THE EDITORIAL COMMITTEE welcome original papers. They should be addressed to the Editor, Journal of Neurology, Neurosurgery, and Psychiatry, BMA House, Tavistock Square, London WC1H 9JR. Papers are accepted on the clear understanding that the subject matter has not been and will not be published in any other journal. Papers should deal with original matter and the discussion should be limited to relevant questions. Manuscripts should be typewritten in double spacing on one side of the paper only. Three copies (including Figures and Tables) should be submitted of which only one need be a top copy. A summary of about 50 words should appear at the head of each paper. On the paper the name of the author should appear with initials (or distinguishing forename) only, and the name of the hospital or laboratory where the work was performed. Full postal address should also be provided for correspondence and reprints. Receipt of manuscripts will be acknowledged.

The Editor will welcome Short Reports or Preliminary Communications limited to about 1000 words and with no more than one figure and one table. Also welcome are Letters to the Editor.

**ETHICS** Ethical considerations will be taken into account in the assessment of papers (see the Medical Research Council's publications on the ethics of human experimentation, and the World Medical Association's code of ethics, known as the Declaration of Helsinki (see *British Medical Journal* (1964), 2, 177)).

**ABBREVIATIONS** Measurements should be expressed in SI units (see *Journal of Clinical Pathology* 1974; 27: 590-7; *British Medical Journal* 1974; 4:490; International System of Units (1972). National Bureau of Standards, Special Publication 330. United States Bureau of Printing: Washington). For recognised abbreviations see *Journal of Neurology, Neurosurgery, and Psychiatry* 1975; 38:1-5; and *Units, Symbols and Abbreviations, Third Edition* (1977), Edited by D. N. Baron, Royal Society of Medicine: London.

**ILLUSTRATIONS** *Photographs* Unmounted photographs on glossy paper should be provided. Magnification scales, if necessary, should be lettered on these. *Diagrams* will usually be reduced to 2½ inches (68 mm) wide. Lettering should be in either Letraset or stencil and care should be taken that lettering and symbols are of comparable size. Illustrations should not be inserted in the text. They should be marked on the back with figure numbers, title of paper, and name of author. All photographs, graphs and diagrams should be referred to as Figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet. *Tables* should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet.

**REFERENCES** In the text should be by number *only* in the order in which they occur. The list of references should be typed in double spacing in the same numerical order. It should give author's name, followed by initials, title of the article quoted, name (in full) of the journal in which the article appeared, year of publication, volume number in Arabic numerals, followed by numbers of first and last pages of the article. Thus: Nathan, PW. The descending respiratory pathway in man. *Journal of Neurology, Neurosurgery, and Psychiatry*, 1970; 26: 487-599. Unpublished work may be referred to in the text but should not be included in the list of references. Work 'in press' may be listed provided the name of the Journal appears. The author is responsible for the correctness of the references as these will not be rechecked by the publishers.

**REPRINTS** Twenty-five reprints will be supplied free of charge. Additional reprints are available at cost if they are ordered when the proof is returned.

**CORRECTIONS** other than printer's errors may be charged to the author.
