A prospective study of acute idiopathic neuropathy I. Clinical features and their prognostic value JB WINER, RAC HUGHES, COLEMAN
page 605

A prospective study of acute idiopathic neuropathy II. Antecedent events JB WINER, RAC HUGHES, MJ ANDERSON, DM JONES,
H KANGRO, RPF WATKINS page 613

A prospective study of acute idiopathic neuropathy III. Immunological studies JB WINER, IA GRAY, NA GREGSON, RAC HUGHES,
S LEIBOWITZ, P SHEPHERD, WA TAYLOR, V YEWDALL page 619

Specific imbalance of right and left sided motor neuron excitability in schizophrenia DAVID J GOODE, ALEXANDER A MANNING page 625

Contingent negative variation in adults with Gilles de la Tourette syndrome TCAM VAN WOERKOM, C FORTGENS,
BJM VAN DE WETERING, CMC MARTENS page 630

Harlequin syndrome: the sudden onset of unilateral flushing and sweating JAMES W LANCE, PETER D DRUMMOND, SIMON C GANLEY,
JOHN GL MORRIS page 635

Effect of bromocriptine and metoclopramide on serum prolactin levels in patients with amyotrophic lateral sclerosis
J SZULC-KUBERSKA, H STEPIEN, A KLIMEK, D CIESLAK page 643

Primary brainstem death: a clinico-pathological study JOGATA, M IMAKITA, C YUTANI, S MIYAMOTO, H KIKUCHI page 646

Experimental intracerebral haemorrhage: the effect of nimodipine pretreatment EJ SINAR, AD MENDELOW, DI GRAHAM, GM TEASDALE
page 651

Secondary bilateral synchrony in unilateral pial angiomas: successful surgical treatment JEAN-JACQUES CHEVRIE, NORMA SERRA,
JEAN AICARDI page 663

Short-term stability of single motor unit recordings in motor neuron disease: a macro EMG study RJ GUILOFF, H MODARRES,
E STALBERG, H ROGERS page 671

Stimulation of motor tracts in multiple sclerosis A BERARDELLI, M INGHILLERI, G CRUCCU, M FORNARELLI, N ACCORNERO, M MARINI,
page 677

The optimal recording electrode configuration for compound sensory action potentials EMMANUEL EDUARDO, DAVID BURKE page 683

Does acute hyperglycaemia influence heat pain thresholds? AW CHAN, IA MACFARLANE, DR BOWSHER, JCD WELLS page 688

Event-related potentials from closed head injury patients in an auditory "oddball" task: evidence of a dysfunction in stimulus
categorisation MD RUGG, CP COWAN, ME NAGY, AD MILNER, I JACOBSON, DN BROOKS page 691

SHORT REPORTS

The neurological complications of *Borrelia burgdorferi* in the New Forest area of Hampshire DE BATEMAN, NF LAWTON, JE WILSON,
RJ GREENWOOD, DJM WRIGHT page 699
