Volume 87 Issue 12 | JNNP December 2016

Editorial commentaries

1275 Clinical tool for predicting survival in ALS: do we need one?
K Talbott

1276 Salt intake in multiple sclerosis: friend or foe?
M F Farez

Cerebrovascular disease

1277 Unruptured intracranial aneurysm follow-up and treatment after morphological change is safe: observational study and systematic review

1283 The contribution of lesion location to upper limb deficit after stroke
C H Park, N Kcu, N S Ward

1287 Diagnostic criteria for Susac syndrome

1296 Cognitive reserve moderates long-term cognitive and functional outcome in cerebral small vessel disease
H Johnston, S Melkas, S Madonna, A Verdelho, J M Ferro, F Fazekas, R Schmidt, P Scheltens, F Barkhof, J M Wardlaw, D Inzitari, L Pantoni, T Erkinjuntti

Cognitive neurology

1303 Defining and validating a short form Montreal Cognitive Assessment (s-MoCA) for use in neurodegenerative disease

1311 'Under pressure': is there a link between orthostatic hypotension and cognitive impairment in α-synucleinopathies?
S J Udow, A D Robertson, B J Macintosh, A J Espay, J B Rowe, A E Lang, M Maselli

Epilepsy

1322 Trends in epilepsy surgery: stable surgical numbers despite increasing presurgical volumes
T Cloppenborg, T W May, I Blümcke, P Grewe, J B Rowe, A E Lang, M Maselli

General neurology

1330 Early blood pressure lowering in patients with intracerebral haemorrhage and prior use of antithrombotic agents: pooled analysis of the INTERACT studies
L Song, E C Sandset, H Arima, E Heel, C Delcourt, G Chen, J Yang, G Wu, X Wang, P M Lavades, Y Huang, C Starp, J Wang, T G Robinson, J Chalmers, R I Lindley, C S Anderson, for the INTERACT2 Investigators

1336 Metabolic syndrome is related to polynuropathy and impaired peripheral nerve function: a prospective population-based cohort study
R Hanewinkel, J Drenten, S Ligthart, A Drehghan, O H Franco, A Hofman, M A Ikram, P A van Doom

Multiple sclerosis

1343 Higher latitude is significantly associated with an earlier age of disease onset in multiple sclerosis

This article has been chosen in conjunction with the BMJ Patient Forum to be of particular interest to patients and is freely available online. This article has been made freely available online under the BMJ Journals Open Access scheme. See http://jnnp.bmj.com/site/about/guidelines.xhtml#openaccess. The article is part of the Commentaries series.
Dietary salt intake and time to relapse in paediatric multiple sclerosis
B Nourbakhsh, J Graves, T C Casper, S Lulu, A Waldman, A Belman, B Greenberg, B Weinstock-Guttman, G Aaen, J-M Tillema, J Hart, J Ness, J Rubin, L Krupp, M German, L Benson, M Rodriguez, T Chinitis, J Rose, L Barcellos, E Wauters, for the Network of Pediatric Multiple Sclerosis Centers

Widespread structural brain involvement in ALS is not limited to the C9orf72 repeat expansion
H-J Westeneng, R Walhout, M Straathof, R Schmidt, J Hendrikse, J H Veldink, M P van den Heuvel, L H van den Berg

A clinical tool for predicting survival in ALS
J A Knibb, N Keren, A Kalka, P N Leigh, S Martin, C E Shaw, M Tsuda, A Al-Chalabi

Acetylcholinesterase inhibitors are associated with weight loss in older people with dementia: a systematic review and meta-analysis
P Soysal, A T Isik, B Stubbs, M Sohmi, M Volpe, C Luchini, G D’Onofrio, A Pilotto, E Manzato, G Sergi, P Schofield, N Veronese

Depressive symptoms influence global cognitive impairment indirectly by reducing memory and executive function in patients with mild cognitive impairment
C Yatawara, L Lim, R Chander, J Zhou, N Kandash

Approaches to genetic diagnosis in neuromuscular conditions in the era of next generation sequencing
H L Teoh, H Sampaio, T Rioschi, M Farrar

A clinical tool for predicting survival in ALS
J A Knibb, N Keren, A Kalka, P N Leigh, S Martin, C E Shaw, M Tsuda, A Al-Chalabi
