Editorial

285 Cerebral autosomal dominant arteriopathy with subcortical infarcts and leukoencephalopathy: from stroke to vessel wall physiology M-G Bousser, E Tournaire-Lasserve

Editorial commentary

288 Gait disorders V Dietz

Papers

289 Comparative analysis of the gait disorder of normal pressure hydrocephalus and Parkinson’s disease H Stolze, J P Kuhnt-Buschbeck, H Driech, K Jöhnk, M Illert, G Deuschl

298 Shunt related changes in somatostatin, neuropeptide Y, and corticotropin releasing factor concentrations in patients with normal pressure hydrocephalus M A Poca, M Matano, J Sahuquillo, R Catalán, J Ibáñez, R Galard

305 Ambulatory ECG and analysis of heart rate variability in Parkinson’s disease T H Haapaniemi, V Puruainen, J T Korpela, H V Huikuri, K A Sotaniemi, V V Myllylä

311 Magnetisation transfer ratio and mean diffusivity of normal appearing white and grey matter from patients with multiple sclerosis M Cercignani, M Bozzali, G Iannucci, G Comi, M Filippi

318 Quantitative diffusion weighted magnetic resonance imaging, cerebral atrophy, and disability in multiple sclerosis M Wilson, P S Morgan, X Lin, B P Turner, L D Blumhardt

323 Distinct behavioural profiles in frontotemporal dementia and semantic dementia J S Snowdon, D Bathgate, A Varma, A Blackshaw, Z C Gibbons, D Neary

333 Clinical features associated with internal carotid artery occlusion do not correlate with MRA cerebroptal flow measurements K J van Everdingen, L J Kappelle, C J M Klijn, W P T M Mali, J van der Grond

340 Incidence and outcome of subarachnoid haemorrhage: a retrospective population based study L H Pobereskin

344 Atrial fibrillation with small subcortical infarcts D K Jung, G Devuyst, P Maeder, J Bogousslavsky

359 α-Tocopherol/lipid ratio in blood is decreased in patients with Leber’s hereditary optic neuropathy and asymptomatic carriers of the 11778 mtDNA mutation P Klivenyi, E Karg, C Rozsa, R Horvath, S Komoly, I Nemeth, S Turi, L Vecsei

363 Electrophysiological evaluation of oropharyngeal swallowing in myotonic dystrophy C Ertekin, N Yuceyar, I Aydogdu, H Karasoy

372 Differences in accommodative properties of median and peroneal motor axons S Kawabara, C Cappelen-Smith, C S-Y Lin, I Mogyoros, D Burke

377 Prevalence of headache in an elderly population: attack frequency, disability, and use of medication M Prencipe, A R Casini, C Ferretti, M Santini, F Pezzella, N Scaldaferrì, F Culasso

Short reports

382 Scleroderma “en coup de sabre”: pathological evidence of intracerebral inflammation J Stone, A J Franks, J A Guthrie, M H Johnson

386 Presynaptic inhibition of cerebellar GABAergic transmission by glutamate decarboxylase autoantibodies in progressive cerebellar ataxia H Takenoshiba, M Shizuka-Ikeda, H Mitoma, S-Y Song, Y Harigaya, Y Igeta, M Yaguchi, K Ishida, M Shoji, M Tanaka, H Mizusawa, K Okamoto

390 Assessing the risk of early multiple sclerosis in patients with clinically isolated syndromes: the role of a follow up MRI P A Brex, K A Miszkul, J I O’Riordan, G T Plant, I P Moseley, A J Thompson, D H Miller

394 Obsessive-compulsive symptoms in Parkinson’s disease M Allegret, C Junqué, F Valldeoriola, P Vendrell, M J Martí, E Tolsa

397 Identification without naming: a functional neuroimaging study of an amnestic patient M-L Gorno-Tempini, R Wenman, C Price, P Rudge, L Cipolotti

401 Blood pressure response to glucose potassium insulin therapy in patients with acute stroke with mild to moderate hyperglycaemia J F Scott, G M Robinson, J M French, J E O’Connell, K G M M Alberti, G S Gray

Neurological pictures

404 Widespread cerebral cavernous haemangioma found after 24 years of intermittent symptoms M R Turner, W N MacLeod

405 Infarction and shrinkage of a meningioma after extensive cosmetic surgery K B Balkhoyor, M Bernstein
