

Journal of Neurology, Neurosurgery, and Psychiatry

April 1979 Vol. 42 No. 4

Contents

Moya-moya disease: clinical and pathological report of a case with associated myopathy H. B. COAKHAM, L. W. DUCHEN, AND F. SCARAVILLI *page 289*

Correlation of CAT scan and visual field defects in vascular lesions of the posterior visual pathways D. L. MCAULEY AND R. W. ROSS RUSSELL *page 298*

Restitution of visual function in patients with cerebral blindness J. ZIHL AND D. VON CRAMON *page 312*

Visual and somatosensory evoked cortical potentials in multiple sclerosis W. TROJABORG AND E. PETERSEN *page 323*

Stapedius reflex in multiple sclerosis K. HESS *page 331*

Prolonged azathioprine treatment of non-remitting multiple sclerosis J. A. ROSEN *page 338*

Accuracy of ventricular volume estimation DAVID J. WYPER, JOHN D. PICKARD, AND MARGARET MATHESON *page 345*

Frequency resonance investigation of the H reflex S. TÓTH, A. SÓLYOM, AND J. VAJDA *page 351*

Chronic polioencephalitis with cerebral atrophy in infantile X-linked hypogammaglobulinaemia BOLESŁAW H. LIWNICZ AND VINCENT A. MARINKOVICH *page 357*

Benign recurrent vertigo ROBERT SLATER *page 363*

Characterisation of the mobility on isoelectric focusing of individual proteins in CSF and serum by immunofixation MARIA ASSUNTA LAURENZI AND HANS LINK *page 368*

Five cases of intracranial tuberculoma followed by serial computerised tomography R. C. PEATFIELD AND H. H. SHAWDON *page 373*

Tiapride in levodopa-induced involuntary movements A. J. LEES, C. M. LANDER, AND G. M. STERN *page 380*

Parkinsonism after traumatic childbirth R. P. MURPHY *page 384*

Book reviews *page 386*
