

JOURNAL OF NEUROLOGY AND PSYCHIATRY

READING ROOM
NEUROSURGEON

Effects of hyperkalaemia on the excitability of peripheral nerve K. N. SENEVIRATNE, O. A. PEIRIS, and A. WEERASURIYA *page 149*

Permeability of blood nerve barriers in the diabetic rat K. N. SENEVIRATNE *page 156*

Conduction in unmyelinated fibres in experimental neuropathy A. P. HOPKINS and E. H. LAMBERT *page 163*

Polyneuritis and herpes zoster A. D. DAYAN, E. OGUL, and G. S. GRAVESON *page 170*

Observations on cardiovascular and neuro-endocrine disturbance in the Guillain-Barré syndrome A. G. DAVIES and H. R. DINGLE *page 176*

Subacute sclerosing panencephalitis as a cause of chronic dementia and relapsing brain disorder M. DONNER, O. WALTIMO, J. PORRAS, H. FORSIUS, and A.-L. SAUKKONEN *page 180*

Treatment of involuntary movement disorders with tetrabenazine MICHAEL SWASH, A. H. ROBERTS, HAZIM ZAKKO, and K. W. G. HEATHFIELD *page 186*

Contrasting patterns of memory span decrement in ageing and aphasia MARCEL KINSBOURNE *page 192*

Russell's diencephalic syndrome of early childhood MICHAEL A. SALMON *page 196*

Myopathy in association with primary hyperaldosteronism M. A. SAMBROOK, J. R. HERON, and G. M. ABER *page 202*

X-linked scapuloperoneal syndrome P. K. THOMAS, D. B. CALNE, and C. F. ELLIOTT *page 208*

Quantitative electromyography: a new analogue technique for detecting changes in action potential duration A. MOOSA and B. H. BROWN *page 216*

Muscle afferent potential ('A-wave') in the surface electromyogram of a phasic stretch reflex in normal humans ALEX M. CLARKE, PATRICIA T. MICHIE, and LEONARD C. T. GLUE *page 221*

Orbicularis oculi reflex in the Wallenberg syndrome: alteration of the late reflex by lesions of the spinal tract and nucleus of the trigeminal nerve JUN KIMURA and LYNN W. LYON *page 228*

Habituation: effects of regular and stochastic stimulation M. R. DIMITRIJEVIĆ, J. FAGANEL, M. GREGORIĆ, P. W. NATHAN, and J. K. TRONTELJ *page 234*

Pneumoencephalo-roulette tomography of operated primary pontine haemorrhage with long survival: report of two cases M. KOWADA, K. YAMAGUCHI, Z. ITO, and S. MATSUOKA *page 243*

Injury of the basilar artery associated with closed head trauma CHENG-MEI SHAW and ELLSWORTH C. ALVORD, Jr *page 247*

Vascular responses in the hands of patients suffering from migraine J. A. DOWNEY and D. B. FREWIN *page 258*

Experiences with the technique and complications of meglumine iothalamate (Conray) ventriculography STEPHEN E. NATELSON, MARTIN P. SAYERS, and WILLIAM E. HUNT *page 264*

Average evoked responses and psychophysical performance in patients with pseudohypoparathyroidism MONTE BUCHSBAUM, CATHY KING, and ROBERT I. HENKIN *page 270*

Book reviews *page 277*
