A combined clinical and neurophysiological approach to the study of patients with tremor P Bain

Management of raised intracranial pressure J D Pickard, M Czosnyka

Reductions in parietal and temporal cerebral metabolic rates for glucose are not specific for Alzheimer's disease M B Schapiro, P Pietrini, C L Grady, M J Ball, C DeCarli, A Kamar, J A Kaye, J V Haxby

Successful treatment of childhood onset symptomatic dystonia with levodopa N A Fletcher, P D Thompson, J W Scadding, C D Marden

Assessing tremor severity P G Bain, L J Findley, P Aitchison, M Behari, M Vidal-Huerto, M Gresty, J C Rothwell, P D Thompson, C D Marden

Diurnal effects of motor activity and fatigue in Parkinson's disease J J van Hulsen, G Hoogland, E A van der Velde, H A M Middelkoop, G A Kerkhof, R A C Roos

Neuropsychological abnormalities in AIDS and asymptomatic HIV seropositive patients G Villa, D Montesano, C Marra, A Bartoli, A Antonini, P Palavecina, E Tamburrini, I Itzi

Bilateral occipital calcification, epilepsy and coeliac disease: clinical and neuroimaging features of a new syndrome A Magauda, B Dalla Bernardina, P De Marco, Z Sfaldio, M Longo, V Colamaria, O Danielli, G Tortorella, M A Tata, R Di Perri, M Meduri

Compressive radial nerve palsy induced by military shooting training: clinical and electrophysiological study W-C Shyu, J-C Lin, M-K Chang, W-L Tiao

Excessive closure of the right eye: a new sign of infarction in the territory of the ipsilateral right middle cerebral artery S Okhawa, A Yamadori, K Mauda, M Tabuchi, Y Ohsumi, E Mori, T Yoshida, Y Yonehara, T Uehara

Horner's syndrome in Wegener's granulomatosis: report of four cases H Nishino, F A Rubio

Mitochondrial encephalomyopathy: variable clinical expression within a single kindred D Crimmins, J G L Morris, G L Walker, C M Sue, E Byrne, S Stevens, B Jean-Francois, C Yaunikkas, R Pampimlett

Transcranial Doppler detection of anterior cerebral artery vasospasm L Wennihan, G W Petty, M E Fink, R A Solomon, J P Mohr

Effects of depot neuroleptics on driving performance in chronic schizophrenic patients K R Wylie, D J Thompson, H J Wilding

Angiotropic intravascular large-cell lymphoma with massive cerebral extension R Torenbeek, Ph Schelens, R J M Strack van Schijndel, P R Algra, J Heimans, P van der Valk

Human herpesvirus 6 and multiple sclerosis: survey of anti-HHV-6 antibodies by immunofluorescence analysis and of viral sequences by polymerase chain reaction P Sola, E Merelli, R Marasca, M Poggi, M Luppi, M Montorii, G Torelli

Acute disseminated encephalomyelitis presenting as a solitary brainstem mass D H Miller, F Scaravelli, D C T Thomas, P Harvey, N P Hirsch

Pure progressive aphasina L Cohen, N Benoiti, P Van Eeckhoudt, B D'Lucas, P Brunet

Vigabatrin and depression H A Ring, R Crellin, S Kirker, E H Reynolds

Dementia with leucoaraisis and dural arteriovenous malformation: clinical and PET case study P Nencini, D Insinari, J Gibbo, S Mangiafico

Syndrome of transtentorial herniation: is vertical displacement necessary? A H Ropper

'Pinocchio syndrome': a peculiar form of reflex epilepsy? F Sella, Y Chevalier, M Collard

Polyunsaturated fatty acids in peroxisomal disorders: a hypothesis and a proposal for treatment F Roels, S Fischer, W Kissing

Herpes simplex encephalitis in a patient with complex partial epilepsy: confirmation by the polymerase chain reaction with necropsy studies A Z J Zeman, K Miles, M Giardis, S Shorvon, J D Fox

Pieter Camper (1721–89) L F Haas
