Editorial

Cerebral autosomal dominant arteriopathy with subcortical infarcts and leukoencephalopathy: from stroke to vessel wall physiology M-G Bousser, E Tournier-Lasserve

Editorial commentary

Gait disorders V Dietz

Papers

Comparative analysis of the gait disorder of normal pressure hydrocephalus and Parkinson’s disease H Stolze, J P Kuhnt-Buschbeck, H Driech, K Jöhnk, M Illert, G Deuschl

Shunt related changes in somatostatin, neuropeptide Y, and corticotropin releasing factor concentrations in patients with normal pressure hydrocephalus M A Poca, M Matano, J Sahnuillo, R Catalán, J Ibáñez, R Galard

Ambulatory ECG and analysis of heart rate variability in Parkinson’s disease T H Haapaniemi, V Puranainen, J T Korpela, H V Haukur, K A Sotaniemi, V V Myllylää

Magnetisation transfer ratio and mean diffusivity of normal appearing white and grey matter from patients with multiple sclerosis M Cercignani, M Bozzali, G Iannucci, G Comi, M Filippi

Quantitative diffusion weighted magnetic resonance imaging, cerebral atrophy, and disability in multiple sclerosis M Wilson, P S Morgan, X Lin, B P Turner, L D Blumberg

Shunt related changes in somatostatin, neuropeptide Y, and corticotropin releasing factor concentrations in patients with normal pressure hydrocephalus M A Poca, M Matano, J Sahnuillo, R Catalán, J Ibáñez, R Galard

Clinical features associated with internal carotid artery occlusion do not correlate with MRA cerebroptal flow measurements K J van Everdingen, L J Kappelle, C J M Klijn, W T M Mali, J van der Grond

α-Tocopherol/ lipid ratio in blood is decreased in patients with Leber’s hereditary optic neuropathy and asymptomatic carriers of the 11778 mtDNA mutation P Klivenyi, E Karg, C Rozsa, R Horvath, S Komoly, I Nemeth, S Turi, L Vecsei

Electrophysiological evaluation of oropharyngeal swallowing in myotonic dystrophy C Ertekin, N Yüceyar, I Aydoğdu, H Karasoy

Differences in accommodative properties of median and peroneal motor axons S Kuwabara, C Cappelen-Smith, C S-Y Lin, I Mogyoros, D Burke

Prevalence of headache in an elderly population: attack frequency, disability, and use of medication M Prencipe, A R Casini, F Pezzella, N Scaldaferri, N Scaldaferri, F Culasso

Scleroderma “en coup de sabre”: pathological evidence of intracerebral inflammation J Stone, A J Franks, J A Guthrie, M H Johnson

Presynaptic inhibition of cerebellar GABAergic transmission by glutamate decarboxylase autoantibodies in progressive cerebellar ataxia H Takenoshita, M Shizuka-Ikeda, H Mitoma, S-Y Song, Y Harigaya, Y Igeta, M Yaguchi, K Ishida, M Shoji, M Tanaka, H Mizusawa, K Okamoto

Assessing the risk of early multiple sclerosis in patients with clinically isolated syndromes: the role of a follow up MRI P A Brex, K A Miszkiew, J I O’Riordan, G T Plant, I P Moseley, A J Thompson, D H Miller

Obsessive-compulsive symptoms in Parkinson’s disease M Alegret, C Junqué, F Valldorriola, P Vendrell, M J Martí, E Tolsosa

Identification without naming: a functional neuroimaging study of an amonic patient M-L Gorno-Tempini, R Würmian, C Price, P Rudge, L Cipolotti

Blood pressure response to glucose potassium insulin therapy in patients with acute stroke with mild to moderate hyperglycaemia J F Scott, G M Robinson, J M French, J E O’Connell, K G M Alberi, C S Gray

Widespread cerebral cavernous haemangiomata found after 24 years of intermittent symptoms M R Turner, W N MacLeod

Infarction and shrinkage of a meningioma after extensive cosmetic surgery K B Balkhoyor, M Bernstein
Letters

406 Volitional and stimulation induced neuromyotonic discharges: unusual electrophysiological pattern in acquired neuromyotonia

407 Zeta class glutathione transferase polymorphisms and Parkinson’s disease

408 Acute autonomic and sensory neuropathy after interferon α-2b therapy for chronic hepatitis C

409 Neuropathic pain with vesical and rectal hyperreflexia and cocontraction after pelvic surgery

410 Peripheral nerve ischaemia after internal iliac artery ligation

411 Peripheral nerve ischaemia after internal iliac artery ligation

412 Diffusion weighted magnetic resonance imaging in Neuro-Behçet’s disease

413 Azathioprine and interferon β-1b treatment in relapsing-remitting multiple sclerosis

414 Unilateral caudate head lesion simulating brain tumour in X-linked adult onset adrenoleukodystrophy

415 Lymphadenopathy in patients with multiple sclerosis undergoing treatment with glatiramer acetate

Correspondence

416 Neurovisceral rehabilitation in Balint’s syndrome

417 Treatment of early onset Parkinson’s disease with ropinirole

418 Does disturbed homocysteine and folate metabolism in depression result from enhanced oxidative stress?

419 Long term follow up after perimesencephalic subarachnoid haemorrhage

420 Idiopathic intracranial hypertension and anticardiolipin antibodies

Book reviews

421 Schrag A, Jahanshahi M, Quinn N. What contributes to the quality of life in patients with Parkinson’s disease

Correction

425 Henry Hun (1854-1924) D J Lanska

Historical note

349 Zeta class glutathione transferase polymorphisms and Parkinson’s disease

Neurological stamp

393 Paul Emilio Roux (1853–1933) L F Haas
