Subject index

AAA syndrome, Allgrove or 4 "A" syndrome: an autosomal recessive syndrome causing multisystem neurological disease, 654
abdominal reflex, The deep tendon and the abdominal reflexes, 150
ABN Abstracts, Joint congress Association of British Neurologists and the Neurological Association of South Africa, University of Cape Town, 29 January – 1 February 2003, 1166
Proceedings of the Association of British Neurologists and the British Neuropsychiatry Association, Royal College of Physicians, 2–4 October 2002, 397
Proceedings of the Association of British Neurologists, Cardiff City Hall, Cathays Park, 2 April–4 April 2003, 1448
Proceedings of the Head Injury Conference and Annual Meeting of the British Neuropsychiatry Association, the Institute of Child Health, central London, 12–14 February 2003, 830
cytokine receptors, Autoimmune myasthenia gravis after cardiac surgery, 392
cytokine inhibitor, Brain acetylcholinesterase activity in mild cognitive impairment and early Alzheimer’s disease, 113
cytokine inhibitor, Acetylcholinesterase inhibition: a novel approach in the treatment of neurogenic orthostatic hypotension, 1294
Priority setting learning to make tough decisions, 1185
acoustic neuroma, Gamma knife stereotactic radiosurgery for unilateral acoustic neuromas, 1536
ACTH, Neuroendocrine changes in patients with acute space occupying ischaemic stroke, 725
active neuromuscular stimulation, Stroke motor recovery: active neuromuscular stimulation and repetitive practice schedules, 1562
activities of daily living, Behavioural abnormalities contribute to functional decline in Huntington’s disease, 120
acute neuropathy, A variant of multifocal motor neuropathy with acute generalised presentation and persistent conductive blocks, 1555
acute stroke, Clinical radiologic correlations in acute stroke: is the signal intensity at the end of the tunnel getting brighter quicker?, 840
acetylcholinesterase, Brain stem encephalitis caused by primary herpes simplex 2 infection in a young woman, 1323
ADHD, Interface between neurology and psychiatry in childhood, 117
New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
adhesion molecules, Human cellular inflammation in the pathology of acute cerebral ischaemia, 1476
adolescence, Cognitive dysfunction in young men following head injury in childhood and adolescence: a population study, 933
Neurological and cognitive decline in adolescence, 19
Transition from paediatric to adult medical services for young people with chronic neurological problems, 1011
adrenoleukodystrophy, Improvement of central motor conduction after bone marrow transplantation in adrenoleukodystrophy, 373
adrenomyeloneuropathy, Clinical and electrophysiological improvement of adrenomyeloneuropathy with steroid treatment, 822
adult neuronal ceroid lipofuscinosis, Neuroleptic malignant syndrome in Kufs’ disease, 385
affect, Dissociation of affective modulation of recollective and perceptual experience following amygdala damage, 253
age, Onset age and severity of motor impairment are associated with reduction of myocardial 123I-MIBG uptake in Parkinson’s disease, 423
aging, fMRI studies of associative encoding in young and elderly controls and mild Alzheimer’s disease, 44
AIDS, Progressive multifocal leukoencephalopathy with unusual inflammatory response during antiretroviral treatment, 1142
The clinicopathological spectrum of Rosenthal fibre encephalopathy and Alexander’s disease: a case report and review of the literature, 807
aircraft, Economy class stroke syndromes: vertebral artery dissection revisited, 1594
Alexander’s disease, The clinicopathological spectrum of Rosenthal fibre encephalopathy and Alexander’s disease: a case report and review of the literature, 807
Allgrove’s syndrome, Allgrove or 4 “A” syndrome: an autosomal recessive syndrome causing multisystem neurological disease, 654
motor neuron, The relation between Ashworth scale scores and the excitability of the α motor neurons in patients with post-stroke muscle spasticity, 646
ALSFAQ. Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSFAQ-40 and ALSFAQ-5), 242
Alzheimer’s disease, Alzheimer’s disease: changes in neocortical n-99 fm HMPAO SPECT scan findings between early onset and late onset dementia, 715
A randomised placebo controlled study to assess the effects of cholinergic treatment on muscular receptors in Alzheimer’s disease, 1567
A study of stereotypic behaviours in Alzheimer’s disease and frontal and temporal variant frontotemporal dementia, 1398
Brain acetylcholinesterase activity in mild cognitive impairment and early Alzheimer’s disease, 113
Coexistence of CADASIL and Alzheimer’s disease, 790
Coexistent Lewy body disease in a case of “visual variant of Alzheimer’s disease”, 389
Dopals and dementia, 147
fMRI studies of associative encoding in young and elderly controls and mild Alzheimer’s disease, 44
Head injury and Alzheimer’s disease, 841
Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857
Intrathecal inflammation precedes development of Alzheimer’s disease, 1200
Limb length and dementia in an older Korean population, 427
Long term neuropsychological outcome after head injury: relation to APOE genotype, 1047
Low vitamin B-12 status in confirmed Alzheimer’s disease as revealed by serum holotranscobalamin, 959
Melissa officinalis extract in the treatment of patients with mild to moderate Alzheimer’s disease: a double blind, randomised, placebo controlled trial, 863
Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
Prevalence of institutionalisation in people with dementia, 1315
Saitohin gene is not associated with Alzheimer’s disease, 139
Systemic infection, interleukin 1β, and cognitive decline in Alzheimer’s disease, 788
The topography of metabolic deficits in posterior cortical atrophy (the visual variant of Alzheimer’s disease) with FDG-PET, 1521
American trypanosomiasis, American trypanosomiasis (Chagas’ disease): an unrecognised cause of stroke, 516
amnesia, A case of frontal network amnesia, 106
Hypothalamic amnesia and frontal lobe function disorders after Langherans cell histiocytosis, 1348
Limbic encephalitis presenting with topographical disorientation and amnesia, 110
amoebiasis, Identification of amoeba in the CSF in a patient with meningocoecephalitis, 1445
amygdala, Amygdala volumetry in “imaging-negative” temporal lobe epilepsy, 1245
Dissection of affective modulation of recollective and perceptual experience following amygdala damage, 253
Similarity and disparity of obsessive-compulsive disorder and schizophrenia in MR volumetric abnormalities of the hippocampus-amygdala complex, 962
amyloid β protein, Association of neprilysin polymorphism with cerebral amyloid angiopathy, 749
amyotrophic lateral sclerosis, Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSFAQ-40 and ALSFAQ-5), 242

www.jnnp.com
Diffusion tensor imaging detects corticospinal tract involvement at multiple levels in amyotrophic lateral sclerosis, 1250
Dysphagia due to Chiari I malformation mimicking ALS, 549
Early or late appearance of “dropped head syndrome” in amyotrophic lateral sclerosis, 683
Effect of a multidisciplinary amyotrophic lateral sclerosis (ALS) clinic on ALS survival: a population based study, 1996–2000, 1258
Persistent bitter taste as an initial symptom of amyotrophic lateral sclerosis, 687
Polymerisations of toxifying and detoxifying hepatic enzymes in amyotrophic lateral sclerosis, 1161
Predictors of successful self control during brain-computer communication, 1117
Prolonged survival in motor neuron disease: a descriptive study of the King’s database 1990–2002, 995
Quality of life in motor neurone disease—towards a more practical assessment tool?, 287
Transcutaneous cervical root stimulation in the diagnosis of multifocal motor neuropathy with conduction block, 1329
Aneurysm, Central and peripheral fusiform aneurysms six years after left atrial myxoma resection, 280
Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680
angiography, Measuring carotid stenosis, 140
Reappraisal of early CT signs to predict the arterial occlusion site in acute embolic stroke, 649
angioplasty, Vertebral artery origin angioplasty and primary stenting: safety and restenosis rates in a prospective series, 586
angiotensin I converting enzyme, Shifts in angiotensin I converting enzyme insertion allele frequency across Europe: implications for Alzheimer’s disease risk, 1159
ankle reflex, Comparison of the tendon and plantar strike methods of eliciting the ankle reflex, 1351
anorexia nervosa, Central pontine myelinolysis associated with hypokalaemia in anorexia nervosa, 353
anterior canal failure, Anterior canal failure: ocular torsion without perceptual tilt due to preserved otolith function, 1336
anterior cervical discectomy, Two cases of quadriparesis following anterior cervical discectomy, with normal perioperative somatosensory evoked potentials, 273
anterior inferior cerebellar artery, Auditory disturbance as a prodrome of anterior inferior cerebellar artery infarction, 1644
anterior radiculitis, Acute anterior radiculitis associated with West Nile virus infection, 823
anti-basal ganglia antibodies, Tourette’s syndrome: a cross sectional study to examine the PANDAS hypothesis, 602
anticholinesterase agents, Endplate dysfunction causing respiratory failure in a patient with prior paralytic poliomyelitis, 370
anti-epilepsy drugs, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339
Taking over epilepsy from the paediatric neurologist, 137
anti-GAD antibodies, Autoantibodies to glutamic acid decarboxylase in downbeat nystagmus, 998
anti-GQ1b IgG syndrome, Recurrent anti-GQ1b IgG antibody syndrome showing different phenotypes in different periods, 1350
anti-GP2 serum, Should I start all my ischaemic stroke and TIA patients on a statin, an ACE inhibitor, a diuretic and aspirin today?, 1461
anti-Ma2 antibody, Anti-Ma2 antibody related paraneoplastic limbic/brain stem encephalitis associated with breast cancer expressing Ma1, Ma2, and Ma3 mRNAs, 1332
antimitochondrial, Adult paraneoplastic opsoclonus-myoclonus syndrome associated with antimitochondrial autoantibodies, 1595
antiretroviral treatment, Progressive multifocal leuкоencephalopathy with unusual inflammatory response during antiretroviral treatment, 1142
anxiety, Specific phobia is a frequent non-motor feature in stiff man syndrome, 462
The effect of brain tumour laterality on anxiety levels among neurosurgical patients, 1278
anxiety disorder, Mental illness in new neurological patients, 817
apolipoprotein E, Apolipoprotein E genotypes and clinical outcome in Guillain-Barré syndrome, 971
Apolipoprotein E genotypes and outcome from out of hospital cardiac arrest, 1441
Debrisquaine hydroxylase gene polymorphism (CYP2D64) in dementia with Lewy bodies, 135
Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857
Long term neuropsychological outcome after head injury: relation to APOE genotype, 1047
Mental deterioration late after head injury—does it happen?, 1014
Apolipoprotein, Deep brain stimulation of the subthalamic nucleus: effectiveness in advanced Parkinson’s disease patients previously reliant on apomorphine, 170
aqueduct stenosis, Effect of endoscopic third ventriculostomy on neuropsychological outcome in late onset idiopathic aqueduct stenosis: a prospective study, 222
arachnoid granulations, Intracranial hypertension secondary to giant arachnoid granulations, 418
arousal, Lack of hemispheric dominance for consciousness in acute ischaemic stroke, 889
arterial hypertension, Influence of age on the association between primary hemorrhagic and arterial hypertension, 979
ARX gene, Brain cysts associated with mutation in the ARX gene, 536
aseptic meningoencephalitis, Lymphocytic hypophysitis successfully treated with azathioprine: first case report, 1581
Ashworth scale, The relation between Ashworth scale scores and the excitability of the α motor neurones in patients with post-stroke muscle spasticity, 646
aspirin, Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452
association study, Role of the dopamine D5 receptor (DRD5) as a susceptibility gene for cervical dystonia, 665
asthma, Pseudoexacerbations and asthma, 639
asymmetrical signs, Mirror movements of the non-affected hand in hemiparkinsonian patients: a reflection of ipsilateral motor overactivity?, 1352
ataxia, Ataxic arm movements after thalamotomy for Parkinsonian tremor, 258
Olfactory dysfunction in degenerative ataxias, 1435
axatic polyneuropathy, Incidence of endemic axatic polyneuropathy and its relation to exposure to cyanide in a Nigerian community, 1417
atherosclerosis, Raised plasma oxidised LDL in acute cerebral infarction, 312
ATPase, Reversible acute axonal polyneuropathy associated with Wernicke-Korsakoff syndrome: impaired physiological nerve conduction due to thiamine deficiency, 674
atrophy, Corticosteroids do not prevent optic nerve atrophy following optic neuritis, 1139
Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
atyphical Pick’s disease, Alterations of muscarinic acetylcholine receptors in atypical Pick’s disease without Pick bodies, 965
augmentation index, Measurement of pulse pressure profiles in patients with trigeminal neuralgia, 533
autoantibodies, Adult paraneoplastic opsoclonus-myoclonus syndrome associated with antimitochondrial autoantibodies, 1595
autimmune myasthenia, Autoimmune myasthenia gravis after cardiac surgery, 392
autonomic disease, Autonomic diseases: clinical features and laboratory evaluation, iii31
Autonomic diseases: management, iii42
Constipation in neurological diseases, 13
autonomic nervous system, Autonomic diseases: clinical features and laboratory evaluation, iii31
Autonomic diseases: management, iii42
Autonomic nervous system testing may not distinguish multiple system atrophy from Parkinson’s disease, 56
Intensive care neurology and the autonomic nervous system, iii42
autoregulation, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765
autosomal dominant cerebellar ataxia, Task specific focal dyssynergia: a presentation of spinocerebellar ataxia type 6, 1444
autosomal dominant partial epilepsy with auditory features, Genetics of temporal lobe epilepsy, 1359
awareness, Regional cerebral glucose metabolism in akinetic catatonia and after remission, 1003
axonal neurotoxicity, An unusual phenotype of McLeod syndrome with late onset axonal neuropathy, 1697
axons, Axonal injury in multiple sclerosis, 695
azathioprine, Lymphocytic hypophysitis successfully treated with azathioprine: first case report, 1581
bacterial infection, Aetiologic diagnosis of brain abscesses and spinal infections: application of broad range bacterial polymerase chain reaction analysis, 728
balance, Brain white matter lesions detected by magnetic resonance imaging are associated with balance and gait speed, 94
basal cell carcinoma, Ulcus terebrans: an unusual cause of paraparesis, 1643
basal ganglia, Childhood onset generalised dystonia can be modelled by increased gain in the indirect basal ganglia pathway, 1509
basilar artery, Herniating manifestations of basilar artery occlusion with lethal or severe stroke, 1621
basilar thrombosis, Herniating manifestations of basilar artery occlusion with lethal or severe stroke, 1621
behavioural dysfunction, Behavioural abnormalities contribute to functional decline in Huntington’s disease, 120
Behçet’s disease, Prevalence and patterns of neurological involvement in Behçet’s disease: a prospective study from Iraq, 608
benign sensory changes, Hemisensory syndrome is associated with a low diagnostic yield and a nearly uniform benign prognosis, 1113
β adrenoreceptor expression, Expression of β2 adrenoreceptors on peripheral blood mononuclear cells in patients with primary and secondary progressive multiple sclerosis: a longitudinal six month study, 197
β-endorphin, β-endorphin concentrations in PBMC of patients with different clinical phenotypes of multiple sclerosis, 495
Bickerstaff’s brain stem encephalitis, Recurrent anti-GQ1b IgG antibody syndrome showing different phenotypes in different periods, 1130
bilateral ataxia, Bilateral cerebellar ataxia as the sole manifestation of a unilateral rostral pontine tegmental infarct, 1445
bilateral hearing loss, Sudden bilateral simultaneous deafness with vertigo as a sole manifestation of vertebrobasilar insufficiency, 539
bilateral medullary infarction, Isolated total tongue paralysis as a manifestation of bilateral medullary infarction, 1698
bilateral subthalamic deep brain stimulation, Defining a role for the subthalamic nucleus within operative theoretical models of subcortical participation in language, 1543
blepharospasm, Botulinum toxin type B in blepharospasm and hemifacial spasm, 687
Eyelid tremor in a patient with a unilateral paramedian thalamic lesion, 356
blood-brain barrier, Blood-brain barrier permeability in type II diabetes, 6
Increased blood-brain barrier permeability in type II diabetes demonstrated by galadominic magnetic resonance imaging, 70
BOLD fMRI, BOLD fMRI activation induced by vagus nerve stimulation in seizure patients, 811
bone conduction, Vestibular activation by bone conducted sound, 771
bone marrow transplantation, Improvement of central motor conduction after bone marrow transplantation in adrenoleukodystrophy, 373
botulinum toxin, Botulinum toxin type B in blepharospasm and hemifacial spasm, 687
brain, Coccioidiomycosis of the brain, mimicking en plaque meningioma, 806
brain abscess, Detection of Staphylococcus aureus by 16S rRNA directed in situ hybridisation in a patient with a brain abscess caused by small colony variants, 1000
brain atrophy, MRI lesion volume heterogeneity in primary progressive MS in relation with axonal damage and brain atrophy, 950
The longitudinal relation between brain lesion load and atrophy in multiple sclerosis: a 14 year follow up study, 1551
brain cysts, Brain cysts associated with mutation in the Aristaless relatedhommeobox gene, ARX, 536
brain function, Oxytocin, brain function, and neuropsychiatric disorders, 837
brain haemorrhage, Acute rotary vertigo caused by a small haemorrhage of the vestibular stem, 388
brain infarction, Is neurocytosis a risk factor in coexistent intracranial disease? An MRI based study, 359
brain infection, Is neurocytosis a risk factor in coexistent intracranial disease? An MRI based study, 359
brain injury, Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on: a partial replication, 857
Normal jugular bulb oxygen saturation, 784
brain lesion load, The longitudinal relation between brain lesion load and atrophy in multiple sclerosis: a 14 year follow up study, 1551
brain metastases, Cerebral metastasis after primary renal cell carcinoma, 141
Spontaneous haemorrhage into metastatic brain tumours after stereotactic radiosurgery using a linear accelerator, 908
brain oedema, Hemifacial spasm: an unusual cause of paraparesis, 1643
brain sagging, Brain stem and cerebellar dysfunction after lumbar spinal fluid drainage: case report, 992
brain stem, Brain stem encephalitis caused by primary herpes simplex 2 infection in a young woman, 1323
New onset migraine with a brain stem cavernous angioma, 680
brain tissue, Brain tissue oxygen guided treatment supplementing ICP/CPP therapy after traumatic brain injury, 760
Effects of decompressive craniectomy on brain tissue oxygen in patients with intracranial hypertension, 513
Intracerebral microdialysis and CSF hydrodynamics in idiopathic adult hydrocephalus syndrome, 217
brain tumour, Is neurocytosis a risk factor in coexistent intracranial disease? An MRI based study, 359
Magnetoencephalographic representation of the sensorimotor hand area in cases of intracerebral tumour, 1649
Second harmonic imaging: a new ultrasound technique to assess human brain tumour perfusion, 333
The effect of brain tumour laterality on anxiety levels among neurosurgical patients, 1278
brain-computer communication, Predictors of successful self control during brain-computer communication, 1117
breast cancer, Anti-Ma2 antibody related paraneoplastic limbic/brain stem encephalitis associated with breast cancer expressing Ma1, Ma2, and Ma3 mRNAs, 1332
CACNA1A, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444
CADASIL, Coexistence of CADASIL and Alzheimer’s disease, 790
CADASIL syndrome, “CADASIL coma”: an underdiagnosed acute encephalopathy, 249
callus disconnection, Reversible callus disconnection syndrome in internal hydrocephalus, 389
campocoria, Head drop and campocoria, 692
The naming of parts, 692
cardiomyopathy, Association of cardiomyopathy caused by autonomic nervous system impairment with the Miller Fisher syndrome, 689
carotid artery, Measuring carotid stenosis, 100
Meningioma presenting as stroke: report of two cases and estimation of incidence, 136
carpal tunnel syndrome, Clinical surveillance of carpal tunnel syndrome in two areas of the United Kingdom, 1991–2001, 1674
Splitting for carpal tunnel syndrome: prognostic indicators of success, 1342
cassava, Incidence of endemic ataxic polyneuropathy and its relation to exposure to cyanide in a Nigerian community, 1417
cataract, CSF hypocretin-1 levels in narcolepsy, Kleine-Levin syndrome, and other hypopneas and neurological conditions, 1667
catatonia, Regional cerebral glucose metabolism in akinetic catatonia and after remission, 1003
catecholamine, New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
caveolin-3, Immunohistochemical study of caveolin-3 in idiopathic hyperCKaemia, 547
cavernous angioma, New onset migraine with a brain stem cavernous angioma, 680
cavernous haemangioma, Hypertrophic olivary degeneration following pontine haemorrhage: hypertensive crisis or cavernous haemangioma bleeding?, 797
CD45, The role of the PTPRC (CD45) mutation in the development of multiple sclerosis in the North West region of the United Kingdom, 944
clinical trial, Informed consent in trials for neurological emergencies: the example of subarachnoid haemorrhage, 988
Surgery for Parkinson’s disease: lack of reliable clinical trial evidence, 519
closed head trauma, Visual prognosis after indirect traumatic optic neuropathy, 246
cluster headache, Features involved in the diagnostic delay of cluster headache, 1123
coccidioidomycosis, Coccidioidomycosis of the brain, mimicking en plaque meningoia, 806
coeac disease, Neurosensory and sensory disturbances in patients with well treated coeliac disease, 490
cognition, Cognition impairment in probable multiple sclerosis, 443
Mental deterioration later after head injury—does it happen?, 1014
Moderate hypoglycaemia abolates working memory in humans with and without insulin treated diabetes, 278
Mood changes with deep brain stimulation of STN and GPI: results of a pilot study, 1584
MRI directed bilateral stimulation of the subthalamic nucleus in patients with Parkinson’s disease, 1631
Performing the dementia rating scale in Parkinson’s disease with dementia and dementia with Lewy bodies: comparison with progressive supranuclear palsy and Alzheimer’s disease, 1215
Serum lipids and memory in a population based cohort of middle age women, 1530
cognitive decline, Neurological and cognitive decline in adolescence, 19
cognitive dysfunction, Cognitive dysfunction in young men following head injury in childhood and adolescence: a population study, 933
Working memory deficits in multiple sclerosis: a controlled study with auditory P600 correlates, 1231
cognitive impairment, Blood-brain barrier permeability in type II diabetes, 6
Longitudinal study of cognitive dysfunction in multiple sclerosis: neuropsychological, neuroradiological, and neurophysiological findings, 878
Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
Predictors of cognitive impairment in advanced Parkinson’s disease, 793
cohort study, Predictors of institutionalisation in people with dementia, 1315
coiling, Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680
colonic transit time, Colonic transit time and rectoanal videomanometry in Parkinson’s disease, 268
coma, Favourable outcome of a brain trauma patient despite bilateral loss of cortical somatosensory evoked potential during thiopental sedation, 1157
comparative genomic hybridisation, Lack of chromosomal imbalances in adamantinomatous and papillary craniopharyngiomas, 260
complement, Peripheral neuropathy in hepatita C virus infection with and without cryoglobulinaemia, 1267
computational model, Childhood onset generalised dystonia can be modelled by increased gain in the indirect basal ganglia pathway, 1509
computed tomography, Clinical application of neuroimaging in epilepsy, 466
Reappraisal of early CT signs to predict the arterial occlusion site in acute embolic stroke, 649
The impact of delays in computed tomography of the brain on the accuracy of diagnosis and subsequent management in patients with minor stroke, 77
Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452
computer communication networks, Internet resources for comparative genomic hybridisation, 36
computerised tomography, The prevalence of frontal variant frontotemporal dementia and the frontal lobe syndrome in a population based sample of 85 year olds, 867
COMT inhibition, Entacapone is beneficial in both fluctuating and non-fluctuating patients with Parkinson’s disease: a randomised, placebo controlled, double blind, six month study, 1071
conduct disorder, New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
conduction block, Transcutaneous cervical root stimulation in the diagnosis of multifocal motor neuropathy with conduction block, 1329
congenital abnormalities, Congenital abnormalities of the central nervous system, 13
congenital fibre type disproportion, Myalgia as the revealing symptom of multicore disease and fibre type disproportion myopathy, 1317
congenital myopathy, Myalgia as the revealing symptom of multicore disease and fibre type disproportion myopathy, 1317
consciousness, Lack of hemispheric dominance for consciousness in acute ischemic stroke, 889
constipation, Constipation in neurological diseases, 13
contract test, Neurologic malignant syndrome in Kufs’ disease, 385
conversion disorder, A 1908 systematic review of the laterality of hysterical hemiplegia, 1163
The 12 year prognosis of unilateral functional weakness and sensory disturbance, 591
What is wrong in conversion disorder?, 557
cortical dysplasia, Outcome of epilepsy surgery in focal cortical dysplasia, 183
Surgery for drug resistant partial epilepsy in children with focal cortical dysplasia: anatomical-clinical correlations and neurophysiological data in 10 patients, 1493
cortical reorganisation, Deterioration of pre-existing hemiparesis brought about by subsequent ipsilateral lacunar infarction, 1152
Preoperative motor system brain mapping using positron emission tomography and statistical parametric mapping: hints on cortical reorganisation, 471
corticosteroids, Corticosteroids do not prevent optic nerve atrophy following optic neuritis, 1139
cortisol, Neuroendocrine changes in patients with acute space occupying ischaemic stroke, 725
counterfactual thinking, Counterfactual cognitive deficit in persons with Parkinson’s disease, 1065
cranial myopathy, Lack of chromosomal imbalances in adamantinomatous and papillary craniopharyngiomas, 260
Creutzfeldt-Jakob disease, A prospective study of CSF markers in 250 patients with possible Creutzfeldt-Jakob disease, 1210
Early cognitive decline in Creutzfeldt-Jakob disease associated with human growth hormone treatment, 1412
Neuropathology of Hashimoto’s encephalopathy, 1009
critical care, Access to intensive care unit beds for neurosurgery patients: a qualitative case study, 1299
critical illness myopathy, Neurological consultations in the medical intensive care unit, iii16
critical illness polyneuropathy, Neurological consultations in the medical intensive care unit, iii16
Crohn’s disease, Crohn’s associated NOD2 gene variants are not involved in determining susceptibility to multiple sclerosis, 1157
cryoglobulinaemia, Peripheral neuropathy in hepatitis C virus infection with and without cryoglobulinaemia, 1267
CSF cell count, Early diagnosis of external ventricular drainage infection: results of a prospective study, 929
CSF hypovolaemia, Brain stem and cerebellar dysfunction after lumbar spinal fluid drainage: case report, 992
CSF infection, Failure of regular external ventricular drain exchange to reduce CSF infection, 1598
CSF outflow, Calculation of the resistance to CSF outflow, 1354
CT, Visible infarction on CT after stroke—what does it tell?, 413
CT scan, Pseudosubarachnoid haemorrhage in subdural haematoma, 113
Cuba, Letter from Cuba, 285
cyanogens, Incidence of endemic ataxic polyneuropathy and its relation to exposure to cyanide in a Nigerian community, 1417
CYP2D6 allele, Debrisoquine hydroxylase gene polymorphism (CYP2D6) in dementia with Lewy bodies, 135
cytokine, Intrathecal inflammation precedes development of Alzheimer's disease, 1200
Systemic infection, interleukin 1β, and cognitive decline in Alzheimer’s disease, 788
database, Prolonged survival in motor neuron disease: a descriptive study of the King’s database 1990–2002, 995
debrisoquine hydroxylase gene, Debrisoquine hydroxylase gene polymorphism (CYP2D6) in dementia with Lewy bodies, 135
decompressive craniectomy, Effects of decompressive craniectomy on brain tissue oxygen in patients with intracranial hypertension, 513

Decompressive hemicraniectomy, Hemiacraniectomy for large middle cerebral artery territory infarction: do these patients really benefit from this procedure?, 1600

deep brain stimulation, A novel quality of life instrument for deep brain stimulation in movement disorders, 1023

Chronic deep brain stimulation for the treatment of tremor in multiple sclerosis: review and case reports, 1392

Deep brain stimulation of the subthalamic nucleus: effectiveness in advanced Parkinson’s disease patients previously reliant on amphetamine, 170

Deep brain stimulation of the subthalamic nucleus in Parkinson’s disease: evaluation of active electrode contacts, 1036

Identification of target areas for deep brain stimulation in human basal ganglia substrates based on median nerve sensory evoked potential criteria, 1031

Mood changes with deep brain stimulation of STN and Gpi: results of a pilot study, 1584

Medication directed bilateral stimulation of the subthalamic nucleus in patients with Parkinson’s disease, 1631

Multicentre European study of thalamic stimulation in essential tremor, 1362

Neuropsychological and quality of life outcomes 12 months after unilateral thalamic stimulation for essential tremor, 305

Subthalamic deep brain stimulation for advanced Parkinson’s disease: all that glitters is not gold, 827

deep tendon reflex, The deep tendon and the abdominal reflexes, 150

definition, Diagnostic criteria and the use of ICD-10 codes to define and classify minor head injury, 351

dementia, Brain acetycholinesterase activity in mild cognitive impairment and early Alzheimer’s disease, 113

Cognitive presentation of multiple sclerosis: evidence for a cortical variant, 872

Current research on diagnosing dementia, 413

Dementia with Lewy bodies according to the consensus criteria in a general population aged 75 years or older, 720

Dipoles and dementia, 147

Do cognitive patterns of brain magnetic activity correlate with hippocampal atrophy in Alzheimer’s disease?, 208

Familial motor neurone disease with dementia: phenotypic variation and cerebrospinal fluid biomarkers, 1516

Hereditary diffuse leukoencephalopathy with spheroids, 1345

How common is dementia with Lewy bodies?, 697

“CADASIL coma”: an underdiagnosed acute encephalopathy, 249

Lewy body cortical involvement may not always predict dementia in Parkinson’s disease, 852

Limb length and dementia in an older Korean population, 427

Neuropsychological assessment in HTLV-1 infection: a comparative study among TSP/HAM, asymptomatic carriers, and healthy controls, 1085

Neuropsychological prediction of conversion to dementia from questionable dementia: statistically significant but not yet clinically useful, 433

Performance on the dementia rating scale in Parkinson’s disease with dementia and dementia with Lewy bodies: comparison with progressive supranuclear palsy and Alzheimer’s disease, 1215

Predictors of institutionalisation in people with dementia, 1315

Prospective Belgian study of neurodegenerative and vascular dementia: APOE genotype effects, 1148

protein, S100B as a surrogate marker for successful clot lysis in subdural haematoma, 1131
protein S-100B, Head injury outcome prediction in the emergency department: a role for protein S-100B, 827
protein longitudinal relaxation time, Diffuse brain oedema in idiopathic intracranial hypertension: a quantitative magnetic resonance imaging study, 1693
proton nuclear magnetic resonance spectroscopy, MRI lesion volume heterogeneity in primary progressive MS in relation with axonal damage and brain atrophy, 950
provalol load, Post-transplantation HIV-1 myelopathy in three recipients from a single donor, 1080
pseudo-Barter syndrome, Central pontine myelinolysis associated with hypokalaemia in anorexia nervosa, 353
pseudoseizures, Pseudoseizures and asthma, 639
pseudosubarachnoid haemorrhage, Pseudosubarachnoid haemorrhage in subdural haematoma, 1131
pseudotumor cerebri-intracranial hypertension, Intracranial hypertension secondary to giant arachnoid granulations, 418
psychiatric disorder, Psychopathology in people with epilepsy and intellectual disability: an investigation of potential explanatory variables, 1485
psychiatry, Interface between neurology and psychiatry in childhood, 117
Internet resources for psychiatry and neurosurgery, 10
Psychopathology, Psychopathology in people with epilepsy and intellectual disability, 1464
psychosis, Adult onset Niemann-Pick disease type C presenting with psychosis, 528
pyridostigmine, Priority setting: learning to make tough decisions, 1185
Pyridostigmine in postpolio syndrome: no decline in fatigue and limited functional improvement, 1655
quality of life, Influence of clinical, demographic, and socioeconomic variables on quality of life in patients with epilepsy: findings from Georgian study, 570
Neuropsychological and quality of life outcomes 12 months after unilateral thalamic stimulation for essential tremor, 305
Quality of life in motor neurone disease—towards a more practical assessment tool?, 287
The outcome of depressive disorders in the setting of neurological illness, 842
The relative health related quality of life of veterans with Parkinson’s disease, 163
quality of life instrument, A novel quality of life instrument for deep brain stimulation in movement disorders, 1023
quantitative analysis, Quantitative analysis of continuous intracranial pressure recordings in symptomatic patients with extracranial shunts, 231
quinuclidinyl benzilate, A randomised placebo controlled study to assess the effects of cholinergic treatment on muscarinic receptors in Alzheimer’s disease, 1567
radiation necrosis, Diffusion weighted imaging in radiation necrosis, 382
radiofrequency, Radiofrequency neurotomy, 1164
Radiofrequency neurotomy for the treatment of third occipital headache, 88
radiomimunoprecipitation assay, A sensitive radioimmunoprecipitation assay for assessing the clinical relevance of antibodies to IFN β, 1236
radiosurgery, Spontaneous haemorrhage into metastatic brain tumours after stereotactic radiosurgery using a linear accelerator, 908
randomised controlled trial, Pyridostigmine in postpolio syndrome: no decline in fatigue and limited functional improvement, 1655
Rasch analysis, Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSAQ-40 and ALSAQ-5), 242
rating scales, Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
rationing, Priority setting: learning to make tough decisions, 1185
Raven’s coloured progressive matrices, Occipital hypoperfusion in Parkinson’s disease without dementia: correlation to impaired cortical visual processing, 419
reading, “Bottom-up” and “top-down” effects on reading saccades: a case study, 1423
reflex, The grasp and other primitive reflexes, 558
The deep tendon and the abdominal reflexes, 150
refractory status epilepticus, The management of refractory generalised convulsive and complex partial status epilepticus in three European countries: a survey among epileptologists and critical care neurologists, 1095
rehabilitation, A randomised controlled trial comparing rehabilitation against standard therapy in multiple sclerosis patients receiving intravenous steroid treatment, 1225
Middle cerebral artery territory infarction sparing the precentral gyrus: report of three cases, 510
Multidisciplinary rehabilitation for people with Parkinson’s disease: a randomised controlled study, 158
Stroke: neuroplasticity and recent approaches to rehabilitation, 1465
reliability, Comparison of the tendon and plantar strike methods of eliciting the ankle reflex, 1351

Reliability of the variables in a new set of models that predict outcome after stroke, 447

renal cell cancer, Cerebral metastasis after primary renal cell carcinoma, 141

reperfusion, S100B as a surrogate marker for successful clot lysis in hyperacute middle cerebral artery occlusion, 322

repetitive nerve stimulation, Repetitive stimulation of the long thoracic nerve in myasthenia gravis: clinical and electrophysiological correlations, 379

resource allocation, Priority setting: learning to make tough decisions, 1185

respiratory chain, Mitochondria, 1188

respiratory failure, Long term ventilation in neurogenic respiratory failure, ii24

retina, A controlled study comparing visual function in patients treated with vigabatrin and tegabine, 339

retinal vein, Spontaneous retinal venous pulsation: aetiology and significance, 7

reversible dementias, Reversible dementias, 1008

rigidity, Velocity dependent passive muscle stiffness, 283

risk, Incidence, risk, and case fatality of first ever stroke in the elderly population, The Rotterdam Study, 317

risk factors, Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857

Medical and environmental risk factors for sporadic frontotemporal dementia: a retrospective case-control study, 1574

rituximab, Treatment of IgM antibody associated polineuropathies using rituximab, 485

root stimulation, Transcutaneous cervical root stimulation in the diagnosis of multifocal motor neuropathy with conduction block, 1329

Rosenthal fibre, The clinicopathological spectrum of Rosenthal fibre encephalopathy and Alexander’s disease: a case report and review of the literature, 807

rostral pons, Bilateral cerebellar ataxia as the sole manifestation of a unilateral rostral pontine tegmental infarct, 1445

ruptured intracranial aneurysms, Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680

saccades, “Bottom-up” and “top-down” effects on reading saccades: a case study, 1423

saitohin, Saitohin gene is not associated with Alzheimer’s disease, 362

salt wasting, Cerebral salt wasting syndrome in meningoencephalitis: a case report, 27

SCA 6, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444

schizophrenia, Schizophrenia and episodic ataxia type 2, 688

Similarity and disparity of obsesive-compulsive disorder and schizophrenia in MR volumetric abnormalities of the hippocampus-amygdala complex, 962

screening, Screening for variant Creutzfeldt-Jakob disease, 828

second somatosensory area (SII), second somatosensory area (SII), 351

somatic marker hypothesis, Decision making in humans: the effect of manipulating the central noradrenergic system, 376

somatic nervous system, Organisation of the sympathetic skin response in spinal cord injury, 1008

vestibular schwannoma, Clinical experience with gamma knife stereotactic radiosurgery in the management of vestibular schwannomas secondary to type 2 neurofibromatosis, 1288
video recording, Trigeminal autonomic cephalalgia-tic-like syndrome associated with a pontine tumour in a one year old girl, 391
videofluoroscopy, Vocal fold motion impairment in patients with multiple system atrophy: evaluation of its relationship with swallowing function, 982
vigabatrin, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339
Vigabatrin, tiagabine, and visual fields, 286
violence, New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
virology, Neurovirological methods and their applications, 1016
vision, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339
visual attention, “Bottom-up” and “top-down” effects on reading saccades: a case study, 1423
visual cortex, Increased visual cortical excitability in ecstasy users: a transcranial magnetic stimulation study, 1136
visual loss, Visual prognosis after indirect traumatic optic neuropathy, 246
visual prognosis, Visual prognosis after indirect traumatic optic neuropathy, 246
vitamin B-12, Low vitamin B-12 status in confirmed Alzheimer’s disease as revealed by serum holotranscobalamin, 959
vocal cord, Sequential constriction of upper airway and vocal cords in sleep apnoea of multiple system atrophy: low field magnetic resonance fluoroscopic study, 642
vocal fold motion impairment, Vocal fold motion impairment in patients with multiple system atrophy: evaluation of its relationship with swallowing function, 982
volumetric MRI, Assessment of the impact of the removal of cerebrospinal fluid on cerebral tissue volumes by advanced volumetric 3D-MRI in posthaemorrhagic hydrocephalus in a premature infant, 658
Development of selective verbal memory impairment secondary to a left thalamic infarct: a longitudinal case study, 255
volumetry, Amygdala volumetry in “imaging-negative” temporal lobe epilepsy, 1245
Medial temporal lobe atrophy in patients with refractory temporal lobe epilepsy, 1627
Wallerian degeneration, Wallerian degeneration of the inferior cerebellar peduncle depicted by diffusion weighted imaging, 977
wasp sting, Encephalomyeloradiculopathy associated with wasp sting, 134
website, Internet resources for neurosurgeons and neuropathologists, 154
Wernicke encephalopathy, Reversible acute axonal polyneuropathy associated with Wernicke-Korsakoff syndrome: impaired physiological nerve conduction due to thiamine deficiency?, 674
West Nile virus infection, Acute anterior radiculitis associated with West Nile virus infection, 823
West Riding Lunatic Asylum, The West Riding Lunatic Asylum, 1141
whiplash injuries, Focal hand dystonia after cervical whiplash injury, 134
white matter disease, Brain white matter lesions detected by magnetic resonance imaging are associated with balance and gait speed, 94
white matter lesions, The natural course of Sneddon syndrome: clinical and magnetic resonance imaging findings in a prospective six year observation study, 542
whole cell mode, Nanotechnology for neuronal ion channels, 1466
William Senhouse Kirkes, Cerebral embolism in endocarditis: William Senhouse Kirkes (1823–64), 1570
Wilson’s disease, Faces of the giant panda and her cub: MRI correlates of Wilson’s disease, 657
working memory, Moderate hypoglycaemia obliterates working memory in humans with and without insulin treated diabetes, 278
Working memory deficits in multiple sclerosis: a controlled study with auditory P600 correlates, 1231
world wide web, Internet resources for neurosurgeons and neuropathologists, 154
xenobiotics, Polymorphisms of toxifying and detoxifying hepatic enzymes in amyotrophic lateral sclerosis, 1161
X-linked adrenoleucodystrophy, Clinical and electrophysiological improvement of adrenomyeloneuropathy with steroid treatment, 822
X-linked learning difficulties, Learning difficulties: what the neurologist needs to know, 130
X-linked mental retardation, Brain cysts associated with mutation in the Aristaless related homeobox gene, ARX, 536
