REFERENCES In the text should be numbered only in the order in which they occur. The list of references should be typed in double spacing in the same numerical order. It should give author’s name, followed by initials, title of the article quoted, name (in full) of the journal in which the article appeared, year of publication, volume number in Arabic numerals, followed by numbers of first and last pages of the article. Thus: Nathan, PW. The descending respiratory pathway in man. Journal of Neurology, Neurosurgery, and Psychiatry, 1970; 26: 487–599. Unpublished work may be referred to in the text but should not be included in the list of references. Work ‘in press’ may be listed provided the name of the Journal appears. The author is responsible for the correctness of the references as these will not be rechecked by the publishers.

REPRINTS Twenty-five reprints will be supplied free of charge. Additional reprints are available at cost if they are ordered when the proof is returned.

CORRECTIONS Other than printer’s errors may be charged to the author.
