A new generation of Micra Titanium Instruments.

Downs Surgical's new range of Micra titanium forceps offers advances in design and quality with a complete choice of delicate tips. This new generation of Micra titanium forceps incorporates the requests for improvement revealed in a world-wide survey of Micra Instrument users. Now these improvements are made possible due to our improved titanium technology. Straight, curved and colibri forceps are available with tying platforms on tying, notched and toothed tips or as plain forceps.

Epilim 200 enteric coated

Following the success of the Epilim 500 enteric coated tablet in improving gastrointestinal tolerance of high dose Epilim treatment, Reckitt-Labarz are pleased to announce the availability of Epilim 200 enteric coated.

This new tablet provides the same advantages in terms of acceptability and means that enteric coated tablets can be prescribed when the dosage regimen requires both 500mg and 200mg tablets.

For this new improved dosage form your prescription should specify:

Reckitt-Labarz are also introducing Epilim 200 enteric coated tablets in multiple strengths:

- 500mg tablets
- 200mg tablets
- 100mg tablets
- 50mg tablets
- 25mg tablets

In women of child-bearing age, Sodium valproate, like certain other anti-convulsants, has been shown to be teratogenic in animals. In women of childbearing age, the benefits of these compounds should be weighed against the possible hazard suggested by these findings.

So many patients with epilepsy are controlled by

HOW TO DO IT

Every doctor knows the sinking sensation induced by waiting one's turn for an examination viva and the social anxieties of changing jobs. The misery of first night nerves does not, however, disappear with time: each decade brings new challenges. On these occasions—chairing a committee, giving evidence in court, appearing on television—practical tips can be enormously helpful. The same is true of the many skills not taught in medical school—how to lecture, referee papers, edit, or use a library. All these and many more nuggets of down-to-earth advice have been collected from past issues of the BMJ to form a compendium for the novice—whatever his or her age or seniority.

Price: Inland £4.00;
Abroad US$10.00
(Concessionary price to BMA members: Inland £3.50;
Abroad US$8.75.)

When ordering BMA members must quote their membership number or the full price will be applicable.)

INSTITUTE OF NEUROLOGY

(QUEEN SQUARE, LONDON WCIN 3BG)

ASSOCIATED WITH THE NATIONAL HOSPITAL, QUEEN SQUARE, AND THE HOSPITAL FOR NERVOUS DISEASES, MAIDA VALE

The Institute provides postgraduate training in the various departments of Neurology.

The Out-Patient Practice is open at 10 o'clock at QUEEN SQUARE every day (except Saturday). A fee of £50 per month is charged for attending the Out-Patient Department only.

The In-Patient Practice at Queen Square is open at 10 a.m., and a limited number of clinical clerks are appointed. Fees: three months £305, six months, £615.

Whole-time courses of instruction are given during the Autumn, Winter and Spring terms. Besides these, teaching in the various neurological disciplines goes on throughout the year together with Clinical Demonstrations every Wednesday afternoon and Saturday morning as advertised in the Medical Journals.

Application should be made to the Dean at the Institute, Dr. P. C. GAUTIER-SMITH
Mozart, in his Clarinet Quintet, achieved harmony with a balance of 4:1.

Roche, with Madopar, struck the right balance of 4:1 with levodopa and benserazide. Chosen from several ratios as the one giving the best results in clinical practice, this combination has proved its rightness over a decade of clinical experience.

The 4:1 preparation of levodopa and benserazide has recently added another string to its bow in a comparative trial. It was shown to be preferred by patients to a 10:1 preparation by levodopa and carbidopa because of its better gastrointestinal tolerance in the critical first three months of treatment.

62.5, 125 and 250 balanced for optimal performance in Parkinson's disease

Madopar levodopa plus benserazide

4+1 the right balance
For all Aneurysm Clips...

Downs Surgical hold the most comprehensive range of Aneurysm Clips available.

Whatever your requirements – from the new Sugita Clips, available in thirty-nine different configurations, to any one of the nineteen different types of Aneurysm Clips we stock, together with their applying forceps.

Downs Surgical can supply.

Name
Position
Hospital or Clinic
Clinical Neuropsychology
Edited by Kenneth M. Heilman and Edward Valenstein
This textbook deals with the behavioural and intellectual disorders that clearly have a neurological origin. It gives a comprehensive clinical description of the major neurobehavioural disorders and discusses their pathogenesis. Basic research is reviewed only where it has a direct bearing on the clinical situation and the book offers a clinical approach to the study of brain-behaviour relationships. £14

Developmental Disabilities
Etiology, Manifestation, Diagnosis, and Treatment
Robert J. Thompson and Aglaia O'Quinn
This book presents what is currently known about developmental disabilities. It describes the evolution of the concept, conflicts of classification, theories of aetiology, and opinions on management, and then presents the specific disorders - mental subnormality, autism, cerebral palsy, seizure disorders, disorders associated with cerebral dysfunction, and sensory disorders. The final chapters offer an interdisciplinary approach to early screening, intervention, diagnosis, and treatment. Paper covers £5.50

Cluster Headache
Mechanisms and Management
Lee Kudrow and D. J. Dalessio
Cluster headache is the most painful headache condition. Although it is easily diagnosed, it is also the most frequently overlooked cause of headache. This is the first complete review of its diagnosis, mechanisms, and pathophysiology. New and effective treatment regimens based on the successful management of one of the world's largest populations of cluster-headache patients are described. Illustrated £12.50

Wolff's Headache and other Head Pain
Fourth Edition
Edited by Donald J. Dalessio
This fourth edition differs from preceding editions by drawing together a group of contributors to revise the text. In addition to thoroughly up-dating existing chapters, they have written several new ones. Much new information has been added on modern approaches to medical treatment, with explicit detail on drug regimens. Fourth edition. Illustrated £20

Oxford University Press
Psychiatrists

The Missouri Department of Mental Health is seeking Psychiatrists for facilities throughout the State.
