1516 Enlarged Virchow-Robin spaces: do they matter? F Barkhof

1517 Longer term outcome of children born to mothers with epilepsy S D Shorvon

Enlarged perivascular spaces are associated with cognitive function in healthy elderly men A M J MacLullich, J M Wardlaw, K J Ferguson, J M Starr, J R Seckl, I J Deary

Evidence for distinct cognitive deficits after focal cerebellar lesions B Gothwald, B Wilde, Z Mihajlovic, H M Mehndorn

The dynamic time course of memory recovery in transient global amnesia B Guillery-Giraud, B Desgranges, C Urban, P Piolino, V de la Sayette, F Eustache

Effects of botulinum toxin type A on vibration induced facilitation of motor evoked potentials in spasmodic torticollis P P Urban, R Rolke

Long term effect (more than five years) of intrathecal baclofen on impairment, disability, and quality of life in patients with severe spasticity of spinal origin A Zahavi, J H B Geertzen, B Middel, M Staal, J S Rietman

The beneficial antispasticity effect of botulinum toxin type A is maintained after repeated treatment cycles A M O Bakheit, N V Fedorova, F P R Chin, J H B Geertzen, J M H J van Oostenbrugge, R Lousberg, J Lodder

Demographic and CT scan features related to cognitive impairment in the first year after stroke S M C Rasquin, F R J Verhey, R J van Oostenbrugge, R Lousberg, J Ladder

Inappropriate emergency management of status epilepticus in children contributes to need for intensive care R F M Chin, L Verhulst, B G R Neville, M J Peters, R C Scott
Lesional mesial temporal lobe epilepsy and limited resections: prognostic factors and outcome

A cross sectional study on determinants of quality of life in ALS

Effects of lesions of the human posterior thalamus on ocular fixation during voluntary and visually triggered saccades

Frontotemporal dementia: impact of P301L tau mutation on a healthy carrier

Cerebral atrophy in myotonic dystrophy: a voxel based morphometric study

Meningeal derived cerebrospinal fluid proteins in different forms of dementia: is a meningoapath involved in normal pressure hydrocephalus?

Pathophysiology of parkinsonism due to hydrocephalus

Late epilepsy following open surgery for aneurysmal subarachnoid haemorrhage

Visual disturbances representing occipital lobe epilepsy in patients with cerebral calcifications and coeliac disease: a case series

Illusory movements of the contralesional hand in patients with body image disorders

Hereditary neuropathy with liability to pressure palsy: fulminant development with axonal loss during military training

Effects of dexamethasone on peritumoural oedematous brain: a DT-MRI study

Intramedullary tuberculoma mimicking primary CNS lymphoma

Intracranial dural arteriovenous fistulas with or without cerebral sinus thrombosis: analysis of 69 patients

Electro-oculographic measures in patients with chronic whiplash and healthy subjects: a comparative study

Multiple painful sensory mononeuropathies (MPSM), a novel pattern of sarcoid neuropathy

Non-herpetic limbic encephalitis associated with relapsing polychondritis

Diffusion tensor MRI of the cervical cord in a patient with syringomyelia and multiple sclerosis

Ipsilateral axial lateropulsion as an initial symptom of vertebral artery occlusion

Epilepsy in one family with parietal foramina: an incidental finding?

Baroreflex failure secondary to paraneoplastic encephalomyelitis in a 17 year old woman with neuroblastoma

Acquired ocular motor apraxia from bilateral frontoparietal infarcts associated with Takayasu arteritis

Unilateral calf hypertrophy

Salk and Sabin: poliomyelitis immunisation

A note on Pierre Marie (1853–1940)

Unilateral calf hypertrophy
