R. G. GORDON
J. G. GREENFIELD
C. C. WORSTER-DROUGHT
R. FOSTER KENNEDY
C. MACFIE CAMPBELL

VOLUME VII.
July, 1926, to April, 1927.

ISSUED BY THE BRITISH MEDICAL ASSOCIATION,
LONDON: BRITISH MEDICAL ASSOCIATION HOUSE,
TAVISTOCK SQUARE, W.C.1.
The Journal of Neurology and Psychopathology

VOLUME VII. 1926-27

INDEX.
INDEX.

ABEL, P.: A wandering Jew who developed delusions of persecution, 81.

ABRAHAM, KARL: Psychological relationship between sexuality and alcohol, 168.

ACETYLCHOLINE: Treatment of conversion hysteria (R. S. GISON), 366.

ACUTE ANHYDRITE TEST IN CEREBROSPINAL FLUID (J. G. GREENFIELD AND E. ARNOLD CARMICHAEL), 226.

ACOUSTIC PATHS IN MAN, CENTRAL, ANATOMICAL INVESTIGATIONS ON (I. NAGINO), 58.

ACROMEGALIC: A contribution to the study of basal metabolism in (CESTAN, SENDHAIL AND LASSALLE), 75.

ADIPOSE TISSUE: Nerve endings in (H. J. WILKINSON AND A. H. HURKITT), 57.

AIRLIE, W.: Neurotenshin and inverted maternal instinct, 367.

ALCOHOL AND SEXUALITY: Psychological relationship between (KAHL ABRAHAM), 168.

ALEXANDER, G. (AND OTTO MARBUR, EDITORS), Handbuch der Neurologie des Ohres, Volume 11, review, 277.

ALEXANDER, MARION C.: Lilliputian hallucinations, 47.

ALLENBY, DR. (AND OTHERS), Le Rêve et la Psychanalyse, review, 378.

ALZHEIMER'S DISEASE: Case of (J. J. VISSER AND G. P. FRETS), 173.

AMNIA: Intestinal hepatic and renal lesions in cases of (C. MAZZANTI), 172.

AMOK (H. CODET), 365.

ANALYTICAL FRAGMENT, AN (T. C. GOOD), 47.

ANATOMICAL INVESTIGATIONS ON THE CENTRAL ACUSTIC PATHS IN MAN (I. NAGINO), 58.

APRAZEPINE, 351.

ARCHNODORSIS: Adhesive spinal, simulating spinal cord tumour (Byron and Stookey), 353.

ARGYLL ROBERTSON PUPIL, SEE PUPIL.

ARMSTRONG, EDWARD: The calcium content of serum in mental invalids, 372.

ARMSTRONG, G. E.: Relation of the ceccum-ascending colon content to idiopathic epilepsy, 257.

ASTASIA-ANASIA AND SPEECH PERSEVERATION, FOLLOWING CARBON MONOXIDE POISONING (H. G. WOLFF), 219.

ATAXIA, FREDERICH'S (T. M. BARRETT), 347.

ATHETOSIS: Experimental and anatomical researches on (M. MINKOWSKI), 192.

AUTONOMIC DISORDER IN THE INSANE (GEORGE W. ROBINSON), 332.

BABINSKI'S SIGN: Occurrence of the mechanism for (A. M. RABINER AND M. KREUCHNER), 150.

BAILEY PERCIVAL (AND HARVEY CUSHING): Tumours of the Glioma Group, review, 94.

BAKER, JOHN R.: Sex in Man and Animals, review, 381.

BARBE (AND SEZARY): Investigation into the chemotherapy of general paralysis, 268.

BARCK, HENRI: Les Troubles Mentaux dans les Tumeurs Cérébrales, review, 292.

BASAL GANGLIA (G. VERCELLI), 60.

— IN DEMENTIA PRECOCIO AND EPIDEMIC ENCEPHALITIS (C. FARRAN-RIDGE), 262.

— IN GENERAL PARALYSIS: Histopathology of (T. L. HOLTON), 349.

BAUER, BERNAARD A.: Woman, review, 379.

BEATON, THOMAS: The clinical relationships between psychological disorders, 83.

BERG, G. L.: Memory deterioration in encephalitis lethargica, 84.

BECKER, S. W. (AND P. A. O'LEARY): Further observations on the treatment of neurosyphilis with trypanosamide, 73.

BELTONI, G. B.: The double autonomous innervation of voluntary muscles, 146.

— IN STUDY OF NEURITIS, 135.

— TREATMENT BY PROLONGED SLEEP IN PSYCHIATRY, 375.

BERNADOU (AND A. MARIE): Simultaneous hebeplasia, 375.

BERNIN: The pathology of dystonia and dyskinesia, 347.

BISMUTH: Intravenous preparations—Experimental disease in (L. J. FOSTER AND D. L. SMITH), 73.

BLANCHARD, PHLIUS: Subject matter and motivation of children's dreams, 363.

BLOOD: Calcium and phosphorus in personality disorders (G. W. HENRY AND W. W. EBELING), 169.

— Pressure in some morbid conditions, Variability of (R. D. GILES), 255.

— Serum of male admissions to Hanwell Mental Hospital; The Wassermann reaction in (G. A. LILLY AND E. L. HOPKINS), 371.

— Vascular conditions in psychoses (ISABELLA MCGOUALL ROBERTSON), 284.

BLUM: Cisternal puncture, 61.

— Boltz test in the cerebrospinal fluid after malarial therapy in general paralysis (G. W. T. H. FLEMING), 267.

BOREL, A. (H. CLAUDE AND G. ROBIN): Traumatic dementia in the course of a state of instability of chronic mania, 129.

BOURNE, H. F.: The Pathology, Diagnosis and Treatment of Functional Nervous Diseases, review, 280.
CACHEXIA, Hypophyseal (C. I. URECHA and N. ELEKES), 361.

Calcium content of serum in mental invalids (EDWARD ARMSTRONG), 372.

— Some varieties of erotomania, 80.

Carbon monoxide poisoning, followed by astasia-abasia and speech perseveration (H. G. WOLFF), 213.

CARMICHAEL, E. ARNOLD (and J. G. GREENFIELD): The acetic anhydride test in cerebrospinal fluid, 216.

CARRILLER, A.: A need of support, transformed to delusions of influence, in a psychasthenic patient, 76.

CARRILLER, A.: A need of support, transformed to delusions of influence, in a psychasthenic patient, 76.

Carroll, P. M. (S. Brock and L. Stevenson): Encephalitis periaxialis diffusa of Schiller, 68.

Cells of the cerebrospinal fluid: Fixation of, with iodine vapour (R. S. CUNNINGHAM and L. S. KUBE), 60.

— Neologistic logorrhoea in a case of chronic hallucinatory insanity, 81.

Cerebral megaoeytoma and Parkinsonian micrographia, Antagonism between (M. PEPPERMUIER), 67.

Cerebellum: To the relation of, to the static system and its role in posture synergy (J. RAMSAY HUNT), 60.

Cerebral automatism: Complex and co-ordinated actions carried out during epileptic crises of (TOLDOUSE, MARCHANT and LITVAK), 71.

— peduncle, and hypothalamus, Experiments on (D'ABUNDO), 346.

— tumour, see Tumour.

Cerebrospinal fluid: Acetic anhydride test in (J. G. GREENFIELD and E. ARNOLD CARMICHAEL), 220.

— Boltz test in, after malarial therapy in general paralysis (G. W. T. H. FLEMING), 287.

— Fixation of the cells of, with iodine vapour (R. S. CUNNINGHAM and L. S. KUBE), 60.

— pressure: Effect of magnesium sulphate on (E. J. MORRISSEY), 147.

— Meninges: Obstruction of, through the nose (C. E. LOCKE), 63. See also Spinal Fluid.

CESTAN (SENDRAIL and LASSALLE): A contribution to the study of basal metabolism in acromegally, 75.

Character, The psychology of (WILLIAM BROWN), 31, 125.

Character and abnormal psychology (W. S. TAYLOR), 361.

CHEVENS, L. C. F. (and P. B. MCUMBIR): The sudorific reaction in certain types of psychosis, 166.

Chicken pox and herpes zoster, see Herpes Zoster.

Child murder and insanity (J. STANLEY HOPWOOD), 373.

Childbirth: Psychoses occurring in (ELIZABETH KILPATRICK and HARRY M. TIEBOUT), 368.

Chin: The cutaneous reflex of the (DE CASTRO), 74.

Chordotomy, Experimental basis of (E. A. SPIEGEL), 149.

Chorea with cirrhosis of liver (GEORGE SCHALTENBRAND), 154.

— Sydenham's, Experimental studies on (E. HERMAN), 58.

CHUNG, MON-BEN: Thrombosis of the spinal vessels in sudden syphilitic paraplegia, 355.

Circulatory ratings in mentally defective adolescents, 172.

Circumcision and the abreaction of fear (ESTELLE M. COLE), 237.

Cirrhosis of liver with chorea (GEORGE SCHALTENBRAND), 154.

Cisternal puncture (RECMI), 61.

CLARK, L. P.: A psychoanalytic introduction to the study of conduct disorders of encephalitis lethargica, 80.

— Study of the psychogenesis of confirmed stammerers, 166.

CLARK, L. P.: The Meinicke micro-reaction for syphilis for use in a mental hospital, 263.

CLAUDE, H. (A. BOREL and G. RIBIN): Traumatic dementia in the course of a state of instability of chronic manic type, 80.

CLÉRAMBAULT, G. DE (and LAMACHE): A case of simple erotomania lasting 37 years, 79.

— An impulse conscious and without amnesia, probably organic, 81.

COBS, STANLEY: Review on the tonus of skeletal muscle, 245.

COCCHIARO (and RORDORF): Patellalia—a rare symptom of the post-encephalitic Parkinsonian syndrome, 66.

Dementia praecox in identical twins (G. H. Parker), 168.

— Traumatic, in the course of a state of instability of chronic manic type (H. Claude, A. Borel and G. Robin), 80.

Dereux, Jules: Paralysie verticale du regard (Syndrome de Parinaud), review, 385.

De Saussure, R. (and others): Le Œtre et la Psychanalyse, review, 378.

Destouches, Emile: Psychanalyse (J. Capgras and J. Reboul-Lachaux), 79.

Deutsche, Felix: The influence of emotional change on energy metabolism: Hypnotic experiments, 170.

D’Hollander (Rubens and Van Bogert): Research on mucous degeneration in the brain, 152.

Disease, Seven cases of a peculiar family (Gustave Rothe and Gabrielle Levy), 155.

Disseminated sclerosis, see Sclerosis.

Dodel, Wilhelm: Treatment of schizophrenic disorders, 165.

Dracunculiasis, see Schistosomiasis.

Drepanocytosis, see Sickle cell anemia.

Dreams, Children’s: Subject matter and motivation (O. Mahnberg), 863.

Snake symbolism in (Ursula H. McConnel), 162.

— (Kynaston Jones), 162.

Dunne, John: The malarial treatment of general paralysis, 182.

Dyskinetic psychosis, see Psychosis.

E. — Punishment, see Psychology.

Egger, Richard: Hints to Probationer Nurses in Mental Hospitals, review, 256.

Easternbrooke, C. C.: Mental Irregulars, review, 83.

Ebraugh, F. G. (and A. Streckeck): Psychoses occurring during the puerperium, 167.

Eid, H. Wilfred: The mental factor in miners’ myasthenia, 75.

Electrical resistance of the body during sleep changes in the (C. F. Richter), 148.

Emotional changes, influence of, on energy metabolism (Felix Deutscbe), 170.

Emotions, clinical aspects of certain (Donald E. Core), 82.

Encephalitis, epidemic, chronic (P. K. McCowan and J. S. Harris), 361.

— Chronic: Tonic eye fits ("oculogyric crises") in (Augest Wimmer), 252.

— The relation of epidemic hiecup (singles) to (E. C. Rosenow), 65.

— Irresistible mastication during (P. J. Zentay), 357.

— Pathogenesis of (V. M. Buscano), 153.

— Spinal fluid sugar in (C. J. Munch-Petersen and Knud Wintber), 247.

— Symptoms referable to basal ganglia in (C. Farran-Ridge), 262.

Psychoanalytic Conduct disorders of the, a psychoanalytic introduction to the study of (L. P. Clark), 85.

— Memory deterioration in (G. L. Bebb), 84.

— periaxial diffusa of Schilder (S. Brock, P. M. Carroll and L. Stevenson), 68.

— in relation to sex, age, environment, nativity and race (Horatio M. Pollock), 265.

— Post-influenza delirium, an analysis of (Karl H. Menz), 77.

— The suprarenal cortex and blood cholesterol in (Charles E. Gibbs), 75.

D'aurando: Experiments on the hypothalamic and cerebral peduncle, 346.

Danish Reports (edited by August Wimmer), Volume III, review, 96.

De Castro: The cutaneous reflex of the chin, 73.

Degenerates, Sterilization of (Renato Kehl), 89.

De Jong, H. (and W. Hermon): Action of bulbocapnine in three cases of paralysis agitans and one case of tremor of paralysis agitans type, 256.

Delireum, A Study of (Lloyd H. Ziegler), 365.

Delineations of persecution developed by a wandering Jew (P. Abele), 81.

Dementia paralytica: Malarial therapy in: Report from the London County Mental Hospitals Service, 265.

— praecox: Symptoms referable to basal ganglia in (Charles E. Gibbs), 262.

— Cyanosis: A study of gas relations of the blood, with clinical observations (Lillian Segal and Leland E. Hinshy), 265.

— In relation to sex, age, environment, nativity and race (Horatio M. Pollock), 265.

— Sterilization of mental symptoms in (Arthur Ernest Davies), 370.

— Post-influenza delirium, an analysis of (Karl H. Menz), 77.

— The suprarenal cortex and blood cholesterol in (Charles E. Gibbs), 75.
ENG, H.: Experimental Investigations into the emotional life of the Child compared with that of the Adult, review, 274.

Epilepsy, (W. Aldren Turner), 194.

— Idiopathic: Relation of the cerebro-ascending colon content to (G. E. Armstrong), 257.

— Luminal administration in, Study of the various methods of (H. A. Patterson, Le Grand A. Damon and P. Levi), 161.

— Organic: Psychiatric study of (K. A. Menninger), 117.

— Research problems in (Charles E. Gibbs), 70.

— The use of sedatives, tonics, endocrine, etc. in the re-educational training treatment of (L. Pierce Clark), 358.

— crises of cerebral automatism: Complex and co-ordinated actions carried out during (Toulousse, Marchand and Litvak), 71.

Epileptoid reactions in children (V. C. Branhain), 70.

Erb's lateral sclerosis (Van Bogart and Loux), review, 381.

Erotomania lasting 37 years (G. de Clerambault and Lamache), 79.

— Some varieties of (J. Caprara), 80.

— Extraversion and introversion, Measuring (Edna Heidebreder), 363.

— Eye fits, Tonic, in chronic epidemic encephalitis (Acuili, Tummel), 457.

— Eye motif in delusion and phantasy (Phyllis Greenacre), 85.

— Movements in the vertical direction, Problems of (Otto Marberg), 253.

Facial paresis, see Paresis.

Family disease, see Disease.

Farani, Alberto: Surgery and mental hygiene, 69.

Farran-Ridge, C.: Some symptoms referable to the basal ganglia occurring in dementia (Ray and McElvain), 138.

Fatigue: a clinical study (R. D. Gillespie), 97.

Fear, Abrasition of, and circumsion (Estelle M. Cole), 237.

Ferencz, Sandor: Further contributions to the Theory and Technique of Psychoanalysis, 192.

Fitz, Unexpected (Gordon F. Peters), 71.

Foreign psychoneuroses: Amok and latihan in Malays (H. van Gennep), 365.

Foster, Robert H.: Parosis in the negro, 87.

Franklin, E. A.: Function of neurological tissue, 57.

Friedreich's ataxia (T. M. Barrett), 347.

— Disease, The abortive type of (C. R. Romold and H. A. Riley), 254.

Frontal lobe tumours, see Tumours.

Gallia, The basal (G. Verdcellini), 60.

Gas poisoning (War), followed by spasmodic torticollis and chronic hepatitis (Van Bogart), 154.

Gibbs, Charles E.: Research problems in epilepsy, 70.

— The suprapetal cortex and blood cholesterol in dementia præcox, 75.

Gibson, R. S.: A case of conversion hysteria, with some remarks on treatment by the method of abreaction, 366.

— The oculo-cardiac reflex: its clinical significance, 253.

— The variability of the blood pressure in some morbid conditions, 255.

Glaser: The present position of vegetative nervous therapy, 74.

Gliaflactomas, see Tumour, cerebral.

Glover, James: Divergent tendencies in psychotherapy, 271.

Goodard, Henry Herbert: A case of dual personality, 366.

Gold, Colloidal: Correction of solutions of, as applied to the Lange reaction (N. Novick), 61.

Good, T. C.: An analytical fragment, 17.

Gordon, Alfred: Obsessions in their relation to psychoses, 78.

Grant, A. R. and J. D. Silverston: General paralysis and treatment by malaria, 90.

Grasping, involuntary, and analogous disorders of movement (Paul Schuster and Hermann Fineas), 250.

Greenacre, Phyllis: The eye motif in delusion and phantasy, 85.

Gurwitsch, M.: The pathological anatomy of general paralysis after malaria treatment, 349.

Hemorrhage, Intracranial, in the newborn: Signs of acute proved cases of (A. S. Maclaren), 88.

— Spontaneous subarachnoid, with recovery (F. Parkes Weber and O. Bode), 39.

Hallucinations, Lilliputian (Marion C. Alexander), 86.

— The affective states in (Raoul Leroy), 86.

Hallucinatory insanity, chronic: Neologicist logorrhoea in a case of (M. Cenac), 81.

Harris, J. S. and P. K. McCowan: Chronic epidemic encephalitis, 361.

Harvard Medical School: Studies from the Department of Neurology. Volume VII, review, 96.

Harvey, S. C. and H. S. Rith: The development of the meninges, 151.

Hausman, Louis and R. Sachs: Nervous and Mental Disorders from Birth through Adolescence, review, 92.

Head, Henry: Aphasia and Kindred Disorders of Speech, review, 376.

Hebeplrenia, Simultaneous, in two brothers (A. Marie and Bernadou), 79.

Hepatitis, Chronic, and spasmodic torticollis, following poisoning by war gases (Van Bogart), 154.

Hepato-lenticular degeneration: clinical, anatomical, and experimental study (Ivan Mamah), 67.

Hermain, W. and H. de Jong: Action of bulbocapnine in three cases of paralysis agitans and one case of tremor of paralysis agitans type, 556.

Herpes zoster and chicken-pox (W. M. v. d. Scheeren), 153.

Hersketh, Florence E. and F. I. Wernheimer: The Significance of the Physical Constitution in Mental Disease, review, 383.
Hiccup, Epileptic (singultus), The etiology of, and its relation to encephalitis (E. C. Rose- now), 65.

HISCIE, LELA C. (and LILLIAN SEGAL) : The cyanosis of dementia precoce ; a study of gas relationships of the blood, with clinical observations, 360.

HOFF (and POLLAK) : Experimental studies in parasyphilis, 356.

HOPMAN: Pathological and anatomical investigations on postencephalitic Parkinsonism, 318.

HOLLAND, E. : Bifurcation of the spinal cord, 64.

Homosexuens, Two : Progression and regression in (R. D. GILLESPIE and T. A. Ross), 313.

HOPKINS, E. L. (and G. A. LILLEY) : The Wassermann reaction in the blood-serum of male admissions to Hanwell Mental Hospital, 371.

HORWOOD, J. STANLEY: Child murder and insanity, 373.

Horn cells, anterior; Human adult and embryo (W. M. KRAU'S and A. WEIL), 58.

HORHAX, G. : Anterior pituitary diagnosis of tumours primarily pineal and primarily pontine, 357.

HOTONI'S work on neurogia, 131.

HOTONI, T. L. : General paralysis: The histological pathology of the basal ganglia, 349.

Human work: The psychic element in (CARLOS DENAYO), 191.

HUNT, J. RAMSAY: The relation of the cerebellum to the static system and its role in posture, 60.

Hydrocephalus, Chronic internal, due to ependymitis granularis (SARAH H. NELSON), 117.

Hypothalamic experiments, 174.

Hypophysial cachexia (U. I. cells, Iodine vapour, 58).

IIOORTEGA'S work on neuroglia, 378.

HOBART, K. : Prevention of the cells of the cerebrospinal fluid with iodine vapour, 60.

Hiccup, Epidemic (singultus), The etiology of, and its relation to encephalitis (E. C. ROSE- NOW), 65.

JACOBSON, JACOB: Classification of (W. WEYGANDT), 175.

Imbecility, Classification of (W. WEYGANDT), 175.

Impulse, conscious and without anniesia, probably epileptic (G. G. DE CLERMAUFT), 81.

Inseminating, Polymorphie (R. TARGOWLA), 173.

Inseminator and child murder (J. STANLEY HOP- WOOD), 373.

— and crime (WILLIAM A. WHITE), 174.

— and murder (GEORGE M. ROBERTSON), 266.

Intracranial haemorrhage, see Haemorrhage.

Introversion and extroversion, Measuring (KINDA), 362.

Iodine vapour for fixation of the cells of the cerebrospinal fluid (R. S. CUNNINGHAM and L. S. KUBE), 60.

JANET, PIERRE: Psychological Healing, review, 283.

Jew, a wandering, who developed delusions of persecution and a psychopathic personality (J. STANLEY HOPWOOD), 399.

JONES, ERNEST: Snake symbolism in dreams, 162.

JONES, F. WOOD: Muscular movement and its regulations, 147.

KEHL, REINAUTO: The sterilization of extreme degenerates and criminals, 89.

KELLER-REYNOLD, FRIEDRICH: The art of oratory and its psychopathic therapeutic value, 191.

KESCHNER, M. (and A. M. RABINEK): Theory of the mechanism for the Babinski toe phenomenon, 150.

KILIAN, A. (and M. OSNATO): Significant chemical changes in the spinal fluid in meningitis.

KILPATRICK, ELIZABETH (and HARRY M. TIE- BOUT): A study of psychoses occurring in relation to childhood, 368.

KOGGHER, HEINRICH: Report on the psychotherapeutic out-patient department of the clinic for nervous and mental disorders in the University of Vienna, 1922-25, 180.

KRAABE, KNUD H.: L'Organe sous-commissural du Cerveau chez les Mammifères, review, 279.

KRAEPELIN, E.: The problems presented by psychiatry, 176.

KRAUS, WALTER M. (and A. WEIL): Human adult and embryo anterior horn cells, 58.

— and NATHANIEL E. SILVERMAN: Facial paresis as a manifestation of tumours of the upper half of the cervical spinal cord, 132.

— and JOSHUA H. LEINER: Manner of invasion and destruction of brain tissue by spongioblastoma, 227.

KRETSCHMER, ERNST: Hysteria, review, 91.

KRIVS: Anatomical study of a case of multiple tumours of the meninges, 64.

KUBIE, L. S. (and R. S. CUNNINGHAM): Fixation of the cells of the cerebrospinal fluid with iodine vapour, 60.

LANGE, S. : The correction of colloidal gold solutions as applied to the (N. NOVIC), 61.

LASSALLEK (CESTAN and SENDRALL): A contribution to the study of basal metabolism in acro- megaly, 75.

LATCH, H. (CODET), 365.

LAX (and WALTER): Trigeminal neuralgia treated by Hanwell admissions, 378.

Legal detention and Psychiatry (MÖNKMÖLLER), 270.

L SASSALLIE (CESTAN and SENDRALL): A contribution to the study of basal metabolism in acromegaly, 75.

LEVY, HARRY M.: Case of unusual brachial plexus palsy, 159.

LEWIS, N. D. C.: The present status of the malarial inoculation treatment for general paresis, 90.

LEVY, GABRIELLE (and GUSTAVE ROUSSEY): Seven cases of a peculiar drowsy disease, 153.

LEVY-VALENSI, E. (and E. HALPHEN): Les Vertiges, review, 381.

Lilliputian hallucinations (MARIUS ALEXANDER), 86.

— and (and H. ARINKIN): Case of unusual brachial plexus palsy, 159.

Lilliputian hallucinations (MARIUS ALEXANDER), 86.

— The affective states in (RAOU LEROY), 86.

LILLEY, G. A. (and E. L. HOPKINS): The Wassermann reaction in the blood-serum of male admissions to the Hanwell Mental Hospital, 371.

LITVAK (Toulouse and Marchand): Complex and co-ordinated actions carried out during episodes, the experiences of cerebral automatism, 71.

LOCKE, C. E.: The spontaneous escape of cerebrospinal fluid through the nose, 63.

LOWKENTHAL, S.: The question of the neuroses, 86.

Logorrhoea, Neologistic: in a case of chronic hallucinatory insanity (M. CENAC), 81.
Muscular movement and its regulation (F. WOOD JONES), 147.

NAGY, I.: Anatomical investigations on the central acoustic paths in man, 58.

NATTRASS, F. J.: Three cases of disseminated sclerosis associated with epilepsy, 139.

Negro, Paresis in the (ROBERT H. FOSTER), 87.

NELSON, SARAH H.: A case of chronic internal hydrocephalus due to ependymitis granularis, 117.

Neologicologorrhea, see Logorrhea.

Nerve endings in adipose tissue (H. J. WILKINSON PATHOLOGICA), 57.

Nerve nucleus, third, Development of, and its bearing on the Argyll Robertson pupil (LEWIS PATON and IDA C. MANX), 246.

Nerve: Radix spinalis trigemini and the principle of usurpation (WALTER FREEMAN), 244.

Nerve, Uln.: Pathogenesis and treatment of traumatic neuritis of, in the post-condylar groove (HARRY PLATT), 159.

Nervorum, Central: Significance of Hor- teg'a's work on neuroglia for the histopathology of (K. WINKLER), 151.

— system: Sympathetic : Relation of, to skeletal muscle tonus (F. D. COMAN), 140.

— therapy, Vegetative, The present position of (DE M. COULANT), 74.

Neuralgia, Trigeminal: Treated by X-rays (WAL- TER and LAX), 160.

Neuritis and inverted maternal instinct (W. AIRVILLE), 367.

Neuritis, Study of (G. B. BELLONI), 153.

— the symptomatology of the ulnar nerve; the post- condylar groove, Pathogenesis and treatment of (HARRY PLATT), 159.

Neurological research. The methods of, 412.

Neurology, Vegetative, 413.

Neurological tissue, Function of (E. A. FRANKLIN), 57.

Neuroses (NIESI, V. MAYENDORF), 260.

— The physico-psycho-galvanic reaction in (P. K. MCCOWAN), 261.

— Post-war The neurotic goal in (JOHN W. VISCHER and GERTRUDE SARKER), 77.

— The question of the (S. LOEWENTHAL), 165.

— Revision of the problem of (OSWALD BUNKER), 163.

Neurosyphilis among coloured races (A. O. B. BERKELEY-HILL), 355.

— treated with tryparsamide (P. A. O'LEARY and S. W. BECKER), 73.

NOVICK, N.: The correction of colloidal gold solutions as applied the Laseur reaction (L. NUREN, P. ESCUDER: Tumours of the frontal lobe, 248.

Nystagmus, Miners': The mental factor in (H. WILFRED EDDISON), 75.

O'LIVIER, XAVIER DE: The prevention of suicide, 59.

Optic atrophy, Lentic: arrest of, by cisternal injection of mercury (NORMAN VINER and S. O. MC MURPHY), 256.

Oratory, The art of, and its psychotherapeutic use (ROBERT KELLER-BREYMOND), 184.

Organic disease: Psychotherapy for the specialist in (RUDOLF SCHINDLER), 188.

Organic diseases. Adjustments and unity of (WILLIAM A. WHITE), 258.

OSNATO, M. (and J. A. KILLIAN), Significant chemical changes in the spinal fluid in meningitis, 62.

PALILALIA—a rare symptom of the post- encephalitic Parkinsonian syndrome (RO- HERST and COCHIARRO), 66.

Palsy, Brachial plexus: Case of unusual (P. LEWIN and H. AIRIKEN), 159.

PALTIE, VAN WULFFEN: Treatment of tabs and general paralysis with tryparsamide, 161.

Paralysis agitans : Action of bulbocapnine on (H. DE JONG and W. HERMAN), 256.

— also (C. M. BYRNE), 246.

— general, the basal ganglia in (T. L. HOUlTON), 349.

— Bismuth salts intravenously in (RUCH ATREY), 182.

— Chemotherapy of (SEZARY and BARBE), 268.

— Malaria treatment of (A. R. GRANT and J. D. SILVERSTON), 90; (N. D. C. LEWIS), 90.

— Malaria treatment of, Pathological anatomy of (M. SLERWITSCHE), 349.
