INDEX OCT 19 1971

INPUT NOV 17 1971

Levodopa's awakening effect on patients with Parkinsonism GAYLE G. MARSH, CHARLES M. MARKHAM, and ROBERT ANSEL.....page 209

Some observations on the fluttering midline echo in echoencephalography D. N. WHITE and C. O. JENKINS.....page 289

Comparison of benefit from L-dopa in Parkinsonism with increase of amine metabolites in the CSF R. B. GODWIN-AUSTEN, B. D. KANTAMANENI, and G. CURZON.....page 219

Chemical epidural abscess: case report N. VIJAYAN and P. M. DREYFUS.....page 297

Uptake and release of ¹⁴C-5-hydroxytryptamine by platelets in affective illness DAVID M. SHAW, DAVID A. MACSWEENEY, NORMAN WOOLCOCK, and A. B. BEVAN-JONES.....page 224

Acute controlled hypotension and EEG in patients with hypertension and cerebrovascular disease P. HARMSEN, J. KJÆRULFF, and E. SKINHØJ...page 300

Effects of initial conditions on the Hoffman reflex GERALD L. GOTTLIEB and GYAN C. AGARWAL.....page 226

Spontaneous canine hydrocephalus: cerebrospinal fluid dynamics A. SAHAR, G. M. HOCHWALD, W. J. KAY, and J. RANSOHOFF.....page 308

Hamstrings stretch reflex in human spasticity DAVID BURKE, J. D. GILLIES, and JAMES W. LANCE.....page 231

Cerebral arachnoid cysts in children M. J. G. HARRISON.....page 316

The corneomandibular reflex ROBERT M. GORDON and MORRIS B. BENDER.....page 236

Symptomatic cysts of the telencephalic choroid plexus CHARLES R. NEBLETT and JOSEPH W. ROBERTSON.....page 324

Sensory conduction from digit to palm and from palm to wrist in the carpal tunnel syndrome FRITZ BUCHTHAL and ANNE LISE ROSENFALCK.....page 243

Recognition and naming of object-drawings by men with focal brain wounds FRED A. NEWCOMBE, R. C. OLDFIELD, G. G. RATCLIFF, and W. WINGFIELD...page 329

Peripheral neuropathy after disulfiram administration CHRISTOPHER GARDNER-THORPE and SIDNEY BENJAMIN.....page 253

Fatal encephalopathy complicating lymphoid interstitial pneumonia MICHAEL JEFFERSON, D. RIDDOCH, and W. THOMAS SMITH.....page 341

Clinical observations on sensory effects of trigeminal dorsal root section ADOLFO LEY and JOSÉ MA. GUITART.....page 260

Histochemically demonstrable fibre abnormalities in normal skeletal muscle and in muscle from carriers of Duchenne muscular dystrophy C. J. MORRIS and J. A. RAYBOULD.....page 348

Closed head trauma and aphasia KENNETH M. HEILMAN, ARTHUR SAFRAN, and NORMAN GESCHWIND.....page 265

Sensitized lymphocytes in muscular evidence for a neural factor in pathogenesis CASPARY, S. CURRIE, and E. J. FIELD.....page 353

Late results of bulbar trigeminal tractotomy D. MOFFIE.....page 270

Pancreatic encephalopathy B. SHARMA and B. BENTAL.....page 358

Visually evoked responses in multiple sclerosis E. T. RICHEY, K. A. KOOI, and W. W. TOURTELLOTT.....page 275

Note on the value of Frenzel's glass recognition and qualitative evaluation of spontaneous nystagmus H. H. TSCHAN and SPENCER HARRISON.....page 363

Analysis of electrodermal evidence for a paramedullary afferent tract in patients with a transection of the thoracic spinal cord MARCUS J. FUHRER.....page 281

Book reviews.....page 368
