Journal of NEUROSURGERY & PSYCHIATRY

Editorial
481 Diffuse axonal injury in non-missile head injury J Hume Adams, D I Graham, T A Gennarelli, W L Maxwells

Papers
484 MRI in the management of suspected cervical spondylotic myelopathy P F Statham, D M Hadley, R A Johnston, J Bone, G M Teasdale
490 Single photon emission computed tomography in patients with acute hydrocephalus or with cerebral ischaemia after subarachnoid haemorrhage D Hasan, J van Pe et, I Loewe, E P Krenning, M Vermeulen
494 Welander's distal myopathy: clinical, neurophysiological and muscle biopsy observations in young and middle aged adults with early symptoms K Borg, G Ahlberg, J Borg, L Edström
499 Neuroarcooidasis: demonstration of meningeal disease by gadolinium enhanced magnetic resonance imaging K T Khan, H Manji, J Britton, F Schon
503 Wildervanck or cervico-oculo-acoustic syndrome and MRI findings P J Hughes, P T G Davies, S W Roche, T D Matthews, R J M Lane
505 Central motor pathways in patients with mirror movements T G Britton, B-U Meyer, R Benecke
511 Central motor conduction in a family with hereditary motor and sensory neuropathy with pyramidal signs (HMSN V) A Schneider, C W Hess, S Kopp
516 Diurnal variation of essential and physiological tremor J J van Hulst, J G van Dijk, R J W Diamenhold, E A van der Velde, B Kemp, P van Brummen, J A van der Krogt, R A C Roos, O J S Buruma
520 Partial, non-thrombotic, superior sagittal sinus occlusion due to occipital skull tumours G T Plant, J J Donald, A Jackowski, S J Vinnicombe, B E Kendall
524 Motor potentials of bulbocavernous muscle after transcranial and lumbar magnetic stimulation: comparative study with bulbocavernous reflex and pudendal evoked potentials A Ghezzi, L Callea, M Zaffaroni, R Montanini, G Tesera
527 Graded assessment and classification of impaired temperature sensibility in patients with diabetic polyneuropathy P Hanson, U Lindblom, P Lindström
531 Assessment of autonomic function in myotonic dystrophy J C den Heijer, J G van Dijk, W L E M Bollen, J E Bos, A R Wintzen
535 Immunohistochemical quantification of substance P in spinal dorsal horns of patients with multiple system atrophy N Tomohane, T Kitamoto, J Tateishi, Y Sato
542 Dementia presenting with aphasia: clinical characteristics M F Mendes, B A Zander
484 The neuropsychological sequelae of attempted hanging A A Medalia, A E Merriam, J H Ehrenreich
494 Different types of skew deviation Th Brandt, M Dieterich
551 Post-traumatic syringomyelia following uncomplicated spinal fracture A Bleasal, P Clouston, N Dorsch
554 Allele frequencies of the third component of complement (C3) in MS patients D E Bulman, H Armstrong, G C Ebers
556 Reversible operculum syndrome caused by progressive epilepsy partialis continua in a child with left hemimegalencephaly L Puccio, F Vigevano
559 Shunt failure caused by valve collapse T Lundar, I A Langmoen, K H Hovind
561 Trapezius muscle atrophy after whiplash injury: accessory nerve or cervical plexus lesion? L Toth, G Zanette
561 Cysticercus immunoblot assay in Indian patients with single small enhancing CT lesions V Rajeshkar, M Wilson, P M Schantz
562 Chronic hemidysesthesia following acute dystonic reaction to thiethylperazine F J Jimenez-Jimenez, A Vasquez, P Garcia-Ruiz, D Garcia-Urra, E Varela de Seijas
562 Bilateral metastases in the cerebellopontine angle O Delerue, A Destee, P Devos
563 Myasthenia gravis aggravated by pyrantel pamoate E Bescansa, M Nicolas, C Aguado, M A Toledano, M Vona
565 Myxopapillary ependymomas arising from nerve roots of the spinal cord A Sharma
564 Spinal extradural venous haemorrhage controlled by a drawing pin: a new technique in neurosurgery K M Morris, G F G Findlay

Short reports
483 Rhazes (850–923 AD)

Letters
485 Book reviews

Neurological stamp
483 Rhazes (850–923 AD)
