Editorial commentaries

111 Cueing training in persons with Parkinson’s disease M A Hirsch, F M Hammond

112 Steroid-responsive leukencephalopathy due to cholesterol embolism P Laloux

113 Transcranial magnetic stimulation and tinnitus: implications for theory and practice J L Dornhofer, M Menneemeier

Neurology of body systems

114 The inner ear and the neurologist C Agrup, M Gleeson, P Rudge

Papers

123 The effect of the apolipoprotein E gene polymorphisms and haplotypes on behavioural and psychological symptoms in probable Alzheimer’s disease A L Pritchard, J Harris, C W Pritchard, J Coates, S Haque, R Holder, P Bentham, C L Londan

127 Functional connectivity of the prefrontal cortex in Huntington’s disease D R Thiruvady, N Georgiou-Karistianis, G F Egan, S Ray, A Sritharan, M Farrow, A Churchyard, P Chua, J L Bradshaw, T-L Brawn, R Cunnington

134 Cueing training in the home improves gait-related mobility in Parkinson’s disease: the RESCUE trial A Nieuwboer, G Kwakkel, L Rochester, D Jones, E van Wagen, A M Willems, P Chavret, V Hetherington, K Baker, I Lim

Editor’s choice and patient’s choice articles are freely available online

141 Deglutitive laryngeal closure in stroke patients M I Power, S Hamdy, S Singh, P J Tyrrell, I Turnbull, D G Thompson

147 Movement disorders in patients taking anticonvulsants C Zadikoff, R P Munhoz, A N Asante, N Politzer, R Wennberg, P Carlen, A Lang

152 Moderate therapeutic efficacy of positron emission tomography-navigated repetitive transcranial magnetic stimulation for chronic tinnitus: a randomised, controlled pilot study J L Bradshaw, T-L Brawn, R Cunnington

157 Idiopathic normal-pressure hydrocephalus: clinical comorbidity correlated with cerebral biopsy findings and outcome of cerebrospinal fluid shunting R Bech-Azeddine, P Høgh, R Bech-Azeddine, P Høgh, R Bech-Azeddine, P Høgh

162 Acute disseminated encephalomyelitis: a follow-up study in Taiwan C-H Lin, J-S Jeng, S-T Hsieh, P-K Yip, R-M Wu

168 Compensatory cortical activation during performance of an attention task by patients with diffuse axonal injury: a functional magnetic resonance imaging study M Maruishi, M Miyata, T Nakao, H Muranaka
174 Diagnosis and treatment of dural carotid–cavernous fistulas: a consecutive series of 27 patients M Théaudin, J-P Saint-Maurice, R Chapot, K Vahedi, M Mazighi, C Vignal, G Saliou, C Stapf, M-G Bousser, E Houdart

Short reports

180 Reversible encephalopathy associated with cholesterol embolism syndrome: magnetic resonance imaging and pathological findings F Andreux, B Maria, N El Khoury, D Seilhean, S Alamowitch

183 IL1RN intron 2 polymorphism caused by variable number tandem repeats is associated with 1-year outcome in patients with ischaemic stroke G Gromadzka, J Sarzynska-Dlugosz, A Członkowska

187 Epilepsy and cerebellar ataxia associated with anti-glutamic acid decarboxylase antibodies S Vulliemoz, G Vanini, A Truffert, C Chizzolini, M Seeck

190 Selective loss of Purkinje cells in a patient with anti-glutamic acid decarboxylase antibody-associated cerebellar ataxia K Ishida, H Mitoma, Y Wada, T Oka, J Shibahara, Y Saito, S Murayama, H Mizusawa

193 A novel amyloidogenic transthyretin variant, Gly53Ala, associated with intermittent headaches and ataxia C Douglass, K Suvarna, M M Reilly, P N Hawkins, M Hadjivassiliou

Letters

196 Hashimoto’s encephalopathy presenting with progressive cerebellar ataxia H Nakagawa, M Yoneda, A Fuji, K Kinamoto, M Kuriyama

197 Third-nerve palsy heralding dissecting aneurysm of posterior cerebral artery: digital subtraction angiography and magnetic resonance appearance M Nistri, P Ferrini, N Di Lorenzo, M Cellerini, N Villari, M Mascachi

198 Early mitoxantrone-induced cardiotoxicity in secondary progressive multiple sclerosis F Paul, J Dörr, J Würfel, H-P Vogel, F Zipp

200 Rasmussen encephalitis with ipsilateral brain stem involvement in an adult patient C M Quesada, H Urbach, C E Elger, C G Bien

201 Creutzfeldt–Jakob disease in a Chinese patient with a novel seven extra-repeat insertion in PRNP X F Wang, Y J Guo, B Y Zhang, W Q Zhao, J M Gao, Y Z Wan, F Li, J Han, D X Wang, X P Dong

203 A case of idiopathic musical hallucination with increasing repertoire M Sato, M Kokuba, S Kuzuhara

204 Paraneoplastic limbic encephalitis associated with potassium channel antibodies: value of anti-glial nuclear antibodies in identifying the tumour L Zuliani, A Saiz, B Tavolato, B Giometto, A Vincent

205 Book reviews

Proceedings

206 Abstracts

Neurological pictures

146 Chiari I malformation with holocord syrinx J Kumar, A Kumar, S Gupta

167 Spontaneous intracranial hypotension in adolescence J Bladen, M Moosajee, S Renowden, M Carter, C Sainsbury, P Jardine

Historical note

195 Johann Bernhard Aloys von Gudden: an outstanding scientist L Sarikcioglu
