Gingival hyperplasia

Excessive aseptic meningitis: a report of eleven cases

Neuromyotonia in hereditary motor neuropathy

Prior poliomyelitis: reduced capillary supply and metabolic enzyme content in hypertrophic slow-twitch (type I) muscle fibres

Suprascapular nerve lesions at the spinoglenoid notch: report of three cases and review of the literature

Hand-held myometry: reference values

The “make/break test” as a diagnostic tool in functional weakness

CSF monoamine metabolites, cholinesterases and lactate in the adult hydrocephalus syndrome (normal pressure hydrocephalus) related to CSF hydrodynamic parameters

A survey of undergraduate teaching of clinical neurology in the United Kingdom 1990

Value of a programmed investigation unit: an audit study

Management of adipsia by a behavioural modification technique

Aseptic meningitis associated with high dose intravenous immunoglobulin therapy

Excessive sweating: an uncommon sign of basilar artery occlusion

Misinterpretation of neuroradiological appearances of an epidermoid cyst

Gingival hyperplasia due to sodium valproate

A case of angiographically occult spinal AVM

Extraneuronal metastases from bronchus adenocarcinoma through ventriculoperitoneal shunt

Isolated hypoglossal nerve palsy and Horner’s syndrome with benign course

Aretacus of Cappodocia (130–200)
