EDITORIAL COMMITTEE welcomes original papers, which should be addressed to the Editor, Journal of Neurology, Neurosurgery, and Psychiatry, BMA House, Tavistock Square, London WC1H 9JR. Papers are accepted on the understanding that the subject matter has not been and will not be published in any other journal. Papers should deal with original material and the discussion should be closely relevant to this. Manuscripts should be typewritten in double spacing on one side of the paper only. Two copies (including figures and tables) should be submitted of which only one need be a top copy. A summary of about 50 words should appear at the beginning of each paper. The name(s) of the hospital or laboratory should also appear. Full postal address for correspondence and reprints should be supplied. Receipt of manuscripts will be acknowledged.

The Editor will welcome Short Reports or Preliminary Communications limited to about 1000 words and with no more than one figure and one table. Also welcome are Letters to the Editor.

ETHICS Ethical considerations will be taken into account in the assessment of papers (see the Medical Research Council’s publications on the ethics of human experimentation, and the World Medical Association’s code of ethics, known as the Declaration of Helsinki (see British Medical Journal 1964;2:177)).

ILLUSTRATIONS Photographs Unmounted photographs on glossy paper should be provided together with magnification scales when appropriate. Diagrams will be reduced to 2¾ inches (68 mm) wide, occasionally to 5¼ inches (145 mm). Lettering should be in either Letraset or stencil and care should be taken that lettering and symbols are of comparable size. Illustrations should not be inserted in the text. They should be marked on the back with figure numbers, title of paper, and name of author. All photographs, graphs and diagrams should be referred to as figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet. Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet. The format used in this issue of the Journal should be noted. Vertical lines will not be printed and usually there are only three horizontal lines in each table.

REFERENCES should be in the Vancouver style as in this issue. They should appear in the text by number only in the order in which they occur and should be listed on a separate sheet in the same order. Punctuation must be correct and journal titles should be in full or abbreviated in accordance with the Index Medicus. Thus:

A reference to unpublished work should not appear in the list but work “in press” may be included provided the name of the journal appears. The author is responsible for the accuracy of references.

REPRINTS Twenty-five reprints will be supplied free of charge. Additional reprints are available at cost if they are ordered when the proof is returned.

CORRECTIONS other than printer’s errors may be charged to the author.

Behavioral Neurology Society Formed

The Behavioral Neurology Society has recently been formed. The purpose of the Society is to foster communication among individuals and disciplines contributing to service, education and research in behavioral neurology and to promote interest in brain-behavior relationships. Membership is open to physicians (Regular Members) who are actively interested in behavioral neurology and to other professionals and persons in training (Associate Membership) who devote a major portion of their activity to behavioral neurology or closely allied fields. An annual meeting will be held in conjunction with the American Academy of Neurology and there will be a quarterly newsletter. Interested individuals should contact the Society Secretary: Francois Boller, MD., PhD., Department of Neurology, 322 Scatche Hall, University of Pittsburgh, Pittsburgh PA 15261, USA

Correction. In the paper "Familial cerebellar ataxia and hypogonadotropic hypogonadism: evidence for hypothalamic LHRH deficiency" (J Neur Neurosurg Psychiatry 1982; 45: 747-51) fig (A) was incorrect. The correct figure is reproduced below.
