Progress in inflammatory myopathies: good but not good enough
M C Dalakas

Systematic review of immunomodulatory drugs for the treatment of people with multiple sclerosis: Is there good quality evidence on effectiveness and cost?
J Bryant, A Clegg, R Milne

Excitatory and inhibitory corticospinal responses to transcranial magnetic stimulation in patients with minor to moderate head injury
A V Chistyakov, J F Soustiel, H Hafner, M Trubnik, G Lexy, M Feinsod

Dementia as a complication of schizophrenia
P J de Vries, W G Honer, P M Kemp, P J McKenna

Affective-prosodic deficits in schizophrenia: profiles of patients with brain damage and comparison to schizophrenic symptoms
E D Ross, D M Orbelo, J Cartwright, S Hansel, M Burgard, J A Testa, R Buck

Kinematic analysis of handwriting in patients with obsessive-compulsive disorder
P Masrogioriou, R Mergl, P Tiggges, J El Husseini, A Schröter, G Juchel, M Zaudig, M Hegerl

Cluster headache in women: clinical characteristics and comparison with cluster headache in men
T D Rozen, R Miknam, A L Shechter, W B Young, S D Silberstein

Phenotypic variation of a Thr704Met mutation in skeletal sodium channel gene in a family with paralysis periodicata paramyotonica
J Kim, Y Hahn, E H Sohn, Y J Lee, J H Yun, J M Kim, J H Chung

Both total and phosphorylated tau are increased in Alzheimer’s disease

The benefit of an acute stroke unit in patients with intracranial haemorrhage: a controlled trial
O M Runnning, B Guldog, K Stavem

Stance control is not affected by paresis and reflex hyperecitability: the case of spastic patients
A Nardone, M Galante, B Lucas, M Schieppati

Reconsideration of biallelic inactivation of the VHL tumour suppressor gene in hemangioblastomas of the central nervous system
S Gläsker, B U Bender, T W Apel, V van Velthoven, L M Mulligan, J Zentner, H P H Neumann

The “burden of normality”: concepts of adjustment after surgery for seizures
S Wilson, P Bladin, M Salting

Benzoiazepine receptor quantification in Huntington’s disease with iomazenil and SPECT

Clinical phenotype in patients with a-synuclein Parkinson’s disease living in Greece in comparison with patients with sporadic Parkinson’s disease
S Papapetropoulos, C Paichalisi, A Athanassiadou, A Papadimitriou, J Ellul, M H Polymeropoulos, Th Papapetropoulos

Cerebral aneurysms associated with Behçet’s disease: a case report
S Nakasu, M Kaneko, M Matsuda

Axonal polynoeropathy in obstructive sleep apnoea
P Lüdemann, R Dziewas, P Söörös, S Happe, A Frese

Ocular contralpulsion in multiple sclerosis: clinical features and pathophysiological mechanisms
E M Frohman, T C Frohman, J Fleckenstein, M K Rache, H Hauber, P Kramer

Comparative study of preceding Campylobacter jejuni infection in Guillain-Barré syndrome in Japan and The Netherlands
K Koga, C W Aga, N Yuki, B C Jacobs, P Herbrink, F G Avandroeché, K Hirata, P A van Doorn

Axial type of dural graft associated Creutzfeldt-Jakob disease: report of a postmortem case with review of the literature
K Kimura, A Nonaka, H Tashiro, M Yaginuma, R Shimokawa, R Okeda, M Yamada
Lesson of the month 700 Intravenous hypertrophic Paccioni granulations: differentiation from venous dural thrombosis

P Giraud, S Thobois, M Hermier, E Broussolle, G Chazot

Letters 702 Posterior alexia after right occipitotemporal infarction E Gómez-Tortosa, A del Barrio

703 De novo partial duplication of 17p associated with Charcot-Marie-Tooth disease type 1A

J L Fernández-Torre, B Otero, V Alvarez, I Hernando, J Fernández-Toral

704 Bilateral vestibular failure as a unique presenting sign in carcinomatous meningitis: case report

L Pollack, R Milo, V Kosyych, M J Rabey, E Shapira

705 Loss of silent reading in frontotemporal dementia: unmasking the inner speech

L Vercueil, H Klinger

706 Anti-Jo-1 positive inclusion body myositis with a marked and sustained clinical improvement

after oral prednisone G J D Hengstman, B G M van Engelen, W J van Veen

706 Upholsterer’s PIN S M Wilson, V Devaraj, C Gardner-Thorpe

Correspondence 707 Neurocysticercosis and epilepsy in developing countries

A Flisser

708 High psychiatric morbidity in patients with medically unexplained symptoms

N Murali, J Jagadisha, N Kar, S Rehman, P S V N Sharma

708 The psychoses of epilepsy

P Sachdev

709 Diagnostic criteria of multiple system atrophy

P L Lantos

Book reviews

Historical note 699 Aphasia and Wernicke’s arc

J M S Pearce

Neurological stamp 678 Paul Ehrlisch (1854–1915) and Emil Adolf Von Behring (1854–1917) L F Haas

Periodicals postage paid at Rahway NJ. Postmaster: send address changes to: Journal of Neurology, Neurosurgery, and Psychiatry, c/o Mercury Airfreight International Ltd, 365 Blair Road, Avenel, NJ 07001, USA. Telephone: 800 236 6265. All enquiries, however, must be addressed to the publisher in London.

NOTICE TO SUBSCRIBERS Journal of Neurology, Neurosurgery, and Psychiatry is published monthly. The annual subscription rates for institutions are £314.00 (USA $503.00) for print only. Online licences are priced on the FTE basis and allow access by the whole institution. Institutions who opt for online access may purchase print at deeply discounted rates. Personal subscription rates which include online access are £132.00 (USA $212.00). Enquiries regarding rates and orders should be sent to the Subscription Manager, BMJ Publishing Group, BMA House, Tavistock Square, London WC1H 9JR, subscriptions@bmjgroup.com. Subscriptions may be paid for their subscriptions by Mastercard, Visa, or American Express by quoting on their order the credit or charge card preferred, together with the appropriate personal account number and expiry date of the card. Orders can also be placed with any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders with or without payment may also be sent to the BMJ Publishing Group, PO Box 9005, Kennettsoundsport, ME 04046, USA. Tel: 1 800 236 6265. All enquiries, however, must be addressed to the publisher in London.) All enquiries regarding air mail rates and single copies already published should be addressed to the publisher in London.
