

Contents

Cerebral transmitter precursors and metabolites in advanced renal disease PATRICK A. SULLIVAN, D. MURNAGHAN, N. CALLAGHAN, B. D. KANTAMANENI, AND G. CURZON *page 581*

Uptake of dopamine and 5-hydroxytryptamine by platelets of patients with Parkinsonism M. J. AMINOFF, R. S. B. EHSANULLAH, AND P. TURNER *page 589*

Immunological abnormalities and HLA antigen frequencies in IgA deficient patients with epilepsy A. FONTANA, H. JOLLER, F. SKVARIL, AND P. GROB *page 593*

Treatment of myoclonus with pheneturide C. D. WARD *page 598*

Observer variability in assessing impaired consciousness and coma GRAHAM TEASDALE, ROBIN KNILL-JONES, AND JAAP VAN DER SANDE *page 603*

Subjective impairment and social recovery after closed head injury MICHAEL ODDY, MICHAEL HUMPHREY, AND DAVID UTTLEY *page 611*

Incidence and characteristics of voluntary nystagmus JOSEPH R. ZAHN *page 617*

Electrophysiological appraisal of relative segmental motoneurone pool excitability in flexor and extensor muscles MORRIS A. FISHER *page 624*

Evidence for changes in segmental motoneurone pools by chronic cerebellar stimulation and its clinical significance MORRIS A. FISHER AND RICHARD D. PENN *page 630*

Excitability relationships between lower limb myotatic arcs in spasticity P. J. DELWAIDE, M. CORDONNIER, AND M. GADEA-CIRIA *page 636*

Human nerve excitability RICHARD E. POWERS, HERBERT M. SWICK, AND MICHAEL P. MCQUILLEN *page 642*

Prognostic value of minimal excitability of facial nerve in Bell's palsy SARALA DEVI, Y. CHALLENGOR, N. DUARTE, AND R. E. LOVELACE *page 649*

Distal chronic spinal muscular atrophy involving the hands D. J. O'SULLIVAN AND J. G. MCLEOD *page 653*

Central core disease in one of identical twins MICHAEL E. COHEN, PATRICIA K. DUFFNER, AND REID HEFFNER *page 659*

Painful peripheral states and sympathetic blocks L. LOH AND P. W. NATHAN *page 664*

Cryptococcal meningitis complicating remote skull fracture FRANCES T. LESTER *page 672*

Book reviews *page 674*

Notice *page 676*
