Contents JNNP
Volume 75 Number 7 July 2004

Editorial
945 The cognitive neuroscience of autism
S Baron-Cohen

Editorial commentaries
948 Expanding clinical dimensions of essential tremor
L J Findley
949 Optimising multi-task performance: opportunities for motoric neurorehabilitation
M A Hirsch

Review
951 Botulinum toxin in clinical practice
J Jankovic

Papers
958 Personality in essential tremor: further evidence of non-motor manifestations of the disease
A Chatterjee, E C Jurwicz, I M Applegate, E D Louis
962 Tau gene and Parkinson's disease: a case-control study and meta-analysis
D G Healy, P M Abou-Sleiman, A J Lees, J P Casas, N Quinn, K Bhatia, A D Hingorani, N W Wood
966 Carotid sinus syndrome is common in dementia with Lewy bodies and correlates with deep white matter lesions
R A Kenny, F E Shaw, J T O'Brien, P H Scheltens, R Kalaria, C Ballard
972 Novelty seeking and harm avoidance in Parkinson's disease: effects of asymmetric dopamine deficiency
R Tomer, J Aharon-Peretz
976 The generic 15D instrument is valid and feasible for measuring health related quality of life in Parkinson's disease
T H Haapaniemi, K A Sotaniemi, H Sintonen, E Taimela for the EcoPD Study Group
984 Platelet-leukocyte interaction and platelet activation in migraine: a link to ischemic stroke?
J A Zeller, K Frahm, R Baron, R Stingele, G Deuschl
988 Survival and quality of life outcome after mechanical ventilation in elderly stroke patients
D A Steckel, H Steinmetz, M Sitzer
994 "Stops walking when talking" as a predictor of falls in people with stroke living in the community
D Hyndman, A Ashburn
998 Evidence for grey matter MTR abnormality in minimally disabled patients with early relapsing-remitting multiple sclerosis
1003 Schizophrenia-like psychosis arising de novo following a temporal lobectomy: timing and risk factors
P Shaw, J Mellers, M Henderson, C Polkey, A S David, B Koone
1009 Pseudosleep events in patients with psychogenic non-epileptic seizures: prevalence and associations
R Duncan, M Otto, A J C Russell, P Conway
1013 Is postural tremor size controlled by interstitial potassium concentration in muscle?
M Lakie, N R Hayes, N Combes, N Langford
1019 Stereotactic radiosurgery for primary trigeminal neuralgia: state of the evidence and recommendations for future reports
B C Lopez, P J Hamlyn, J M Zakrzewska
1025 Effects of surgery on the sensory deficits of syringomyelia and predictors of outcome: a long term prospective study
N Attal, F Parker, M Tadie, N Aghakani, D Bouthassira
A cohort study of early neurological consultation by telemedicine on the care of neurological inpatients J Craig, R Chua, C Russell, R Wootton, D Chant, V Patterson

Short reports

Association of IL-1 RN*2 allele and methionine synthase 2756 AA genotype with dementia severity of sporadic Alzheimer’s disease P Bosco, R-M Guéant-Rodriguez, G Anello, A Romano, B Namour, R S Spada, F Caraci, G Tringali, R Ferri, J L Guéant

Novel amyloid precursor protein gene missense mutation (D678N) in probable familial Alzheimer’s disease Y Watanabe, K Watanebe, Y Adachi, K Wada-Itoe, K Uракami, H Ninomiya, T C Saido, T Hashimoto, T Hatazumo, N Nakashima

Non-convulsive status epilepticus: a profile of patients diagnosed within a tertiary referral centre S Haffey, A McKernan, K Pang

The effect of immunomodulatory treatment on multiple sclerosis fatigue L M Metz, S B Patten, C J Archibald, J J Bakker, C J Harris, D G Patry, R B Bell, M Yeung, W F Murphy, C A Stoian, K Billesberger, L Tillotson, S Peters, D McGowan

Clinically evidenced unilateral dissociation of saccades and pursuit eye movements M Onofrj, D Iacono, A L Luciano, K Armellino, A Thomas

Anti-Hu associated paraneoplastic sensory neuropathy with upper motor neuron involvement M Ogawa, M Nishie, K Kurahashi, M Kaimori, K Wakahayashi

Randomised control trial of tongue acupuncture versus sham acupuncture in improving functional outcome in cerebral palsy J G Sun, C H Ko, V Wang, X R Sun

Retinal abnormalities in CADASIL: a retrospective study of 18 patients M Zuber, D Galanaud, M Detilleux, F Bolgert, C Oppenheim, M G Bousser, H Chabriat

Real time PCR quantification of frataxin mRNA in the peripheral blood leucocytes of Friedreich ataxia patients and carriers L Pianese, M Turano, M S Lo Casale, I De Biase, M Gicchetti, A Monticelli, C Criscuolo, A Filla, S Cozzato

Blink reflex in primary lateral sclerosis D G Podikoglou, T G Avramidis, A L Papadimitriou

Spectroscopy and serial diffusion MR findings in hGH-Creutzfeldt-Jakob disease C Oppenheim, M Zuber, D Galanaud, M Detilleux, F Bolgert, J L Max, J Chiras, J P Meder

Leucoencephalopathy with neuroaxonal spheroids (LENAS) presenting as the cerebellar subtype of multiple system atrophy M L Moro-de-Cassilas, M L Cohen, D E Riley

Adult onset ornithine transcarbamylase deficiency: an unusual cause of semantic disorders S Rimbaux, C Hommet, D Perrier, J P Cottereau, A Legras, F Labarthe, L Lemarcis, A Autret, F Maillot

Letters

Increased arterial carboxyhaemoglobin concentrations in patients with sporadic amyotrophic lateral sclerosis H Yasuda, S Ebihara, M Yamaya, M Asada, H Sasaki, M Aoki

The red ear syndrome A Donnet, D Valade

Arteriovenous fistula of the superficial temporal artery: an exceptional complication of the pterional approach S F A Amlashi, L Riffaud, X Morandi

Local pain during REBIF injection is not due to acidic pH M Buttmann, M Gaebeler, P Rieckmann

Autoimmune neurological disease after cardiac surgery K Sleeman, R Rajani, J Chambers, A Vincent

Development of myasthenia gravis in two patients with multiple sclerosis following IFN β treatment J Dionisiohs, Y A Zoukos, T N Thomaides

Correspondence

Evidence for an association between the CSF HVA:5-HIAA ratio and aggressiveness in frontotemporal dementia but not in Alzheimer’s disease S Engelborghs, E Vloeberghs, K Moertens, B Marescau, P P De Deyn

Extensive radiculopathy: another false localising sign in intracranial hypertension A Maosa, M A Joy, A Kumar

Role of entacapone in later Parkinson’s disease not yet established K Wheatley, N Ives, R Gray, C Clarke

Portal-systemic shunts, manganese, and parkinsonism R de la Fuente-Fernández. Reply: K Yoshikawa, M Nakagawa

Intraventricular assessment of preoperative electrographic recordings O H Jiménez, N Nagore

Parkinsonism and persistent vegetative state after head injury K A Jellinger. Reply: W Matsuda, Y Komatsu, M Matsumura, K Yanaka

Book reviews

Historical notes

Migraine treated by Shakespeare’s son-in-law, Dr John Hall J M S Pearce

Lewis Carroll’s Humpty Dumpty: an early report of prosopagnosia? A J Lanner

Neurological picture

Triple carotid aneurysms in a patient with migraine attacks G Benndorf, R M Naeni, T N Lehmann
