We are grateful to Dr. James Macrae for referring Case 2 to one of us (A.M.G.C.) and to Professor T. F. Hewer and Dr. H. Urich for reference of post-mortem material in Case 1.

REFERENCES

THE AUGUST (1956) ISSUE

The August (1956) issue contains the following papers:

Diffuse Degeneration of the Cerebral White Matter in Severe Dementia Following Head Injury. Sabina J. Strich.
Paroxysmal Dysphasia and the Problem of Cerebral Dominance. H. Hécaen and Malcolm Piercy.
The Prolonged and Distant Effects of Experimental Brain Injury on Cerebral Blood Vessels as Demonstrated by Radioactive Indicators. James B. Brierley.
Multilocular Encephalomalacia. W. Kramer.
The Pathological Effects of Cerebral Arteriography. T. Crawford.
Electrophoresis of Sera in Multiple Sclerosis and Other Neurological Diseases. Elizabeth M. Press.
A Controlled Clinical Study of Chlorpromazine and Reserpine in Chronic Schizophrenia. Michael Shepherd and David C. Watt.

Book Reviews.

A number of copies are still available and may be obtained from the Publishing Manager, British Medical Association, Tavistock Square, W.C.1, price 12s. 6d.
INDEX TO VOLUME 19, 1956

A
Addison's disease, clinical correlation between encephalopathy and papilloedema, in 21
Affect, inappropriate, 308
Agnosia, visual, sensory defects in, 297
Anaemia, megaloblastic, ischaemic and postischaemic paraesthesiae in, 286
ANSELL, B. M., and CLARKE, E.: Disseminated sclerosis treated with isoniazid with a method of evaluating chronic neurological disorders, 144
Arteriography, cerebral, pathological effects of, 217
Ataxia, familial, association of familial peroneal muscular atrophy with, 155
———, hereditary, retinal degeneration in, 186
AUERBACH, I., see HOENIG, J., LEIBERMAN, D. M., and AUERBACH, I.

B
———, see also WESTROPP, C. K., and BARBER, C. R.
BEDFORD, P. D., and JAMES, F. E.: Family with progressive hypertrophic polyneuritis of Dejerine and Sottas, 46
Behaviour, sodium amytal and, in neurotic subjects, 137
BJÖRK, A., LINDBLOM, U., and WADENSTEN, L.: Retinal degeneration in hereditary ataxia, 186
Bladder filling, awareness of, with divided sensory tract, 101

CRAWFORD, J. V., and RUSSELL, D. S.: Cryptic arteriogenous and venous hamartomas of brain, 1
CRAWFORD, T.: Pathological effects of cerebral arteriography, 217

D

Dejerine and Sottas, progressive hypertrophic polyneuritis of, family with, 46
Dementia, severe, following head injury, diffuse degeneration of cerebral white matter in, 163
Diploic pearly tumours, 246
Discs, intervertebral, prolapsed, compression of cauda equina by, 109
Disseminated sclerosis treated with isoniazid, 144
Dysphasia, paroxysmal, and problem of cerebral dominance, 194

E

Electro-convulsion therapy and insulin coma, effect on short-term prognosis of schizophrenia, 130
Electroencephalographic abnormalities from temporal lobe studied with sphenoidal electrodes, 117
Electrophoresis of sera in multiple sclerosis and other neurological diseases, 222
Electroplexy and hypoglycaemic therapies, altered response to small doses of insulin associated with, 57
Encephalomalacia, multilocular, 209
Encephalopathy and papilloedema, clinical correlation between, in Addison's disease, 21
ETTLINGER, G.: Sensory defects in visual agnosia, 297

F

Formalin, tissue stored in, for prolonged periods, value of Marchi method for staining, 62
FRANKS, C. M., see LAVERTY, S. G., and FRANKS, C. M.
