Notice

European Neurological Society

The second meeting of the European Neurological Society will be held at the Metropole Hotel, Brighton, United Kingdom, from 30th June to 4th July 1990. On 30th June and 1st July there will be six teaching courses on: management problems in neurology I and II; movement disorders; what you need to know about new techniques: neuro-ophthalmology; and neuro-rehabilitation. The scientific programme (2nd-4th July) includes five symposia (retroviruses and the nervous system; epilepsy: basis for recovery in neurology; behavioural neurology; molecular basis of neuromuscular disease), platform and poster sessions. Final submission date for abstracts: 15th January 1990. Further information from Concorde Services Ltd, 10 Wendell Rd, London W12 9RT, United Kingdom. Telephone: 01 743 3106, FAX 01 743 1010.
The Editor is grateful to the following who assisted in the assessment of papers submitted in 1989.

acute: trial of ganglioside GM1, (MA) 685
arm function: grip strength as a measure of recovery and a prognostic indicator, 1267
epileptic seizures at onset, (MA) 292
epileptic seizures in intracerebral haemorrhage, 1273
functional prognosis: somatosensory evoked potentials, 242
hemispheric: natural history and functional consequences of dysphasia, 236
pure sensory, due to midbrain haemorrhage limited to the spinothalamic pathway, 1427
rejection behaviour, 1260
service provision and functional independence in depressed patients and the effect of social work intervention, 519
unit: factors affecting progress of patients, 493, (MA) 1312

STRUPPELL A. See OCHS G, 933

STURGE-WEBER DISEASE
regional cerebral blood flow by SPECT imaging: an aid for diagnosis, 1402

STUSS DT, STETHEM LL, HUGENHOLTZ H, PICTON T, PIVIK J, RICHARD MT: Reaction time after head injury: fatigue, divided and focused attention, and consistency of performance, 742

STURKOCHESTERING acquired: alleviation with human centremed thalamic stimulation, 1182

SUB-ANAEROBIC THRESHOLD EXERCISE TEST
screening for mitochondrial cytopathies, 1090

SUBARACHNOID HAEMORRHAGE
aneurysmal: HLA antigens and non-haemorrhagic deterioration, 1197
effects of earlier surgery and shorter bedrest on outcome, 776
of unknown cause: long term follow-up, 230
xanthochromia needs no revesitation, 826

SUBCORTICAL ARTERIOSCLEROTIC ENCEPHALOPATHY (Binswanger's disease) pathological findings correlated with MRI, 1337

SUBDURAL HAEMATOMA
upon straining, (L) 134

SUBSTANTIA NIGRA
asymmetry of neuronal loss in Parkinson's disease and relevance to mechanism of levodopa related motor fluctuations, 72
in Alzheimer's disease and Down's syndrome, 193

SUMALLA J. See MONTALBAN J, 541

SUNDERLAND A, TINSION D, BRADLEY L, HEWER RL: Ato function after stroke. An evaluation of grip strength as a measure of recovery and a prognostic indicator, 1267
