Diagnostic Decisions in Neurology

This book is intended to provide assistance at the bedside or in the consultation room. To this end, the author has refrained from detailed discussion of anatomical or physiological aspects and lengthy considerations of treatment. At the beginning of each chapter the principal diagnoses that have to be taken into consideration are listed. This list, with numbered items corresponding to the sequence of items in the text, will immediately give the reader an idea of the challenge he has to meet in a given situation. For each diagnostic possibility the pros and cons are then discussed, and the potential contribution of ancillary examinations is evaluated. Extensive cross-referencing is intended to facilitate comparison with similar situations or patterns of findings.

Senile Dementia of the Alzheimer Type

Early Diagnosis, Neuropathology and Animal Models

Foreword by H. Horstmann

Editors: J. Traher, W. H. Gispen

This book is a concise and useful survey of recent clinical and preclinical research on brain aging and senile dementia. It emphasizes the importance of early diagnosis and reviews both the neuropsychological approaches and the practical techniques, such as PET and SPECT scanning, in the study of the aging human brain.

Leading research groups in the field describe the latest data on neuropathological aspects, brain plasticity and trophic factors. Modem views on the importance and selection of animal models in brain aging research are discussed. These contributions on the aging brain present the latest efforts by neuroscientists to tackle the problem of brain disorders.

'CORDEX'

SELF-BINDING CASES
for easy and instant reference

Made to hold one volume
(12 issues) of your JOURNAL
OF NEUROLOGY,
NEUROSURGERY AND
PSYCHIATRY. Each
handsomely bound with
cloth to complement
your journal. Spring loaded to
carry the journals securely along the spine of the binder. The name of the
journal is gold-blocked on the spine. Date labels are also provided.

Price: Inland £5.00, Overseas £7.75; USA $11.00
including postage (air mail overseas) and packing.
