MJJ Harrison  JP Payan  E Warrington
RAC Hughes  JMS Pearce  CBT Hughes
PG Jenner  JPickard  The Editorial Committee welcomes original papers,
DPE Kingsley  FP Prior  which should be addressed to the Editor, Journal of

Neurology, Neurosurgery, and Psychiatry, BMA House, Tavistock Square, London WC1H 9JR. Papers
are accepted on the understanding that the subject matter has not been and will not be published in
any other journal. Papers should deal with original matter and the discussion should be closely relevant to
this. Manuscripts should be typewritten in double spacing on one side of the paper only. Two copies (including
figures and tables) should be submitted of which only one need be a top copy. A summary of about 50 words
should appear at the beginning of each paper. The name(s) of the hospital or laboratory should also appear.
Full postal address for correspondence and reprints should be supplied. Receipt of manuscripts
will be acknowledged.

The Editor will welcome Short Reports or Preliminary Communications limited to about 1000 words
and with no more than one figure and one table. Also welcome are Letters to the Editor.

ETHICS Ethical considerations will be taken into account in the assessment of papers (see the Medical
Research Council’s publications on the ethics of human experimentation, and the World Medical
Association’s code of ethics, known as the Declaration of Helsinki (see British Medical Journal 1964;2:177)).

ABBREVIATIONS Measurements should be expressed in SI units (see Journal of Clinical Pathology 1974;27:
590-7; British Medical Journal 1974;4:490; International System of Units 1972. National Bureau of
Baron, Royal Society of Medicine: London.

ILLUSTRATIONS Photographs Unmounted photographs on glossy paper should be provided together with
magnification scales when appropriate. Diagrams will be reduced to 2½ inches (68 mm) wide, occasionally to
5½ inches (145 mm). Lettering should be in either Letraset or stencil and care should be taken that
lettering and symbols are of comparable size. Illustrations should not be inserted in the text. They
should be marked on the back with figure numbers, title of paper, and name of author. All photographs,
graphs and diagrams should be referred to as figures and should be numbered consecutively in the text in
Arabic numerals. The legends for illustrations should be typed on a separate sheet. Tables should be
numbered consecutively in the text in Arabic numerals and each typed on a separate sheet. The format used
in this issue of the Journal should be noted. Vertical lines will not be printed and usually there are only three
horizontal lines in each table.

REFERENCES should be in the Vancouver style as in this issue. They should appear in the text by number
only in the order in which they occur and should be listed on a separate sheet in the same order. Punctuation
must be correct and journal titles should be in full or abbreviated in accordance with the Index
Medicus. Thus:

Millikan CH, Eaton LH. Clinical evaluation of ACTH and cortisol in myasthenia gravis. Neurology
(Minneapolis) 1951;1:145-52.
Penn AS. Immunological features of myasthenia gravis. In: Aguayo AJ, Karpati G, eds. Topics in

A reference to unpublished work should not appear in the list but work “in press” may be included pro-
vided the name of the journal appears. The author is responsible for the accuracy of references.

REPRINTS Twenty-five reprints will be supplied free of charge. Additional reprints are available at cost if
they are ordered when the proof is returned.

CORRECTIONS other than printer’s errors may be charged to the author.

NOTICE TO SUBSCRIBERS The Journal is published monthly. The annual subscription rate is £47 in
the United Kingdom and Republic of Ireland, and US $115 in all countries overseas. Payments for overseas
subscriptions should be made in US dollars, or in other currency based on the prevailing exchange rate
to the US dollar of that currency payable to the British Medical Association and addressed to the
Subscription Manager, Journal of Neurology, Neurosurgery, and Psychiatry, BMA House, Tavistock
Square, London WC1H 9JR. Orders can also be placed locally through any leading subscription agent
or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment,
can also be sent to: British Medical Journal, Box 560B, Kennebunkport, Maine 04046, USA. All
enquiries, however, must be addressed to the Publisher in London).
might suggest a common mechanism for the generation of triphasic EEG discharges, possibly the impairment of glucose metabolism in subcortical nuclei. Investigation of cerebral glucose metabolism in those patients with metrizamide encephalopathy who have triphasic EEG activity, and study of the effects on the EEG of experimental disturbance of cortical and subcortical glucose metabolism, may clarify the pathogenesis of triphasic waves.
