

shunting of portal blood into the systemic circulation through a large anastomosis may be responsible for these changes.

We thank Professor Sir Max Rosenheim, Professor T. A. J. Pranker, and Mr. H. H. G. Eastcott for permission to publish these cases. We also thank Dr. J. M. Walshe for his report on the radio-copper studies in case 2.

The June 1967 Issue

THE JUNE 1967 ISSUE CONTAINS THE FOLLOWING PAPERS

Spinal cord arteriosclerosis and progressive vascular myelopathy KURT JELLINGER

Internodal length of sural nerve fibres in chronic occlusive vascular disease J. S. CHOPRA and L. J. HURWITZ

Clinical and pathological study of ischaemic neuropathy ROSEMARY A. EAMES and L. S. LANGE

Effect of stimulus intensity on the rising phase of the nerve action potential in healthy subjects and in patients with peripheral nerve lesions F. PODIVINSKÝ

Sciatic nerve motor conduction velocity study C.-B. YAP and T. HIROTA

Conduction velocity and fibre diameter of the median and ulnar nerves of the baboon J. G. MCLEOD and SHIRLEY H. WRAY

Acute necrotizing encephalitis: a problem in diagnosis J. HUME ADAMS and W. BRYAN JENNETT

Paraventricular porencephalic diverticulum with latent hemiparesis as a complication of ventriculography RAMON JENKINS

An angiographic complication of vertebral arteriovenous fistula ROBERT J. MORELLI

Kinking of the medulla in children with acute cerebral oedema and hydrocephalus and its relationship to the dentate ligaments JOHN L. EMERY

Reflex vasomotor responses in the hands of migrainous subjects E. B. FRENCH, B. W. LASSERS, and M. G. DESAI

Gas-liquid chromatographic analysis of sciatic nerves and spinal cords in experimental allergic neuritis OTTO APPENZELLER, J. MACGEE, and S. YINGVORAPANT

The E.E.G. in presenile dementia E. B. GORDON and MYRE SIM

Book reviews

Copies are still available and may be obtained from the PUBLISHING MANAGER,
BRITISH MEDICAL ASSOCIATION, TAVISTOCK SQUARE, W.C.1., price 18s. 6d.
