Dissociative psychopathology, non-epileptic seizures, and neurology

R J Brown, M R Trimble

Chronic fatigue syndrome: is it physical?

R Lane

What contributes to quality of life in patients with Parkinson’s disease?

C D Ward

Can a neuropsychological follow up contribute to the diagnosis of parkinsonian syndromes?

B Pillon

Tetanus

J J Farrar, L M Yen, T Cook, N Fairweather, N Binh, J Parry, C M Parry

Strength and physiological response to exercise in patients with chronic fatigue syndrome

K Y Fulcher, P D White

What contributes to quality of life in patients with Parkinson’s disease?

A Schrag, M Jahanshahi, N Quinn

Neuropsychological follow up in patients with Parkinson’s disease, striatonigral degeneration-type multisystem atrophy, and progressive supranuclear palsy

P Soliveri, D Monza, D Purdii, P Carella, S Gentronii, D Tesa, F Girotti

Repetitive speech phenomena in Parkinson’s disease

T Benke, C Hohenstein, W Poewe, B Butterworth

Neuropsychological outcome after unilateral pallidotomy for the treatment of Parkinson’s disease

Long term outcome of unilateral pallidotomy: follow up of 15 patients for 3 years

K Pal, A Samii, A Kishore, M Schützer, E Mab, S Yardley, I M Turnbull, D B Calne

Predictive control of muscle responses to arm perturbations in cerebellar patients

D Timmann, S Richter, S Bestmann, K T Kalveram, J Konczak

Relation between abnormal patterns of muscle activation and response to common peroneal nerve stimulation in hemiplegia

J H Barridge, D L McLellan

Enhanced B7 costimulatory molecule expression in inflammatory human sural nerve biopsies

R Kiefer, F Dangond, M Muellen, K V Toyka, D A Hafer, H-P Hartung

Low frequency of replication errors in primary nervous system tumours

M J Sobrido, C R Pereira, F Barros, J Forteza, A Carracedo, L Mena

Incidence and prevalence of neurological disorders associated with HIV since the introduction of highly active antiretroviral therapy (HAART)

M Maschke, O Kastrup, S Esser, B Ross, U Hengge, A Hufnagel

Infection related to intracranial pressure monitors in adults: analysis of risk factors and antibiotic prophylaxis

F Crawley, D Bevan, D Wren

Vanishing Balò-like lesions in multiple sclerosis

G Iannucci, M Mascalchi, F Salti, M Filippi

Coexisting vertical and horizontal one and a half syndromes

S Teao, Y Osano, T Fukuoka, N Miura, T Mitsuma, G Sobue

Late adult onset chorea with typical pathology of Hallervorden-Spatz syndrome

D A Grimes, A E Lang, C Bergeron

Management of intracranial bleeding associated with anticoagulation: balancing the risk of further bleeding against thromboembolism from prosthetic heart valves

F Crawley, D Bevan, D Wren

Primary diffuse leptomeningeal gliomatosis: unusual MRI with non-enhancing nodular lesions on the cerebellar surface and spinal leptomeningeal enhancement

S Kastenbauer, A Danek, W Klein, T A Yousry, K Bise, G Reifenberger, H W Pfister

Spatial memory impairment in patients after tumour resection: evidence for a double dissociation

402 Malignant catatonia secondary to sporadic encephalitis lethargica

H A Shill, M A Stacy

Downbeat nystagmus from heat stroke

G P van Stavern, V Biousse, N J Newman, J C Leingang

Apolipoprotein E ε2 may be a risk factor for sporadic frontotemporal dementia

D J Lehmann, A D Smith, M Combrinck, L Barnetson, C Joachim
Bilateral visual improvement after unilateral optic canal decompression and cranial vault expansion in a patient with osteopetrosis, narrowed optic canals, and increased intracranial pressure
