4+1 the right balance in Parkinson's disease

Madopar

the original 4+1 combination in three dosage forms, 62.5, 125 and 250
Eldepryl turns over a new leaf in the treatment of Parkinson's disease.

- Reduces daily requirement of L-dopa
- Extends useful life of L-dopa
- Improves quality of life by reducing side-effects of L-dopa
- Simple daily dosage – one 5mg tablet
- Smooths the “on-off” phenomenon
- Improves sense of well-being

Eldepryl A step forward in the control of Parkinson's disease

Prescribing Information. Presentation White, scored, uncoated tablets 6 mm diameter containing 5 mg selegiline hydrochloride.

Indications Eldepryl is indicated for the treatment of Parkinson’s disease, or symptomatic Parkinsonism, which is being treated with levodopa alone or levodopa and a peripheral decarboxylase inhibitor. Eldepryl in conjunction with levodopa treatment is particularly indicated in patients who, during maximal levodopa treatment, develop on-off symptoms or other dyskinesias. Dosage When given in conjunction with established levodopa therapy the initial dose of Eldepryl is 5 mg (1 tablet) in the morning. If symptoms are very severe, e.g. on-off symptoms, and little response is achieved with 1 tablet Eldepryl daily, the dose of Eldepryl can be increased to 10 mg (2 tablets) in the morning. Contra-indications There are no known contra-indications for the use of Eldepryl in patients receiving levodopa therapy.

Warnings Because Eldepryl potentiates the effects of levodopa, the side effects of levodopa might be emphasised. When Eldepryl is added to maximally tolerated levodopa treatment, involuntary movements and agitation may occur. Levodopa treatment can be reduced by an average of 30% when Eldepryl is added to the treatment. When an optimal levodopa dose has been established the side effects of the combination are fewer than for levodopa alone. Side Effects Hypotension and nausea have been reported as isolated symptoms associated with Eldepryl treatment. Confusion or psychosis have also been reported. Legal Category POM. Product Licence Number 4483/0024. Basic NHS Cost Pack of 100 tablets. £30.00. Further Information is available from: Britannia Pharmaceuticals Limited, Lonsdale House, 7-11 High Street, Reigate, Surrey RH2 9AR

Fiberlase 100

The first truly flexible approach to laser therapy in neurology

Barr & Stroud's quick-change fibre optic delivery system allied to a first class, extremely reliable neodymium-YAG laser makes Fiberlase 100 the Medical Laser System of almost unlimited application.

Now, with Fiberlase 100, laser therapy can be delivered with ease, speed and safety to practically any area inside or outside the body. This stems from the development of delivery systems which put all the laser power where it's needed - right at the site. The systems incorporate safety interlocks to ensure safe usage.

Development has been in the closest collaboration with the medical profession. Fiberlase 100 puts laser therapy at the service of most specialities, including urology, gastroenterology, gynaecology, neurology and thoracic and E.N.T. medicine.

Contact Ann McLean for details of Fiberlase 100

- the effective approach to laser therapy.

Journal of Mental Deficiency Research

Published on behalf of the Royal Society for Mentally Handicapped Children and Adults

In 1982, *Journal of Mental Deficiency Research* celebrated its twenty-fifth anniversary. These years have seen remarkable developments: identification of Down’s anomaly; behavioural techniques; screening methods; infant intervention programmes; normalization philosophy and community care; errorless learning; verbal and non-verbal communication approaches; amniocentesis; the sex chromosome disorders; the Fragile X chromosome disorders; secondary prevention; demographic changes; and enlightenment.

The pace of change in the next twenty-five years will increase. This journal will continue to evaluate and record important medical, social and educational advances.

Manuscripts for publication should be submitted to the Editor, Dr W.I. Fraser, Blackwell Scientific Publications Ltd, 8 John Street, Edinburgh EH1 2QH, England.

Subscription Information

*Journal of Mental Deficiency Research* is published quarterly.

Subscription rates for 1983 are:

- £25.00 (U.K.)
- £30.00 (overseas)
- $62.50 (U.S.A. & Canada)
