Editorial Papers

527 Brain mapping—a useful tool or a dangerous toy? C D Binnie, B B MacGillivray
530 Enhanced physical therapy improves recovery of arm function after stroke. A randomised controlled trial
A Sunderland, D J Tinston, E L Bradley, D Fletcher, R Langton Hewer, D T Wade
536 The Scottish motor neuron disease register: a prospective study of adult onset motor neuron disease in
Scotland. Methodology, demography, and clinical features of incident cases in 1989 The Scottish Motor
Neuron Disease Research Group
542 Suicide and multiple sclerosis: an epidemiological investigation E N Stenager, E Stenager,
N Kocis-Henriksen, H Bromme-Hansen, K Hyllested, K Jensen, U Bille-Brake
546 Primary intracerebral haemorrhage in the Jyväskylä region, Central Finland, 1985–89: incidence, case
fatality rate, and functional outcome R Fogelholm, M Nauš, A-L Vuorila
553 Neuro-ophthalmic features of carotid cavernous fistulas and their treatment by endoarterial balloon
embolisation D Bromahan, R M McFadzean, E Teasdale
557 Endoneural capillary abnormalities in mild human diabetic neuropathy R A Malik, A Vees, E A Mason,
A K Sharma, A K Ah-See, W Schady, R H Hse, A J M Boulton
562 Directional hypokinesia in spatial hemineglect: a case study G Bottini, R Sterzi, G Vallar
566 A controlled, longitudinal study of dementia in Parkinson's disease C A Higgins, J J Boyd, F M Harrop,
P Madeley, R H S Mindham, J E Randall, E G S Spokes
572 A component analysis of the generation and release of isometric force in Parkinson's disease N Jordan,
H J Sagar, J A Cooper
577 Progressive anarthria with secondary Parkinsonism: a clinico-pathological case report E Broussolle,
M Tommasi, P Mauguière, G Chazot
581 Hemiataxia-hypesthesia: a thalamic stroke syndrome T P Meis, J Bagousslavsky
585 Risk of sudden death during sleep in sleep myoclonus and sleep myoepilepsia M A Nogué, R Gené, H Encabo
590 Stereotactic linac radiosurgery for arteriovenous malformations B G Kenny, E R Hitchcock, G Kitchen,
A E Dalton, D A Yates, S V Chaita
594 Cerebral blood flow, arteriovenous oxygen difference, and outcome in head injured patients C S Robertson,
C F Com坦t, L L Gokaslan, R K Narayan, R G Grossman
604 Cervical myelopathy due to nuclear herniations in young adults: clinical and radiological profile, results of
microdiscectomy without interbody fusion B M Selladurai
609 Somatosensory mapping—a tool for the study of congenital craniovertebral anomaly; effect of
surgical management S Sood, A K Mahapatra, R Bhatia

Short reports

613 Acute sensory and autonomic neuropathy—possible association with Coxsackie B virus infection
G Pavesi, P Gemignani, G M Macaluso, P Ventura, G Magnani, A Fiochti, D Medici, A Marbini,
D Marcha
616 Cerebellar syndrome in myxedema revisited: a published case with carcinomatosis and multiple system
atrophy at necropsy N Quinn, R O Barnard, R E Kelly
619 Histoplasmosis of the central nervous system V Tan, P Wilkins, S Badroe, M Coppen, S Lucas, R Hay,
P Schon
623 IGA producing primary intracerebral lymphoma D Burkhardt, H J Schipper, U Kaboth, K Felgenhauer
626 Spasms of amputation stumps J Kulisevsky, J Marit-Fabregas, J M Grau
628 Cocaine abuse simulating the aura of migraine S S Massman, P J Gooday
629 Pathological laughter and brain stem glioma A P Lal, M J Chandy
630 Post radiation monomelic amyotrophy M Jackson
632 Sellar tuberculosis S C Taparia, G Tyagi, A K Singh, R Gondal, B Prakash
630 Posterior ischaemic optic neuropathy after a spontaneous extradural haematoma C J Gerber,
G Neil-Dwyer, P Kennedy
630 A pilot study of N-Methyl-D-Aspartate (NMDA) antagonist in Parkinson's disease J L Montastruc,
O Rascol, J M Senard, A Rascol
631 Central pontine myelinolysis in a patient with AIDS A H Holmes, M Esiri, C S Morris, A Edwards
632 Could midbrain "resting" tremor be caused by postural maintenance at rest? M W I M Horstius,
C J W van de Vlasakker, H J C Berger, M M Vingerhoets
632 Transcutaneous phrenic nerve stimulation R I Ross-Russell, B A Helps

Letters

630 Neurological stamp
632 Miscellaneous

529 Johannes Kepler 1571–1630
533 Book reviews

BMJ PUBLISHING GROUP
