Editorial commentaries

1275 Clinical tool for predicting survival in ALS: do we need one?
K Talbott

1276 Salt intake in multiple sclerosis: friend or foe?
M F Farez

Cerebrovascular disease

1277 Unruptured intracranial aneurysm follow-up and treatment after morphological change is safe: observational study and systematic review

1283 The contribution of lesion location to upper limb deficit after stroke
C-h Park, N Kcu, N S Ward

1287 Diagnostic criteria for Susac syndrome

1296 Cognitive reserve moderates long-term cognitive and functional outcome in cerebral small vessel disease
H Johnsen, S Melkas, S Madureira, A Verdelho, J M Fero, F Fazekas, R Schmidt, P Schelthus, F Barkhof, J M Wardlaw, D Inzitari, L Patiunoi, T Erkinjuntti

Cognitive neurology

1303 Defining and validating a short form Montreal Cognitive Assessment (s-MoCA) for use in neurodegenerative disease

1311 ‘Under pressure’: is there a link between orthostatic hypotension and cognitive impairment in α-synucleinopathies?
S J Udow, A D Robertson, B J Machtens, A J Espay, J B Rowe, A E Lang, M Maselli

Epilepsy

1322 Trends in epilepsy surgery: stable surgical numbers despite increasing presurgical volumes
T Clenpenning, T W May, I Bluncke, P Greve, L J Hopf, T Kallrhenn, M Pfafflin, T Polzer, R Schulz, F G Woermann, C G Bien

General neurology

1330 Early blood pressure lowering in patients with intracerebral haemorrhage and prior use of antithrombotic agents: pooled analysis of the INTERACT studies
L Song, E C Sandset, H Armaa, E Heeley, C Delcourt, G Chen, J Yang, G Wu, X Wang, P M Lavades, Y Huang, C Starf, J Wang, T G Robinson, J Chalmers, R J Lindley, C S Anderson, for the INTERACT2 Investigators

1336 Metabolic syndrome is related to polynuropathy and impaired peripheral nerve function: a prospective population-based cohort study
R Hanewinkel, J Drentschen, S Lighthart, A Drehghan, O H Franco, A Hofman, M A Ikram, P A van Doorn

Multiple sclerosis

1343 Higher latitude is significantly associated with an earlier age of disease onset in multiple sclerosis
