Subject index

AAA syndrome, Allgrove or "A" syndrome: an autosomal recessive syndrome causing multisystem neurological disease, 654
abdominal reflex, The deep tendon and the abdominal reflexes, 150
ABN Abstracts, Joint congress Association of British Neurologists and the Neurological Association of South Africa, University of Cape Town, 29 January – 1 February 2003, 1166
Proceedings of the Association of British Neurologists and the British Neuropsychiatry Association, Royal College of Physicians, 2-4 October 2002, 397
Proceedings of the Association of British Neurologists, Cardiff City Hall, Cathays Park, 2 April–4 April 2003, 1448
Proceedings of the Head Injury Conference and Annual Meeting of the British Neuropsychiatry Association, the Institute of Child Health, central London, 12-14 February 2003, 830
acetycholine receptors, Autoimmune myasthenia gravis after cardiac surgery, 392
acetycholinesterase, Brain acetycholinesterase activity in mild cognitive impairment and early Alzheimer’s disease, 115
acetycholinesterase inhibition, Acetycholinesterase inhibition: a novel approach in the treatment of neurogenic orthostatic hypotension, 1294
Priority setting: learning to make tough decisions, 1185
acoustic neuroma, Gamma knife stereotactic radiosurgery for unilateral acoustic neuromas, 1536
ACTH, Neuroendocrine changes in patients with acute space occupying ischemic stroke, 725
active neuromuscular stimulation, Stroke motor recovery: active neuromuscular stimulation and repetitive practice schedules, 1562
activities of daily living, Behavioural abnormalities contribute to functional decline in Huntington’s disease, 120
acute neurupathy, A variant of multifocal motor neuropathy with acute generalised presentation and persistent conduction blocks, 1555
acute stroke, Clinical radiologic correlations in acute stroke: is the signal intensity at the end of the tunnel getting brighter quicker?, 840
acyclovir, Brain stem encephalitis caused by primary herpes simplex 2 infection in a young woman, 1323
ADHD, Interface between neurology and psychiatry in childhood, 117
New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
adhesion molecules, Human cellular inflammation in the pathology of acute cerebral ischaemia, 1476
adolescence, Cognitive dysfunction in young men following head injury in childhood and adolescence: a population study, 933
Neurological and cognitive decline in adolescence, 35
Transition from paediatric to adult medical services for young people with chronic neurological problems, 1011
adrenoleukodystrophy, Improvement of central motor conduction after active neuromuscular stimulation, 725
adrenomyeloneuropathy, Clinical and electrophysiological improvement of adrenomyeloneuropathy with steroid treatment, 822
adult neuronal ceroid lipofuscinosis, Neuronegic malignant syndrome in Kufs’ disease, 365
affect, Dissociation of affective modulation of recollective and perceptual experience following amygdala damage, 253
age, Onset age and severity of motor impairment are associated with reduction of myocardial 123I-MIBG uptake in Parkinson’s disease, 423
aging, fMRI studies of associative encoding in young and elderly controls and mild Alzheimer’s disease, 44
alcohol, Studies of associative encoding in young and elderly controls and mild Alzheimer’s disease, 44
AIDS, Progressive multifocal leukoencephalopathy with unusual inflammatory response during antiretroviral treatment, 1142
The clinicopathological spectrum of Rosenthal fibre encephalopathy and Alexander’s disease: a case report and review of the literature, 807
aircraft, Economy class stroke syndromes: vertebral artery dissection revisited, 1594
Alexander’s disease, The clinicopathological spectrum of Rosenthal fibre encephalopathy and Alexander’s disease: a case report and review of the literature, 807
Allgrove’s syndrome, Allgrove or “A” syndrome: an autosomal recessive syndrome causing multisystem neurological disease, 654
motor neuron, The relation between Ashworth scale scores and the excitability of the α motor neurones in patients with post-stroke muscle spasticity, 646
ALSACQ, Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSACQ-40 and ALSACQ-5), 242
Alzheimer’s disease, Alzheimer’s disease: differences in technetium-99m HMPAO SPECT scan findings between early onset and late onset dementia, 715
A randomised placebo controlled study to assess the effects of cholinergic treatment on muscarinic receptors in Alzheimer’s disease, 1567
A study of stereotypic behaviours in Alzheimer’s disease and frontal and temporal variant frontotemporal dementia, 1398
Brain acetycholinesterase activity in mild cognitive impairment and early Alzheimer’s disease, 113
Coexistence of CADASIL and Alzheimer’s disease, 790
Coexistent Lewy body disease in a case of “visual variant of Alzheimer’s disease”, 389
Dopas and dementia, 147
fMRI studies of associative encoding in young and elderly controls and mild Alzheimer’s disease, 44
Head injury and Alzheimer’s disease, 841
Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857
Intrathecal inflammation precedes development of Alzheimer’s disease, 1200
Limb length and dementia in an older Korean population, 427
Long term neuropsychological outcome after head injury: relation to APOE genotype, 1047
Low vitamin B-12 status in confirmed Alzheimer’s disease as revealed by serum holotranscobalamin, 959
Melissa officinalis extract in the treatment of patients with mild to moderate Alzheimer’s disease: a double blind, randomised, placebo controlled trial, 863
Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
Predictors of institutionalisation in people with dementia, 1315
Saitohin gene is not associated with Alzheimer’s disease, 362
Shifts in angiotensin I converting enzyme insertion allele frequency across Europe: implications for Alzheimer’s disease risk, 1159
Systemic infection, interleukin 1β, and cognitive decline in Alzheimer’s disease, 788
The topography of metabolic deficits in posterior cortical atrophy (the visual variant of Alzheimer’s disease) with FDG-PET, 1521
American trypanosomiasis, American trypanosomiasis (Chagas’ disease): an unrecognised cause of stroke, 516
amnesia, A case of frontal network amnesia, 106
Hypothalamic amnesia and frontal lobe function disorders after Langerhans cell histiocytosis, 1348
Limbic encephalitis presenting with topographical disorientation and amnesia, 110
amaebiosis, Identification of amebae in the CSF in a patient with meningopneumococcal, 1445
amygdala, Amygdala volumetry in “imaging-negative” temporal lobe epilepsy, 1245
Disassociation of affective modulation of recollective and perceptual experience following amygdala damage, 253
Similarity and disparity of obsessive-compulsive disorder and schizophrainia in MR volumetric abnormalities of the hippocampus-amygdala complex, 962
amyloid β protein, Association of neprilysin polymorphism with cerebral amyloid angiopathy, 749
amyotrophic lateral sclerosis, Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSACQ-40 and ALSACQ-5), 242
Diffusion tensor imaging detects corticospinal tract involvement at multiple levels in amyotrophic lateral sclerosis, 1250
Dysphagia due to Chiari I malformation mimicking ALS, 549
Early or late appearance of “dropped head syndrome” in amyotrophic lateral sclerosis, 683
Effect of a multidisciplinary amyotrophic lateral sclerosis (ALS) clinic on ALS survival: a population based study, 1996–2000, 1258
Persistent bitter taste as an initial symptom of amyotrophic lateral sclerosis, 687
Polymerisms of taxifing and detoxifying hepatic enzymes in amyotrophic lateral sclerosis, 1161
Predictors of successful self control during brain-computer communication, 1117
Prolonged survival in motor neuron disease: a descriptive study of the King’s database 1990–2002, 995
Quality of life in motor neurone disease—towards a more practical assessment tool?, 287
Transcutaneous cervical root stimulation in the diagnosis of multifocal motor neuropathy with conduction block, 1329
aneurysm, Central and peripheral fusiform aneurysms six years after left atrial myxoma resection, 280
Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680
angiography, Measuring carotid stenosis, 140
Reappraisal of early CT signs to predict the arterial occlusion site in acute embolic stroke, 649
angioplasty, Vertebral artery origin angioplasty and primary stenting: safety and restenosis rates in a prospective series, 586
angiotensin I converting enzyme, Shifts in angiotensin I converting enzyme insertion allele frequency across Europe: implications for Alzheimer’s disease risk, 1159
ankle reflex, Comparison of the tendon and plantar strike methods of eliciting the ankle reflex, 1351
anorexia nervosa, Central pontine myelinolysis associated with hypokalaemia in anorexia nervosa, 353
anterior canal failure, Anterior canal failure: ocular torsion without perceptual tilt due to preserved otothil function, 1336
anterior cervical discectomy, Two cases of quadriparesis following anterior cervical discectomy, with normal perioperative autonomic nervous system evoked potentials, 273
anterior inferior cerebellar artery, Auditory disturbance as a prodrome of anterior inferior cerebellar artery infarction, 1644
anterior radiculitis, Acute anterior radiculitis associated with West Nile virus infection, 823
anti-basal ganglia antibodies, Tourette’s syndrome: a cross sectional study to examine the PANDAS hypothesis, 602
anticholinesterase agents, Endplate dysfunction causing respiratory failure in a patient with prior paralytic poliomyelitis, 370
antiepilepsy drugs, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 1352
anti-GAD antibodies, Autoantibodies to glutamic acid decarboxylase in downbeat nystagmus, 998
anti-GQ1b IgG syndrome, Recurrent anti-GQ1b IgG antibody syndrome showing different phenotypes in different periods, 1350
antithyroidal treatment, Should I start all my ischaemic stroke and TIA patients on a statin, an ACE inhibitor, a diuretic and aspirin today?, 1461
anti-Ma2 antibody, Anti-Ma2 antibody related paraneoplastic limbic/brain stem encephalitis associated with breast cancer expressing Ma1, Ma2, and Ma3 mRNAs, 1332
antimotochondrial, Adult paraneoplastic opsoclonus-myoclonus syndrome associated with antimotochondrial autointibodies, 1595
antiretroviral treatment, Progression of HIV associated dementia and clinical outcome in Guillain-Barré syndrome, 971
Apolipoprotein E genotypes and clinical outcome in Guillain-Barré syndrome, 1441
Debrisoquine hydroxylase gene polymorphism (CYP2D64) in dementia with Lewy bodies, 135
Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857
Long term neuropsychological outcome after head injury: relation to APOE genotype, 1047
Mental deterioration later after head injury—does it happen?, 1014
apomorphine, Deep brain stimulation of the subthalamic nucleus: effectiveness in advanced Parkinson’s disease patients previously reliant on apomorphine, 170
aqueduct stenosis, Effect of endoscopic third ventriculostomy on neuropsychological outcome in late onset idiopathic aqueduct stenosis: a prospective study, 322
arachnoid granulations, Intracranial hypertension secondary to giant arachnoid granulations, 418
arousal, Lack of hemispheric dominance for consciousness in acute ischaemic stroke, 889
arterial hypertension, Influence of age on the association between primary hemifacial spasm and arterial hypertension, 979
ARX gene, Brain cysts associated with mutation in the ARX gene, 536
aseptic meningoencephalitis, Lymphoctic hypophysitis successfully treated with azathioprine: first case report, 1581
Ashworth scale, The relation between Ashworth scale scores and the excitability of the a motor neurones in patients with post-stroke muscle spasticity, 646
aspirin, Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452
association study, Role of the dopamine D5 receptor (DRDS) as a susceptibility gene for cervical dystonia, 665
asthma, Pseudoseizures and asthma, 639
asymmetrical signs, Mirror movements of the non-affected hand in hemiparkinsonian patients: a reflection of ipsilateral motor overactivity?, 1352
ataxia, Ataxic arm movements after thalamotomy for Parkinsonism tremor, 258
olfactory dysfunction in degenerative ataxias, 1435
ataxic polyneuropathy, Incidence of endemic ataxic polyneuropathy and its relation to exposure to cyanide in a Nigerian community, 1417
atherosclerosis, Raised plasma oxidised LDL in acute cerebral infarction, 312
ATPase, Reversible acute axonal polyneuropathy associated with Wernicke-Korsakoff syndrome: impaired physiological nerve conduction due to thiamine deficiency?, 674
atrophy, Corticosteroids do not prevent optic nerve atrophy following optic neuritis, 1139
Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
atyphical Pick’s disease, Alterations of muscarinic acetylcholine receptors in atypical Pick’s disease without Pick bodies, 965
augmentation index, Measurement of pulse pressure profiles in patients with trigeminal neuralgia, 533
autoantibodies, Adult paraneoplastic opsoclonus-myoclonus syndrome associated with antithrombridinal autointibodies, 1595
automimmune myasthenia, Autoimmune myasthenia gravis after cardiac surgery, 392
autonomic disease, Autonomic diseases: clinical features and laboratory evaluation, iii31
Autonomic diseases: management, iii42
Constipation in neurological diseases, 13
autonomic nervous system, Autonomic diseases: clinical features and laboratory evaluation, iii31
Autonomic diseases: management, iii42
Autonomic nervous system testing may not distinguish multiple system atrophy from Parkinson’s disease, 56
Intensive care neurology and the autonomic nervous system, iii42
autoimmune myasthenia, Autoimmune myasthenia gravis after cardiac surgery, 392
autonomic disease, Autonomic diseases: clinical features and laboratory evaluation, iii31
Autonomic diseases: management, iii42
Constipation in neurological diseases, 13
autonomic nervous system, Autonomic diseases: clinical features and laboratory evaluation, iii31
Autonomic diseases: management, iii42
Autonomic nervous system testing may not distinguish multiple system atrophy from Parkinson’s disease, 56
Intensive care neurology and the autonomic nervous system, iii42
autoregulation, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765
autosomal dominant cerebellar ataxia, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444
autosomal dominant partial epilepsy with auditory features, Genetics of temporal lobe epilepsy, 1359
awareness, Regional cerebral glucose metabolism in akinetik catatonia and after remission, 1003
axonal necrotic-axonal neuroathrophy: An unusual phenotype of MeLeod syndrome with late onset axonal neuropathy, 1697
axons, Axonal injury in multiple sclerosis, 695
azathioprine, Lymphocytic hypophysitis successfully treated with azathioprine: first case report, 1581
bacterial infection, Bacterial infection: Aetiologic diagnosis of brain abscesses and spinal infections: application of broad range bacterial polymerase chain reaction analysis, 728
balance, Brain white matter lesions detected by magnetic resonance imaging are associated with balance and gait speed, 94
basal cell carcinoma, Uterus terebans: an unusual cause of paraparesis, 1643
basal ganglia, Childhood onset generalised dystonia can be modelled by increased gain in the indirect basal ganglia pathway, 1509
basilar artery, Basilar artery: a study of haemorrhage, 1621
basilar thrombosis, Basilar artery occlusion with lethal or severe stroke, 1621
behavioural dysfunction, Behavioural abnormalities contribute to functional decline in Huntington’s disease, 120
Behcet’s disease, Prevalence and patterns of neurological involvement in Behcet’s disease: a prospective study from Iraq, 608
benign sensory changes, Hemisensory syndrome is associated with a low diagnostic yield and a nearly uniform benign prognosis, 1113
β adrenoreceptor expression, Expression of β2 adrenoreceptors on peripheral blood mononuclear cells in patients with primary and secondary progressive multiple sclerosis: a longitudinal six month study, 197
β endorphin, β endorphin concentrations in PBMC of patients with different clinical phenotypes of multiple sclerosis, 495
Bickerstaff’s brain stem encephalitis, Recurrent anti-GQ1b IgG antibody syndrome showing different phenotypes in different periods, 1350
bilateral ataxia, Bilateral cerebellar ataxia as the sole manifestation of a unilateral rostral pontine terminal infarct, 1445
bilateral hearing loss, Sudden bilateral simultaneous deafness with vertigo as a sole manifestation of vertebrobasilar insufficiency, 539
bilateral medullary infarction, Isolated total tongue paralysis as a manifestation of bilateral medullary infarction, 1698
bilateral subthalamic deep brain stimulation, Defining a role for the subthalamic nucleus within operative theoretical models of subcortical participation in language, 1543
blepharospasm, Botulinum toxin type B in blepharospasm and hemifacial spasm, 687
Eyelid tremor in a patient with a unilateral paramedian thalamic lesion, 356
blood-brain barrier, Blood-brain barrier permeability in type II diabetes, 6
Increased blood-brain barrier permeability in type II diabetes demonstrated by gadolinium magnetic resonance imaging, 70
BOLD fMRI, BOLD fMRI activation induced by vagus nerve stimulation in seizure patients, 811
bone conduction, Vestibular activation by bone conducted sound, 771
bone marrow transplantation, Improvement of central motor conduction after bone marrow transplantation in adenoleukodystrophy, 373
botulinum toxins, Botulinum toxin type B in blepharospasm and hemifacial spasm, 687
brain, Coccidiodymosisis of the brain, mimicking en plaque meningioma, 806
brain abscess, Detection of Staphylococcus aureus by 16S rRNA directed in situ hybridisation in a patient with a brain abscess caused by small colony variants, 1000
brain atrophy, MRI lesion volume heterogeneity in primary progressive MS in relation with axonal damage and brain atrophy, 950
The longitudinal relation between brain lesion load and atrophy in multiple sclerosis: a 14 year follow up study, 1551
brain cysts, Brain cysts associated with mutation in the Aristless related homeobox gene, ARX, 536
brain function, Decreasing, brain function, and neuropsychiatric disorders, 837
brain haemorrhage, Acute rotatory vertigo caused by a small haemorrhage of the vestibular cortex, 388
brain infarction, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
brain infection, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
brain injury, Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857
Normal jugular bulb oxygen saturation, 784
brain lesion load, The longitudinal relation between brain lesion load and atrophy in multiple sclerosis: a 14 year follow up study, 1551
brain metastases, Cerebral metastasis after primary renal cell carcinoma, 141
Spontaneous haemorrhage into metastatic brain tumours after stereotactic radiosurgery using a linear accelerator, 908
brain oedema, Hemiparenesiomycty for large middle cerebral artery territory infarction: outcome in 19 patients, 800
brain sagging, Brain stem and cerebellar dysfunction after lumbar spinal fluid drainage: case report, 992
brain stem, Brain stem encephalitis caused by primary herpes simplex 2 infection in a young woman, 1323
New onset migraine with a brain stem cavernous angioma, 680
brain tissue, Brain tissue oxygen guided treatment supplementing ICP/CPP therapy after traumatic brain injury, 760
Effects of decompressive craniectomy on brain tissue oxygen in patients with intracranial hypertension, 513
Intracerebral microdialysis and CSF hydrodynamics in idiopathic adult hydrocephalus syndrome, 217
brain tumour, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
Magnetoencephaloagraphic representation of the sensorimotor hand area in cases of intracerebral tumour, 1649
Second harmonic imaging: a new ultrasound technique to assess human brain tumour perfusion, 333
The effect of brain tumour laterality on anxiety levels among neurosurgical patients, 1278
brain-computer communication, Predictors of successful self control during brain-computer communication, 1117
breast cancer, Anti-Ma2 antibody related paraneoplastic limbic/brain stem encephalitis associated with breast cancer expressing Ma1, Ma2, and Ma3 mRNAs, 1332
CACNA1A, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444
CADASIL, Coexistence of CADASIL and Alzheimer’s disease, 790
CADASIL syndrome, “CADASIL coma”: an underdiagnosed acute encephalopathy, 249
callalosses disconnection, Reversible callalosses disconnection syndrome in internal hydrocephalus, 389
camptocormia, Head drop and camptocormia, 692
The naming of parts, 692
cardiomyopathy, Association of cardiomyopathy caused by autonomic nervous system impairment with the Miller Fisher syndrome, 689
carotid artery, Measuring carotid stenosis, 140
Meningioma presenting as stroke: report of two cases and estimation of incidence, 136
carpal tunnel syndrome, Clinical surveillance of carpal tunnel syndrome in two areas of the United Kingdom, 1991–2001, 1674
Splitting for carpal tunnel syndrome: prognostic indicators of success, 1342
cassava, Incidence of endemic ataxic polyneuropathy and its relation to exposure to cyanide in a Nigerian community, 1417
catalepsy, CSF hypocretin-1 levels in narcolepsy, Kleine-Levin syndrome, and other hypersomnias and neurological conditions, 1667
catatonia, Regional cerebral glucose metabolism in akinetik catatonia and after remission, 1003
catecholamine, New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
caveolin-3, Immunohistochemical study of caveolin-3 in idiopathic hyperCKaemia, 547
cavernous angioma, New onset migraine with a brain stem cavernous angioma, 680
cavernous haemangioma, Hypertrophic olivary degeneration following pontine haemorrhage: hypertensive crisis or cavernous haemangioma bleeding?, 797
CD45, The role of the PTPRC (CD45) mutation in the development of multiple sclerosis in the North West region of the United Kingdom, 944
central nervous system, Brain lesions in the course of generalised tetanus, 1432
Congenital abnormalities of the central nervous system, i3
Linear scleroderma “en coup de sabre” coexisting with plaque-morpheus: neuroradiological manifestation and response to corticosteroids, 661
Molecular pathogenesis of neuroinflammation, 1364
central pontine myelinolysis, Central pontine myelinolysis associated with hypokalaemia in anorexia nervosa, 353
Central pontine myelinolysis temporally related to hypophosphatemia, 820
cerebellum, Olfactory dysfunction in degenerative ataxias, 1435
cerebral amyloid angiopathy, Association of neprilysin polymorphism with cerebral amyloid angiopathy, 749
cerebral aneurysm, Failure to detect *Chlamydia pneumo* niae DNA in cerebral aneurysm sac tissue with two different polymerase chain reaction methods, 756
Plutitary deficiency following aneurysmal subarachnoid haemorrhage, 1133
cerebral angiography, A case of gliosarcoma appearing as ischaemic stroke, 364
cerebral arteriovenous malformations, Should asymptomatic patients with hereditary haemorrhagic telangiectasia (HHT) be screened for cerebral vascular malformations? Data from 22 061 years of HHT patient life, 743
cerebral atrophy, Transient ischaemic attacks are associated with increased rates of global cerebral atrophy, 213
cerebral autoregulation, Cerebral vasomotor reactivity testing in head injury: the link between pressure and flow, 1053
Cerebral blood flow, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765
Long term treatment and disease severity change brain responses to levodopa in Parkinson’s disease, 844
cerebral cortex, Cognitive presentation of multiple sclerosis: evidence for a cortical variant, 872
cerebral cyst, Expanding cerebral cysts (lacunae): a treatable cause of progressive midbrain syndrome, 393
Cerebral embolism, Cerebral embolism in endocarditis: William S hexorus Kirkes (1823–64), 1570
Heralding manifestations of basilar artery occlusion with lethal or severe stroke, 1621
cerebral haemorrhage, Should asymptomatic patients with hereditary haemorrhagic telangiectasia (HHT) be screened for cerebral vascular malformations? Data from 22 061 years of HHT patient life, 743
cerebral hypoxia, Brain tissue oxygen guided treatment supplementing ICP/CP pressure therapy after traumatic brain injury, 760
cerebral infarction, A case of gliosarcoma appearing as ischaemic stroke, 364
Hemicantricotomy for large middle cerebral artery territory infarction: do these patients really benefit from this procedure?, 1600
Hemicantricotomy for large middle cerebral artery territory infarction: outcome in 19 patients, 800
Raised plasma oxidised LDL in acute cerebral infarction, 312
Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452
cerebral ischaemia, Clinical radiologic correlations in acute stroke: is the signal intensity at the end of the tunnel getting brighter quicker?, 840
S100B as a surrogate marker for successful clot lysis in hyperacute middle cerebral artery occlusion, 322
cerebral oxygen metabolism, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765
cerebral palsy, The cerebral palsy: a physiological approach, 123
cerebral perfusion, Second harmonic imaging: a new ultrasound technique to assess human brain tumour perfusion, 333
cerebral trauma, High concentrations of procallogen-propeptides in chronic subdural haematoma and effusion, 522
cerebral venous thrombosis, Recanalisation of cerebral venous thrombosis, 459
cerebrosplinal fluid, A prospective study of CSF markers in 250 patients with possible Creutzfeldt–Jakob disease, 1210
Hypothesis on the pathophysiology of Creutzfeldt-Jakob disease based on simulation of cerebrospinal fluid dynamics, 344
Identification of amoeboe in the CSF in a patient with meningocencephalitis, 1445
clinical trial, Informed consent in trials for neurological emergencies: the example of subarachnoid haemorrhage, 988
Surgery for Parkinson’s disease: lack of reliable clinical trial evidence, 519
closed head trauma, Visual prognosis after indirect traumatic optic neuropathy, 246
cluster headache, Features involved in the diagnostic delay of cluster headache, 1123
coccidioidomycosis, Coccidioidomycosis of the brain, mimicking en plaque meningioma, 806
coeleaic disease, Neuromuscular and sensory disturbances in patients with well treated coeliac disease, 490
cognition, Cyt, impairment in probable multiple sclerosis, 443
Mental deterioration late after head injury—does it happen?, 1014
Moderate hypoglycaemia abolites working memory in humans with and without insulin treated diabetes, 278
Mood changes with deep brain stimulation of STN and GPI: results of a pilot study, 1584
MRI directed bilateral stimulation of the subthalamic nucleus in patients with Parkinson’s disease, 1631
Performing a dementia rating scale in Parkinson’s disease with dementia and dementia with Lewy bodies: comparison with progressive supranuclear palsy and Alzheimer’s disease, 1215
Serum lipids and memory in a population based cohort of middle age women, 1530
cognitive decline, Neurological and cognitive decline in adolescence, 19
cognitive dysfunction, Cognitive dysfunction in young men following head injury in childhood and adolescence: a population study, 933
Working memory deficits in multiple sclerosis: a controlled study with auditory P600 correlates, 1231
cognitive impairment, Blood–brain barrier permeability in type II diabetes, 6
Longitudinal study of cognitive dysfunction in multiple sclerosis: neuropsychological, neuroradiological, and neurophysiological findings, 878
Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
Predictors of cognitive impairment in advanced Parkinson’s disease, 793
cohort study, Predictors of institutionalisation in people with dementia, 1215
coiling, Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680
colonic transit time, Colonic transit time and rectaloid videomanometry in Parkinson’s disease, 268
coma, Favourable outcome of a brain trauma patient despite bilateral loss of cortical somatosensory evoked potential during thialpental sedation, 1157
comparative genomic hybridisation, Lack of chromosomal imbalances in adamantinomatous and papillary craniopharyngiomas, 260
complement, Peripheral neuropathy in hepatitis C virus infection with and without cryoglobulinaemia, 1267
computational model, Childhood onset generalised dystonia can be modelled by increased gain in the indirect basal ganglia pathway, 1509
computed tomography, Clinical application of neuroimaging in epilepsy, 466
Reappraisal of early CT signs to predict the arterial occlusion site in acute embolic stroke, 649
The impact of delays in computed tomography of the brain on the accuracy of diagnosis and subsequent management in patients with minor stroke, 77
Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452
computer communication networks, Internet resources for neurologists, 699
computerised tomography, The prevalence of frontal variant frontotemporal dementia and the frontal lobe syndrome in a population based sample of 85 year olds, 867
COMT inhibition, Entacapone is beneficial in both fluctuating and non-fluctuating patients with Parkinson’s disease: a randomised, placebo controlled, double blind, six month study, 1071
conduct disorder, New evidence for an association between the CSF HVA:S-HIAA ratio and psychopathic traits, 918
conduction block, Transcutaneous cervical root stimulation in the diagnosis of multifocal motor neuropathy with conduction block, 1329
congenital abnormalities, Congenital abnormalities of the central nervous system, 13
congenital fibre type disproportion, Myalgia as the revealing symptom of multicore disease and fibre type disproportion myopathy, 1317
congenital myopathy, Myalgia as the revealing symptom of multicore disease and fibre type disproportion myopathy, 1317
consciousness, Lack of hemispheric dominance for consciousness in acute ischemic stroke, 889
constipation, Constipation in neurological diseases, 13
contracture test, Neuroleptic malignant syndrome in Kufs’ disease, 385
conversion disorder, A 1908 systematic review of the laterality of hysterical hemiplegia, 1163
The 12 year prognosis of unilateral functional weakness and sensory disturbance, 591
What is wrong in conversion disorder?, 557
cortical dysplasia, Outcome of epilepsy surgery in focal cortical dysplasia, 183
Surgery for drug resistant partial epilepsy in children with focal cortical dysplasia: anatomical-clinical correlations and neurophysiological data in 10 patients, 1493
cortical reorganisation, Deterioration of pre-existing hemiparesis brought about by subsequent ipsilateral lacunar infarction, 1152
Preoperative motor system brain mapping using positron emission tomography and statistical parametric mapping: hints on cortical reorganisation, 471
corticosteroids, Corticosteroids do not prevent optic nerve atrophy following optic neuritis, 1139
cortisol, Neuroendocrine changes in patients with acute space occupying ischaemic stroke, 725
counterfactual thinking, Counterfactual cognitive deficit in persons with Parkinson’s disease, 1065
cranialphyngioma, Lack of chromosomal imbalances in adamantinomatous and papillary craniopharyngiomas, 260
Creutzfeld-Jakob disease, A prospective study of CSF markers in 250 patients with possible Creutzfeld-Jakob disease, 1210
Early cognitive decline in Creutzfeldt-Jakob disease associated with human growth hormone treatment, 1412
Neuropathology of Hashimoto’s encephalopathy, 1009
critical care, Access to intensive care unit beds for neurosurgery patients: a qualitative case study, 1299
critical illness myopathy, Neurological consultations in the medical intensive care unit, i116
critical illness polymyopathy, Neurological consultations in the medical intensive care unit, iii16
Cronh’s disease, Cronh’s associated NOD2 gene variants are not involved in determining susceptibility to multiple sclerosis, 1157
cryoglobulinaemia, Peripheral neuropathy in hepatitis C virus infection with and without cryoglobulinaemia, 1267
CSF cell count, Early diagnosis of external ventricular drainage infection: results of a prospective study, 929
