

Journal of Neurology, Neurosurgery, and Psychiatry

November 1981 Vol. 44 No. 11

Contents

Editorial *page* 963

Some observations on the pathogenesis of syringomyelia PK NEWMAN, TR TERENCE, JB FOSTER *page* 964

Primary sleep apnoea syndrome SUDHANSU CHOKROVERTY, JOHN T SHARP *page* 970

Autonomic dysfunction in Guillain Barré syndrome RR TUCK, JG MCLEOD *page* 983

Effects of aldose reductase inhibitor treatment in diabetic polyneuropathy—a clinical and neurophysiological study JAN FAGIUS, STEN JAMESON *page* 991

Observations on the effects of low frequency electrical stimulation on fast muscles of dystrophic mice G VRBOVÁ, K WARD *page* 1002

Effect of contraction level and magnitude of stretch on tonic stretch reflex transmission characteristics PETER D NEILSON, JANET MCCAUGHEY *page* 1007

Pathophysiology of dysarthria in cerebral palsy PETER D NEILSON, NICHOLAS J O'DWYER *page* 1013

Sustained bromocriptine therapy in previously untreated patients with Parkinson's disease AJ LEES, GM STERN *page* 1020

Correlation between radionuclides uptake and ultrastructural features of tight junctions in the capillary wall of meningiomas P BAR-SELLA, D FRONT, E PEYSER, A TALMON, O ISRAEL, I NIR, *page* 1024

Postural laterality in torticollis and torsion dystonia L STEJSKAL, Z TOMÁNEK *page* 1029

The assessment of drug treatment of spastic gait R N CORSTON, FRANK JOHNSON, RB GODWIN-AUSTEN *page* 1035

The effect of afferent stimuli on steadily discharging single motor units in man IR WILLIAMS, M HAYWARD *page* 1040

SHORT REPORTS

Further observations on the "Bobble-headed Doll Syndrome" STEPHEN DELL *page* 1046

EMG and histochemical findings in neurogenic atrophy with electrode localisation JH PETAJAN, DJ THURMAN *page* 1050

Brain stem and cerebellar dysfunction with Legionnaires' disease PHILIP CH BAKER, TREVOR RP PRICE, COLIN D ALLEN *page* 1054

LETTER

Subarachnoid haemorrhage and acoustic neuroma RH SHEPHARD, RE CHEEKS *page* 1057

Book reviews *page* 1058
