Contents

Serum enzyme studies in muscle disease Part III Serum creatine kinase activity in relatives of patients with the Duchenne type of muscular dystrophy J. M. S. Pearce, R. J. T. Pennington, and John N. Walton ............... page 181

A case of McArdele's syndrome with a positive family history T. D. R. Hockaday, J. A. Downey, and R. F. Mottram .................. page 186

Demonstration of substances capable of contracting smooth muscle in the haematoma fluid from certain cases of ruptured cerebral aneurysm Monamy Buckell .................. page 198

A test of nerve conduction to muscles of the shoulder girdle as an aid in the diagnosis of proxi- mal neurogenic and muscular disease M. M. Gassel .................. page 200

Visual vigilance and brain damage: an empirical study R. D. Mcdonald and S. B. Burns ............ page 206

Habituation of the psycho-galvanic reflex in patients with anxiety states and in normal subjects M. H. Lader and Lorna Wing ............. page 210

A syndrome of abnormal movements and dementia in leucotomized patients treated with phenothia- zines Richard Hunter, C. J. Earl, and Dieter Janz .................. page 219

Disorders of spelling M. Kingsbourne and Elizabeth K. Warrington .......... page 224

Obsessional disorder and neurological illness Linton Grimsay .................. page 229

Arteriosclerosis in Parkinsonism M. J. Eadie and J. M. Sutherland ............. page 237

Primary spontaneous cerebrospinal fluid rhinorrhea John E. A. O'Connell ............. page 241

Creatine kinase in cerebrospinal fluid N. Hersch- kowitz and J. N. Cumings ............. page 247

Serum lipoproteins in multiple sclerosis determined by cellulose acetate electrophoresis K. Gavril- escu, R. S. Mellick, and W. H. Mclmenemy ............. page 251

The measurement of local blood flow in the cere- bral cortex from the clearance of xenon133 A. M. Harper, H. I. Glass, J. L. Steven, and A. H. Granat ............. page 255

The effects of D-lysergic acid diethylamide tartrate (LSD-25) on the cholinesterases and monoamine oxidase in the spinal cord: a possible factor in the mechanism of hallucination K. Nandy and G. H. Bourne ............. page 259

A case of ganglioneuroma arising in the pituitary fossa David M. Robertson and Robert F. Hetherington ............. page 268

An instrument for cerebral biopsy J. De Gama Imaginario ............. page 273

Book reviews .................. page 274
