Editorial commentaries

807 Is MOG-IgG another biomarker for neuromyelitis optica? I Nakashima

808 Novel evidence associates higher plasma α-synuclein levels and cognitive impairment in Parkinson’s disease D Aarsland, A P Rajkumar, A Hye

809 Pseudobulbar affective disorder, emotion and the brain M Swash, M R Trimble

Multiple sclerosis

Neurodegeneration

818 Plasma α-synuclein predicts cognitive decline in Parkinson’s disease C-H Lin, S-Y Yang, H-E Hong, C-C Yang, J-J Chieh, H-H Chen, B-H Liu, M-J Chiu

825 Laughter, crying and sadness in ALS N J Thakore, E P Piro

Neuromuscular

839 Clinical, physiological and pathological characterisation of the sensory predominant peripheral neuropathy in copper deficiency S W Taylor, R S Laughead, N Kumar, B Goodman, C J Klein, P J Dyck, P J B Dyck

Neurogenetics

869 TBK1 mutations in Italian patients with amyotrophic lateral sclerosis: genetic and functional characterisation I. Pozi, F Valenza, L Mosca, A Dal Mas, T Domi, A Romano, C Tarlantini, Y M Falzone, L Trespoltizio, G Sorani, F Cerr, P M Ferraro, S Bataia, F Agosta, R Fazio, M Comela, G Comi, M Ferrari, A Quattrini, C Lunetta, S Penco, D Boussoumi, P Carrera, N Riva

Neuro-inflammation

876 Peripheral inflammatory markers in Alzheimer’s disease: a systematic review and meta-analysis of 175 studies K S P Lai, C S Liu, A Rau, K I Lancit, C A Köhler, M Pakosh, A F Carvalho, N Herrmann

Movement disorders

883 Tracking and predicting disease progression in progressive supranuclear palsy: CSF and blood biomarkers E Jabbari, H Zetterberg, H R Morris
