia pneumoniae DNA in cerebral aneurysmal sac tissue with two different polymerase chain reaction methods, 756
Pituitary deficiency following aneurysmal subarachnoid haemorrhage, 1133
cerebral angiography, A case of gliosarcoma appearing as ischaemic stroke, 364
cerebral arteriovenous malformations, Should asymptomatic patients with hereditary haemorrhagic telangiectasia (HHT) be screened for cerebral vascular malformations? Data from 22 061 years of HHT patient life, 743
cerebral atrophy, Transient ischaemic attacks are associated with increased rates of global cerebral atrophy, 213
cerebral autoregulation, Cerebral vasomotor reactivity testing in head injury: the link between pressure and flow, 1053
Cerebral blood flow, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765
Long term treatment and disease severity change brain responses to levodopa in Parkinson's disease, 844
cerebral cortex, Cognitive presentation of multiple sclerosis: evidence for a cortical variant, 872
cerebral cyst, Expanding cerebral cysts (lacunae): a treatable cause of progressive midbrain syndrome, 393
Cerebral embolism, Cerebral embolism in endocarditis: William Senhouse Kirkes (1823–64), 1570
Heralding manifestations of basilar artery occlusion with lethal or severe stroke, 1621
cerebral haemorrhage, Should asymptomatic patients with hereditary haemorrhagic telangiectasia (HHT) be screened for cerebral vascular malformations? Data from 22 061 years of HHT patient life, 743
cerebral hypoxia, Brain tissue oxygen guided treatment supplementing ICP/CP pressure therapy after traumatic brain injury, 760
cerebral infarction, A case of gliosarcoma appearing as ischaemic stroke, 364
Hemicranietomy for large middle cerebral artery territory infarction: do these patients really benefit from this procedure?, 1600
Hemicranietomy for large middle cerebral artery territory infarction: outcome in 19 patients, 800
Raised plasma oxidised LDL in acute cerebral infarction, 312
Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452
cerebral ischaemia, Clinical radiologic correlations in acute stroke: is the signal intensity at the end of the funnel getting brighter quicker?, 840
S100B as a surrogate marker for successful clot lysis in hyperacute middle cerebral artery occlusion, 322
cerebral oxygen metabolism, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765
cerebral palsy, The cerebral palsy: a physiological approach, 123
cerebral perfusion, Second harmonic imaging: a new ultrasound technique to assess human brain tumour perfusion, 333
cerebral trauma, High concentrations of procollagen propeptides in chronic subdural haematoma and effusion, 522
cerebral venous thrombosis, Recanalisation of cerebral venous thrombosis, 459
cerebrospinal fluid, A prospective study of CSF markers in 250 patients with possible Creactive–Jakob disease, 1210
Hypothesise on the pathophysiology of spirochaetemia based on simulation of cerebrospinal fluid dynamics, 344
Identification of amoebae in the CSF in a patient with meningococcahilitis, 1445
Intracranial hypotension after chiropractic manipulation of the cervical spine, 821
cerebrovascular disease, Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
Reliability of the variables in a new set of models that predict outcome after stroke, 447
cerebrovascular disorders, Association of neprilysin polymorphism with cerebral amyloid angiopathy, 749
Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452
cerebrovascular reactivity, Cerebral vasomotor reactivity testing in head injury: the link between pressure and flow, 1053
cervical dystonia, Role of the dopamine D5 receptor (DRDS) as a susceptibility gene for cervical dystonia, 665
cervical headache, Radiofrequency neurotomy for the treatment of third occipital headache, 88
cervical spine, Intracranial hypotension after chiropractic manipulation of the cervical spine, 821
Chagas' disease, American trypanosomiasis (Chagas' disease): an unrecognised cause of stroke, 516
channelomics, Nanotechnology for neuronal ion channels, 1466
Charcot-Marie-Tooth, Clinical evaluation and investigation of neuropathy, i3
chekmosines, Human cellular inflammation in the pathology of acute cerebral ischaemia, 1476
chemotherapy, Meningioma of the optic nerve sheath: treatment with hydroxyurea, 1348
Chiai i malformation, Chiai i malformation mimicking myasthenia gravis, 393
Dysphagia due to Chiai i malformation mimicking ALS, 549
child, Surgery for drug resistant partial epilepsy in children with focal cortical dysplasia: anatomical–clinical correlations and neurophysiological data in 10 patients, 1493
childhood, Cognitive dysfunction in young men following head injury in childhood and adolescence: a population study, 933
childhood hemiplegia, Acute childhood hemiplegia, 1244
chiropractic manipulation, Intracranial hypotension after chiropractic manipulation of the cervical spine, 821
chlamydia pneumoniae, Failure to detect Chlamydia pneumoniae DNA in cerebral aneurysmal sac tissue with two different polymerase chain reaction methods, 756
cholesterol, Serum lipids and memory in a population based cohort of middle age women, 1530
cholosteral reduction, Should i start all my ischaemic stroke and TIA patients on a statin, an ACE inhibitor, a diuretic and aspirin today?, 1461
chronic fatigue syndrome, Enterovirus related metabolic myopathy: a postviral fatigue syndrome, 1382
Enteroviruses in chronic fatigue syndrome: "now you see them, now you don't", 1361
Observe independent analysis of cerebral glucose metabolism in patients with chronic fatigue syndrome, 922
chronic inflammatory demyelinating polyradiculoneuropathy, Clinical evaluation and investigation of neuropathy, iii
Management of inflammatory neuropathies, ii9
chronic neurological disease, Transition from paediatric to adult medical services for young people with chronic neurological problems, 1011
classification, Diagnostic criteria and the use of ICD-10 codes to define and classify minor head injury, 351
clinical examination, Interlocking finger test: a bedside screen for parietal lobe dysfunction, 530
clinical features, Non-convulsive status epilepticus: usefulness of clinical features in selecting patients for urgent EEG, 189
clinical outcome, Is a combination of Tc-SPECT or perfusion weighted magnetic resonance imaging with spinal tap test helpful in the diagnosis of normal pressure hydrocephalus?, 479
clinical practice, Clinical application of neuroimaging in epilepsy, 466
Spastic movement disorder: what is the impact of research on clinical practice?, 820
clinical signs, Comparison of the tendon and plantar strike methods of eliciting the ankle reflex, 1351
clinical spectrum, Features involved in the diagnostic delay of cluster headache, 1123
clinical trial, Informed consent in trials for neurological emergencies: the example of subarachnoid haemorrhage, 988
Surgery for Parkinson’s disease: lack of reliable clinical trial evidence, 519

closed head trauma, Visual prognosis after indirect traumatic optic neuropathy, 246

cluster headache, Features involved in the diagnostic delay of cluster headache, 1123

coccidioidomycosis, Coccidioidomycosis of the brain, mimicking en plaque meningioma, 806

colonic transit time, and rectoanal videomanometry

coeliac disease, Neuromuscular and sensory disturbances in patients with well treated coeliac disease, 490

cognition, Cognitive impairment in probable multiple sclerosis, 443

Mental deterioration later after head injury—does it happen?, 1014

Moderate hypoglycaemia abolates working memory in humans with and without insulin treated diabetes, 278

Mood changes with deep brain stimulation of STN and Gpi: results of a pilot study, 1584

MRI directed bilateral stimulation of the subthalamic nucleus in patients with Parkinson’s disease, 1631

Performance of the dementia rating scale in Parkinson’s disease with dementia and dementia with Lewy bodies: comparison with progressive supranuclear palsy and Alzheimer’s disease, 1215

Serum lipids and memory in a population based cohort of middle aged women, 1530

cognitive decline, Neurological and cognitive decline in adolescence, 19

cognitive dysfunction, Cognitive dysfunction in young men following head injury in childhood and adolescence: a population study, 933

Working memory deficits in multiple sclerosis: a controlled study with auditory P600 correlates, 1231

cognitive impairment, Blood–brain barrier permeability in type II diabetes, 6

Longitudinal study of cognitive dysfunction in multiple sclerosis: neuropsychological, neuroradiological, and neurophysiological findings, 878

Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371

Predictors of cognitive impairment in advanced Parkinson’s disease, 793

cohort study, Predictors of institutionalisation in people with dementia, 1315

coiling, Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680

colic transit time, Colonic transit time and rectoanal videomanometry in Parkinson’s disease, 268

comatose, Favourable outcome of a brain trauma patient despite bilateral loss of cortical somatosensory evoked potential during thalipental sedation, 1157

comparative genomic hybridisation, Lack of chromosomal imbalances in adamantinomatous and papillary craniopharyngiomas, 260

complement, Peripheral neuropathy in hepatitis C virus infection with and without cryoglobulinaemia, 1267

computational model, Childhood onset generalised dystonia can be modelled by increased gain in the indirect basal ganglia pathway, 1589

thrombolytic therapy, Intra-arterial thrombolysis in 24 consecutive patients with internal carotid artery T occlusions, 739
thrombosis, Risk of recurrence of cerebral venous and sinus thrombosis during subsequent pregnancy and puerperium, 814
thymoma, Anti-titin antibodies are not associated with a specific thymoma histology, 282
thymus, Autoimmune myasthenia gravis after cardiac surgery, 392
thyroid related antibodies, Thyrototoxic autoimmune encephalopathy: a repeat positron emission tomography study, 504
tiagabine, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339
Vigabatrin, tiagabine, and visual fields, 286
time–clot lysis, Clinical radiologic correlations in acute stroke: is the signal intensity at the end of the tunnel getting brighter quicker?, 840
time–frequency analysis, Application of time–frequency analysis to somatosensory evoked potential for intraoperative spinal cord monitoring, 82
tinnitus, Auditory disturbance as a prodrome of anterior inferior cerebellar artery infarction, 1644
titin antibodies, Anti-titin antibodies are not associated with a specific thymus histology, 282
tone burst, Vestibular activation by bone conducted sound, 771
tonic vibration reflex, The effect of fatigue on abnormal vibration induced illusion of movement in idiopathic focal dystonia, 1154
topographical disorientation, Limbic encephalitis presenting with topographical disorientation and amnesia, 110
Vigabatrin, tiagabine, and visual fields, 286
Vigabatrin, tiagabine, and visual fields, 286
topographical disorientation, Limbic encephalitis presenting with topographical disorientation and amnesia, 110
loss of spatial learning in a patient with topographical disorientation in new environments, 61
torticollis, Botulinum toxin type B in blepharospasm and hemifacial spasm, 687
The effect of fatigue on abnormal vibration induced illusion of movement in idiopathic focal dystonia, 1154
Tourrette’s syndrome, Tourette’s syndrome: a cross sectional study to examine the PANDAS hypothesis, 602
Tourette’s syndrome, Sydenham’s chorea may be a risk factor for drug induced parkinsonism, 1350
tranexamic acid, Multifocal myoclonus secondary to tranexamic acid, 547
transcranial magnetic stimulation, Focused high frequency repetitive transcranial magnetic stimulation for localisation of the unexposed primary motor cortex during brain tumour surgery, 1283

Improvement of central motor conduction after bone marrow transplantation in adrenoleukodystrophy, 373

Increased visual cortical excitability in ecstasy users: a transcranial magnetic stimulation study, 1136

Reversible callosal disconnection syndrome in internal hydrocephalus, 389

The effect of transcranial magnetic stimulation on movement selection, 985

transient ischaemic attack, Abnormalities on diffusion weighted magnetic resonance imaging performed several weeks after a minor stroke or transient ischaemic attack, 734

Long term risks of stroke, myocardial infarction, and vascular death in “low risk” patients with a non-recent transient ischaemic attack, 577

Should I start all my ischaemic stroke and TIA patients on a statin, an ACE inhibitor, a diuretic and aspirin today?, 1461

transient ischaemic attacks, Transient ischaemic attacks are associated with increased rates of global cerebral atrophy, 213

transoesophageal echocardiography, Transoesophageal echocardiography: which stroke patients benefit most from this investigation?, 283

traumatic brain injury, Brain tissue oxygen guided treatment supplementing ICP/CPP therapy after traumatic brain injury, 760

Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765

Outcome after mild traumatic brain injury: an examination of recruitment bias, 39

Thalamic proton magnetic resonance spectroscopy in vegetative state induced by traumatic brain injury, 33

traumatic optic neuropathy, Visual prognosis after indirect traumatic optic neuropathy, 246

treatment, Radiofrequency neurotomy for the treatment of third occipital treatment, 1444

tremor, Chronic deep brain stimulation for the treatment of tremor in multiple sclerosis: review and case reports, 1392

trigeminal neuralgia, Measurement of pulse pressure profiles in patients with trigeminal neuralgia, 533

trinucleotide repeat expansion, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444

TSH, Neuroendocrine changes in patients with acute space occupying ischaemic stroke, 725

tuberous sclerosis, GABA<sub>1</sub> receptor active steroids are altered in epilepsy patients with tuberous sclerosis, 667

tumour, Crudeuilleir and acoustic neuroma, 1015

tumour haemorrhage, Spontaneous haemorrhage into metastatic brain tumours after stereotactic radiosurgery using a linear accelerator, 908

ubiquitin, Attenuated nuclear shrinkage in neurones with nuclear inclusions of SCAT brains, 579

familial motor neurone disease with dementia: phenotypic variation and cerebellar pathology, 1516

ulcus terebrans, Ulcus terebrans: an unusual cause of paraparesis, 1643

ultrasonography, Second harmonic imaging: a new ultrasound technique to assess human brain tumour perfusion, 333

Unified Parkinson’s Disease Rating Scale, Physical anhedonia in Parkinson’s disease, 1308

untethering, Adult tethered cord syndrome presenting with refractory diarrhoea, 1596

upper airway, Sequential constriction of upper airway and vocal cords in sleep apnoea of multiple system atrophy: low field magnetic resonance fluoroscopic study, 642

upper limb, Effects of levodopa on upper limb mobility and gait in Parkinson’s disease, 1304

vagus nerve stimulation, BOLD fMRI activation induced by vagus nerve stimulation in seizure patients, 811

variant Creutzfeldt-Jakob disease, Screening for variant Creutzfeldt-Jakob disease, 828

vascular dementia, Coexistence of CADASIL and Alzheimer’s disease, 790

vasculitis, Peripheral neuropathy in hepatitis C virus infection with and without cryoglobulinemia, 1267

vasospastic amaurosis fugax, Vasospastic amaurosis fugax, 149

vein of Galen aneurysmal malformation, Vein of Galen malformations, i42

velocity dependent properties, Velocity dependent passive muscle stiffness, 283

venous sinus, Idiopathic intracranial hypertension: 12 cases treated by venous sinus stenting, 1662

ventricular drainage, Early diagnosis of external ventricular drainage infection: results of a prospective study, 929

Failure of regular external ventricular drain exchange to reduce CSF infection, 1598

ventriculomegaly, Assessment of the impact of the removal of cerebrospinal fluid on cerebral tissue volumes by advanced volumetric 3D-MRI in posthaemorrhagic hydrocephalus in a premature infant, 658

verbal memory, Development of selective verbal memory impairment secondary to a left thalamic infarct: a longitudinal case study, 255

vertebral artery, Vertebral artery origin angioplasty and primary stenting: safety and restenosis rates in a prospective series, 586

vertebral artery dissection, Economy class stroke syndromes: vertebral artery dissection revisited, 1594

vertebrobasilar insufficiency, Sudden bilateral simultaneous deafness with vertigo as a sole manifestation of vertebrobasilar insufficiency, 539

vertigo, Acute rotatory vertigo caused by a small haemorrhage of the vestibular cortex, 388

vestibular cortex, Acute rotatory vertigo caused by a small haemorrhage of the vestibular cortex, 388

vestibular function, Vestibulo-ocular areflexia in families with spinocerebellar ataxia type 3 (Machado-Joseph disease), 1403

vestibular reflexes, Vestibular activation by bone conducted sound, 771

Vestibular reflexes and positional manoeuvres, 289

vestibular schwannoma, Clinical experience with gamma knife stereotactic radiosurgery in the management of vestibular schwannomas secondary to type 2 neurofibromatosis, 1288

video recording, Trigeminal autonomic cephalalgia-tic-like syndrome associated with a pontine tumour in a one year old girl, 391

videofluoroscopy, Vocal fold motion impairment in patients with multiple system atrophy: evaluation of its relationship with swallowing function, 982

vigabatrin, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339

Vigabatrin, tiagabine, and visual fields, 286
