Diffusion tensor imaging detects corticospinal tract involvement at multiple levels in amyotrophic lateral sclerosis, 1250

Dysphagia due to Chiari I malformation mimicking ALS, 549

Early or late appearance of ‘dropped head syndrome’ in amyotrophic lateral sclerosis, 683

Effect of a multidisciplinary amyotrophic lateral sclerosis (ALS) clinic on ALS survival: a population based study, 1996–2000, 1258

Persistent bitter taste as an initial symptom of amyotrophic lateral sclerosis, 687

Polymerizations of taxifolin and detoxifying hepatic enzymes in amyotrophic lateral sclerosis, 1161

Predictors of successful self control during brain-computer communication, 1117

Prolonged survival in motor neuron disease: a descriptive study of the King’s database 1990–2002, 995

Quality of life in motor neurone disease—towards a more practical assessment tool?, 287

Transcutaneous cervical root stimulation in the diagnosis of multifocal motor neuropathy with conduction block, 1329

Aneurysm, Central and peripheral fusiform aneurysms six years after left atrial myxoma resection, 280

Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680

angiography, Measuring carotid stenosis, 140

Reappraisal of early CT signs to predict the arterial occlusion site in acute embolic stroke, 649

angioplasty, Vertebral artery origin angioplasty and primary stenting: safety and restenosis rates in a prospective series, 586

angiotensin I converting enzyme, Shifts in angiotensin I converting enzyme insertion allele frequency across Europe: implications for Alzheimer’s disease risk, 1159

ankle reflex, Comparison of the tendon and plantar strike methods of eliciting the ankle reflex, 1351

Anorexia nervosa, Central pontine myelinolysis associated with hypokalaemia in anorexia nervosa, 353

Anterior canal failure, Anterior canal failure: ocular torsion without perceptual tilt due to preserved otolith function, 1336

Anterior cervical discectomy, Two cases of quadriaparesis following anterior cervical discectomy, with normal peripheric somatosensory evoked potentials, 273

Anterior inferior cerebellar artery, Auditory disturbance as a prodrome of anterior inferior cerebellar artery infarction, 1644

Anterior radiculitis, Acute anterior radiculitis associated with West Nile virus infection, 823

Anti-basal ganglia antibodies, Tourette’s syndrome: a cross sectional study to examine the PANDAS hypothesis, 602

Anticholinesterase agents, Endplate dysfunction causing respiratory failure in a patient with prior poral myopathy, 370

AniEEG drugs, A controlled study comparing visual function in anorexia nervosa, 378

Taking over epilepsy from the paediatric neurologist, 137

Anti-GAD antibodies, Autoantibodies to glutamic acid decarboxylase in downbeat nystagmus, 998

Anti-GQ1b IgG syndrome, Recurrent anti-GQ1b IgG antibody syndrome showing different phenotypes in different periods, 1350

Antithyroid treatment, Should I start all my ischaemic stroke and TIA patients on a statin, an ACE inhibitor, a diuretic and aspirin today?, 1461

Anti-Ma2 antibody, Anti-Ma2 antibody related paraneoplastic limbic/brain stem encephalitis associated with breast cancer expressing Ma1, Ma2, and Ma3 mRNAs, 1332

Antithrombotic, Adult paraneoplastic opsoclonus-myoclonus syndrome associated with antithrombotic autoimmune antibodies, 1595

Antiretroviral treatment, Progressive multifocal leucoencephalopathy with unusual inflammatory response during antiretroviral treatment, 1142

Anxiety, Specific phobia is a frequent non-motor feature in stiff man syndrome, 462

The effect of brain tumour laterality on anxiety levels among neurosurgical patients, 1278

Anxiety disorders, Mental illness in new neurological patients, 817

Apelliprotein E, Apolipoprotein E genotypes and clinical outcome in Guillain-Barré syndrome, 971

Apolipoprotein E genotypes and outcome from out of hospital cardiac arrest, 1441

Debrisoquine hydroxylase gene polymorphism (CYP2D64) in dementia with Lewy bodies, 135

Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857

Long term neuropsychological outcome after head injury: relation to APOE genotype, 1047

Mental deterioration late after head injury—does it happen?, 1014

Apoporphine, Deep brain stimulation of the subthalamic nucleus: effectiveness in advanced Parkinson’s disease patients previously reliant on apomorphine, 170

Acutd stenosis, Effect of endoscopic third ventriculostomy on neuropsychological outcome in late onset idiopathic aqueduct stenosis: a prospective study, 222

Arachnoid granulations, Intracranial hypertension secondary to giant arachnoid granulations, 418

Arousal, Lack of hemispheric dominance for consciousness in acute ischaemic stroke, 889

Arterial hypertension, Influence of age on the association between primary hemisflacial spasm and arterial hypertension, 979

ARX gene, Brain cysts associated with mutation in the Arl1stless related homebox gene, ARX, 536

Aseptic meningoencephalitis, Lymphocytic hypophysitis successfully treated with azathioprine: first case report, 1581

Ashworth scale, The relation between Ashworth scale scores and the excitability of the α motor neurons in patients with post-stroke muscle spasticity, 646

Aspirin, Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452

Association study, Role of the dopamine D5 receptor (DRD5) as a susceptibility gene for cervical dystonia, 665

Asthma, Pseudoseizures and asthma, 639

Asymmetrical signs, Mirror movements of the non-affected hand in hemiparkinsonian patients: a reflection of ipsilateral motor overactivity?, 1352

Ataxia, Ataxic arm movements after thalamotomy for Parkinson’s tremor, 258

Olfactory dysfunction in degenerative ataxias, 1435

Ataxic polyneuropathy, Incidence of endemic ataxic polyneuropathy and its relation to exposure to cyanide in a Nigerian community, 1417

Atherosclerosis, Raised plasma oxidised LDL in acute cerebral infarction, 312

ATPase, Reversible acute axonal polyneuropathy associated with Wernicke-Korsakoff syndrome: impaired physiological nerve conduction due to thiamine deficiency?, 674

Atrophy, Corticosteroids do not prevent optic nerve atrophy following optic neuritis, 1139

Neuroimaging tools to rate regional atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371

Atypical Pick’s disease, Alterations of muscarinic acetylcholine receptors in atypical Pick’s disease without Pick bodies, 965

Augmentation index, Measurement of pulse pressure profiles in patients with trigeminal neuralgia, 533

Autoantibodies, Adult paraneoplastic opsoclonus-myoclonus syndrome associated with antimitochondrial autoimmune antibodies, 1595

Autimmune myasthenia, Autoimmune myasthenia gravis after cardiac surgery, 392

Autonomic disease, Autonomic diseases: clinical features and laboratory evaluation, iii31

Autonomic diseases: management, iii42

Constipation in neurological diseases, 13

Autonomic nervous system, Autonomic diseases: management, iii42

Autonomic nervous system, Autonomic diseases: clinical features and laboratory evaluation, iii31

Autonomic diseases: management, iii42

Autonomic nervous system testing may not distinguish multiple system atrophy from Parkinson’s disease, 56

Intensive care neurology and the autonomic nervous system, iii42

Autoregulation, Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765

Autosomal dominant cerebellar ataxia, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444
autosomal dominant partial epilepsy with auditory features, Genetics of temporal lobe epilepsy, 1359
awareness, Regional cerebral glucose metabolism in akinetic catatonia and after remission, 1003
axonal neurogenic, An unusual phenotype of McLeod syndrome with late onset axonal neuropathy, 1697
axons, Axonal injury in multiple sclerosis, 695
azathioprine, Lymphocytic hypophysitis successfully treated with azathioprine: first case report, 1581
bacterial infection, Aetiologic diagnosis of brain abscesses and spinal infections: application of broad range bacterial polymerase chain reaction analysis, 728
balance, Brain white matter lesions detected by magnetic resonance imaging are associated with balance and gait speed, 94
basal cell carcinoma, Ulcus terebrans: an unusual cause of paraparesis, 1643
basal ganglia, Childhood onset generalised dystonia can be modelled by increased gain in the indirect basal ganglia pathway, 1509
basilar artery, HERalding manifestations of basal artery occlusion with lefthal or severe stroke, 1621
basilar thrombosis, HERalding manifestations of basilar artery occlusion with lefthal or severe stroke, 1621
behavioural dysfunction, Behavioural abnormalities contribute to functional decline in Huntington’s disease, 120
Behçet’s disease, Prevalence and patterns of neurological involvement in Behçet’s disease: a prospective study from Iraq, 608
benign sensory changes, Hemisensory syndrome is associated with a low diagnostic yield and a nearly uniform benign prognosis, 1113
β adrenoreceptor expression, Expression of β2 adrenoreceptors on peripheral blood mononuclear cells in patients with primary and secondary progressive multiple sclerosis: a longitudinal six month study, 197
β endorphin, β endorphin concentrations in PBMC of patients with different clinical phenotypes of multiple sclerosis, 495
Bickerstaff’s brain stem enephalitis, Recurrent anti-GQ1b IgG antibody syndrome showing different phenotypes in different periods, 1350
bilateral ataxia, Bilateral cerebellar ataxia as the sole manifestation of a unilateral rostral pontine tegmental infarct, 1445
bilateral hearing loss, Sudden bilateral simultaneous deafness with vertigo as a sole manifestation of vertebrobasilar insufficiency, 539
bilateral medullary infarction, Isolated total tongue paralysis as a bilateral medullary infarction, 1697
bilateral subthalamic deep brain stimulation, Defining a role for the bilateral subthalamic deep brain stimulation, 1698
blood-brain barrier, Blood-brain barrier permeability in type II diabetes, 6
Increased blood-brain barrier permeability in type II diabetes demonstrated by gadolinium magnetic resonance imaging, 70
BOLD fMRI, BOLD fMRI activation induced by vagus nerve stimulation in seizure patients, 811
bone conduction, Vestibular activation by bone conducted sound, 771
bone marrow transplantation, Improvement of central motor conduction after bone marrow transplantation in adenoleukodystrophy, 373
botulinum toxins, Botulinum toxin type B in blepharospasm and hemifacial spasm, 687
brain, Cerebellar hypoplasia in a patient with a unilateral paramedian thalamic lesion, 356
blood-brain barrier, Blood–brain barrier permeability in type II diabetes, 6
Increased blood–brain barrier permeability in type II diabetes demonstrated by gadolinium magnetic resonance imaging, 70
BOLD fMRI, BOLD fMRI activation induced by vagus nerve stimulation in seizure patients, 811
brain infection, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
brain infection, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
brain injury, Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857
Normal jugular bulb oxygen saturation, 784
brain lesion load, The longitudinal relation between brain lesion load and atrophy in multiple sclerosis: a 14 year follow up study, 1551
brain metastases, Cerebral metastasis after primary renal cell carcinoma, 141
Spontaneous haemorrhage into metastatic brain tumours after stereotactic radiosurgery using a linear accelerator, 908
brain oedema, Hemisensory subtype for large middle cerebral artery territory infarction: outcome in 19 patients, 800
brain sagging, Brain stem and cerebellar dysfunction after lumbar spinal fluid drainage: case report, 992
brain stem, Brain stem enephalitis caused by primary herpes simplex 2 infection in a young woman, 1323
New onset migraine with a brain stem cavernous angioma, 680
brain tissue, Brain tissue oxygen guided treatment supplementing ICP/ CPP therapy after traumatic brain injury, 760
Effects of decompressive craniectomy on brain tissue oxygenation in patients with intracranial hypertension, 513
Intracerebral microdialysis and CSF hydrodynamics in idiopathic adult hydrocephalus syndrome, 217
brain tumour, Is neurocysticercosis a risk factor in coexistent intracranial disease? An MRI based study, 359
Magnetoencephalographic representation of the sensorimotor hand area in cases of intracerebral tumour, 1649
Second harmonic imaging; a new ultrasound technique to assess human brain tumour perfusion, 333
The effect of brain tumour latency on anxiety levels among neurosurgical patients, 1278
brain-computer communication, Predictors of successful self control during brain-computer communication, 1117
breast cancer, Anti-MA2 antibody related paraneoplastic limbic/brain stem enephalitis associated with breast cancer expressing Mα1, Mα2, and Mα3 mRNAs, 1332
CACNA1A, Task specific focal dystonia: a presentation of spino-cerebellar ataxia type 6, 1444
CADASIL, Coexistence of CADASIL and Alzheimer’s disease, 790
CADASIL syndrome, “CADASIL coma”: an underdiagnosed acute encephalopathy, 249
callusional disconnection, Reversible callusional disconnection syndrome in internal hydrocephalus, 389
camptocormia, Head drop and camptocormia, 692
The naming of parts, 692
cardiomyopathy, Association of cardiomyopathy caused by autonomic nervous system impairment with the Miller Fisher syndrome, 689

primary generalised epilepsy. Persistent abnormality detected in the non-cital electronencephalogram in primary generalised epilepsy, 51
primary hypersomnia. Hypocretin (orexin) deficiency in narcolepsy and primary hypersomnia, 127
primary progressive multiple sclerosis. MRI lesion volume heterogeneity in primary progressive MS in relation with axonal damage and brain atrophy, 950
priority setting. Access to intensive care unit beds for neurosurgery patients: a qualitative case study, 1299
Priority setting: learning to make tough decisions, 1185
progressive multifocal leucoencephalopathy. Progressive multifocal leucoencephalopathy with unusual inflammatory response during antiretroviral treatment, 1142
prognosis. Favourable outcome of a brain trauma patient despite bilateral loss of cortical somatosensory evoked potential during thionipental sedation, 1157
Long term risks of stroke, myocardial infarction, and vascular death in “low risk” patients with a non-recent transient ischaemic attack, 577
Reliability of the variables in a new set of models that predict outcome after stroke, 447
Splitting for carpal tunnel syndrome: prognostic indicators of success, 1342
Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452
progressive midbrain syndrome. Expanding cerebral cysts (lacunae): a progressive midbrain syndrome, 1131
prolactin. Neuroendocrine changes in patients with acute space occupying ischaemic stroke, 725
prolactinoma. SUNCT syndrome secondary to prolactinoma, 1590
prospective memory. Event based and time based prospective memory in Parkinson’s disease, 704
protein. S100B as a surrogate marker for successful clot lysis in hyperacute middle cerebral artery occlusion, 322
protein S-100B. Head injury outcome prediction in the emergency department: a role for protein S-100B, 827
protein longitudinal relaxation time. Diffuse brain oedema in idiopathic intracranial hypertension: a quantitative magnetic resonance imaging study, 1693
proton magnetic resonance spectroscopy. MRI lesion volume heterogeneity in primary progressive MS in relation with axonal damage and brain atrophy, 950
proviral load. Post-transplantation HTLV-1 myelopathy in three recipients from a single donor, 1080
pseudo-Barter syndrome. Central pontine myelinolysis associated with hypokalaemia in anorexia nervosa, 353
pseudoseizures. Pseudoseizures and asthma, 639
pseudo subarachnoid haemorrhage. Pseudo subarachnoid haemorrhage in subdural haematoma, 1131
pseudotumour cerebri-intracranial hypertension. Intracranial hypertension secondary to giant arachnoid granulations, 418
psychiatric disorder. Psychopathology in people with epilepsy and intellectual disability: an investigation of potential explanatory variables, 1485
psychiatry. Interface between neurology and psychiatry in childhood, 117
Internet resources for psychiatry and neuropsychiatry, 10
Psychopathology. Psychopathology in people with epilepsy and intellectual disability, 1464
psychosis. Adult onset Niemann-Pick disease type C presenting with psychosis, 528
pyridostigmine. Priority setting: learning to make tough decisions, 1185
Pyridostigmine in postpolio syndrome: no decline in fatigue and limited functional improvement, 1655
quality of life. Influence of clinical, demographic, and socioeconomic variables on quality of life in patients with epilepsy: findings from Georgian study, 570
Neuropsychological and quality of life outcomes 12 months after unilateral thalamic stimulation for essential tremor, 305
Quality of life in motor neurone disease—towards a more practical assessment tool?, 287
The outcome of depressive disorders in the setting of neurological illness, 842
The relative health related quality of life of veterans with Parkinson’s disease, 163
quality of life instrument. A novel quality of life instrument for deep brain stimulation in movement disorders, 1023
quantitative analysis. Quantitative analysis of continuous intracranial pressure recordings in symptomatic patients with extracranial shunts, 231
quinuclidinyl benzilate. A randomised placebo controlled study to assess the effects of cholinergic treatment on muscarinic receptors in Alzheimer’s disease, 1567
radiation necrosis. Diffusion weighted imaging in radiation necrosis, 382
radiofrequency. Radiofrequency neurootomy, 1164
Radiofrequency neurootomy for the treatment of third occipital headache, 88
radioimmunoprecipitation assay. A sensitive radioimmunoprecipitation assay for assessing the clinical relevance of antibodies to IFN β, 1236
radiosurgery. Spontaneous haemorrhage into metastatic brain tumours after stereotactic radiosurgery using a linear accelerator, 908
randomised controlled trial. Pyridostigmine in postpolio syndrome: no decline in fatigue and limited functional improvement, 1655
Rasch analysis. Deriving summary indices of health status from the Amyotrophic Lateral Sclerosis Assessment Questionnaires (ALSAQ-40 and ALSAQ-5), 242
rating scales. Neuroimaging tools to rate cortical atrophy, subcortical cerebrovascular disease, and regional cerebral blood flow and metabolism: consensus paper of the EADC, 1371
rationing. Priority setting: learning to make tough decisions, 1185
Raven’s coloured progressive matrices. Occipital hypoperfusion in Parkinson’s disease without dementia: correlation to impaired cortical visual processing, 419
reading. “Bottom-up” and “top-down” effects on reading saccades: a case study, 1423
reflex. The grasp and other primitive reflexes, 1561
reflex. The grasp and other primitive reflexes, 1561
refractory status epilepticus. The management of refractory generalised convulsive and complex partial status epilepticus in three European countries: a survey among epileptologists and critical care neurologists, 1095
rehabilitation. A randomised controlled trial comparing rehabilitation against standard therapy in multiple sclerosis patients receiving intravenous steroid treatment, 1225
Middle cerebral artery territory infarction sparing the precentral gyrus: a report of three cases, 510
Multidisciplinary rehabilitation for people with Parkinson’s disease: a randomised controlled study, 158
Stoke: neuroplasticity and recent approaches to rehabilitation, 1465
reliability, Comparison of the tendon and plantar strike methods of eliciting the ankle reflex, 1351
Reliability of the variables in a new set of models that predict outcome after stroke, 447
renal cell cancer, Cerebral metastasis after primary renal cell carcinoma, 141
reperfusion, S100B as a surrogate marker for successful clot lysis in hypertensive middle cerebral artery occlusion, 322
repetitive nerve stimulation, Repetitive stimulation of the long thoracic nerve in myasthenia gravis: clinical and electrophysiological correlations, 379
resource allocation, Priority setting: learning to make tough decisions, 1185
respiratory chain, Mitochondria, 1188
respiratory failure, Long term ventilation in neurogenic respiratory failure, ii24
retina, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339
retinal vein, Spontaneous retinal venous pulsation: aetiology and significance, 7
reversible dementias, Reversible dementias, 1008
rigidity, Velocity dependent passive muscle stiffness, 283
risk, Incidence, risk, and case fatality of first ever stroke in the elderly population: The Rotterdam Study, 317
risk factors, Head injury as a risk factor for Alzheimer’s disease: the evidence 10 years on; a partial replication, 857
Medical and environmental risk factors for sporadic frontotemporal dementia: a retrospective case-control study, 1574
rituximab, Treatment of IgM antibody associated polymyopathies using rituximab, 485
root stimulation, Truncavaneous cervical root stimulation in the diagnosis of multifocal motor neuropathy with conduction block, 1329
Rosenthal fibre, The clinicopathological spectrum of Rosenthal fibre encephalopathy and Alexander’s disease: a case report and review of the literature, 807
rostral pons, Bilateral cerebellar ataxia as the sole manifestation of a unilateral rostral pontine tegmental infarct, 1445
ruptured intracranial aneurysms, Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680
saccades, “Bottom-up” and “top-down” effects on reading saccades: a case study, 1423
saitohin, Saitohin gene is not associated with Alzheimer’s disease, 362
salt wasting, Cerebral salt wasting syndrome in meningoencephalitis: a magnetic resonance fluoroscopic study, 642
sleep, The relation between daytime sleepiness, fatigue, and reduced motivation in patients with adult onset myotonic dystrophy, 138
slow cortical potentials, Predictors of successful self control during brain-computer communication, 1117
sleep apnoea syndrome, Sequential constriction of upper airway and vocal cords in sleep apnoea of multiple system atrophy: low field magnetic resonance imaging findings in a prospective six year observation study, 542
social deprivation, Effect of deprivation on time to hospital in acute stroke, 545
Social deprivation and adult head injury: a national study, 1060
somatic marker hypothesis, Decision making in humans: the effect of manipulating the central noradrenergic system, 376
somatic nervous system, Organisation of the sympathetic skin response in spinal cord injury, 1008
somatoform disorders, Mental illness in new neurological patients, 817
somatosensory, Effects of light fingertip touch on pastoral responses in subjects with severe hand dystonia, 620
somatosensory evoked potential, Application of time–frequency analysis to somatosensory evoked potential for intraoperative spinal cord monitoring, 82
somnolence, Offactory deficits and sleep disturbances in Parkinson’s disease: a case–control survey, 956
spastic gene, Motor system abnormalities in hereditary spastic paraparesis type 4 (SPG4) depend on the type of mutation in the spastin gene, 1109
spastic paresis, Spastic movement disorder: what is the impact of research on clinical practice?, 820
spasticity, Long term course of the H reflex after selective tibial neurotomy, 913
The relation between Ashworth scale scores and the excitability of the motor neurones in patients with post-stroke muscle spasticity, 646
Velocity dependent passive muscle stiffness, 283
spatial attention, Conflict and integration of spatial attention between disconnected hemispheres, 395
spatial memory, Loss of spatial learning in a patient with topographical disorientation in new environments, 61
spatial vision, Spatial vision in visually asymptomatic subjects at high risk for multiple sclerosis, 1145
SPECT, A randomised placebo controlled study to assess the effects of cholinergic treatment on muscarinic receptors in Alzheimer’s disease, 1567
Alzheimer’s disease: differences in technetium-99m HMPAO SPECT scan findings between early onset and late onset dementia, 715
Is a combination of Tc-SPECT or perfusion weighted magnetic resonance imaging with spinal tap test helpful in the diagnosis of normal pressure hydrocephalus?, 479
Objective measures for the progression of Parkinson’s disease, 287
The harsh realities facing the use of SPECT imaging in monitoring disease progression in Parkinson’s disease, 1447

spectacular shrinking deficit, Middle cerebral artery territory infarction sparing the precentral gyrus: report of three cases, 510

speed/size trade-off, Parkinson’s disease patients undershoot target in handwriting and similar tasks, 1502

spinal bifida, Cranial and spinal abnormalities of the cranial and spinal nervous system, i3 spinal, Spinal dural arteriovenous fistulas: clinical features in 80 patients, 1438

spinal amyotrophy, Peripheral and spinal segmental abnormalities of median and ulnar somatosensory evoked potentials in Hirayama’s disease, 627

spinal cord, Spinal cord MRI in clinically isolated optic neuritis, 1577

spinal cord atrophy, Neuroscience for neurologists, 1013

Spinal cord atrophy and disability in multiple sclerosis over four years: application of a reproducible automated technique in monitoring disease progression in a cohort of the interferon β-1a (Rebif) treatment trial, 1090

spinal cord injury, Organisation of the sympathetic skin response in spinal cord injury, 1008

Peripheral and segmental spinal abnormalities of median and ulnar somatosensory evoked potentials in Hirayama’s disease, 627

spinal cord lipoma, Intramedullary migration of spinal cord lipoma, 1593

spinal cord monitoring, Two cases of quadriaparesis following anterior cervical discectomy, with normal perioperative somatosensory evoked potentials, 273

spinal cord sarcoidosis, Clinical MRI dissociation in myelopathy: a clue to sarcoidosis?, 1122

spinal infection, Aetiological diagnosis of brain abscesses and spinal infections: application of broad range bacterial polymerase chain reaction analysis, 728

spine, Ulcer terebrans: an unusual cause of paraparesis, 1643

spino cerebellar ataxia, Vestibulo-ocular arreflexia in families with spino cerebellar ataxia type 3 (Machado-Joseph disease), 1403

splints, Splinting for carpal tunnel syndrome: prognostic indicators of success, 1392

spontaneous intracranial hypotension, Subdural haematomata: a potentially serious consequence of spontaneous intracranial hypotension, 752

spontaneous venous pulsation, Spontaneous retinal venous pulsation: aetiology and significance, 7

Staphylococcus aureus, Detection of Staphylococcus aureus by 16S rDNA directed in situ hybridisation in a patient with a brain abscess caused by small colony variants, 1000

statistical parametric mapping, Preoperative motor system brain mapping using positron emission tomography and statistical parametric mapping: hints on cortical reorganisation, 471

status epilepticus, Admission to neurological intensive care: who, when, and why?, 1122

stem cells, Stem cells and neurological disease, 553

stenosis, Measuring carotid stenosis, 140

stening, Idiopathic intracranial hypertension: 12 cases treated by venous sinus stenting, 1662

Vertebral artery origin angioplasty and primary stenting: safety and restenosis rates in a prospective series, 586

stereotactic radiosurgery, Clinical experience with gamma knife stereotactic radiosurgery in the management of vestibular schwannomas secondary to type 2 neurofibromatosis, 1288

steroid, Efficacy of methylprednisolone pulse therapy on neuroleptic malignant syndrome in Parkinson’s disease, 574

steroid treatment, Clinical and electrophysiological improvement of adenomyeloneuropathy with steroid treatment, 822

stiff man syndrome, Specific phobia is a frequent non-motor feature in stiff man syndrome, 462

straining, Colonic transit time and rectoanal volumenometry in Parkinson’s disease, 268

streptococcal infection, Tourette’s syndrome: a cross sectional study to examine the PANDAS hypothesis, 602

streptococcus, Sydenham’s chorea may be a risk factor for drug induced parkinsonism, 1350

stroke, A comparative study into the one year cumulative incidence of depression after stroke and myocardial infarction, 581

Abnormalities on diffusion weighted magnetic resonance imaging performed several weeks after a minor stroke or transient ischaemic attack, 734

Admission to neurological intensive care: who, when, and why?, 1122

American trypanosomiasis (Chagas’ disease): an unrecognised cause of stroke, 516

Antithrombotic drugs in secondary stroke prevention among a subarachnoid haemorrhage population. The Rotterdam Study, 317

Intra-arterial thrombolysis in 24 consecutive patients with internal carotid artery T occlusions, 739

Isolated total tongue paralysis as a manifestation of bilateral medullary infarction, 1698

Lack of hemispheric dominance for consciousness in acute ischaemic stroke, 889

Long term risks of stroke, myocardial infarction, and vascular death in “low risk” patients with a non-recent transient ischaemic attack, 577

Meningioma presenting as stroke: report of two cases and estimation of incidence, 136

Middle cerebral artery territory infarction sparing the precentral gyrus: report of three cases, 510

Neuroendocrine changes in patients with acute space occupying ischaemic stroke, 725

Placing nasogastric tubes in stroke patients with dysphagia: efficiency and tolerability of the reflex placement, 1429

Reappraisal of early CT signs to predict the arterial occlusion site in acute embolic stroke, 649

Should I start all my ischaemic stroke and TIA patients on a statin, an ACE inhibitor, a diuretic and aspirin today?, 1461

Stroke care: the way forward, 411

Stroke: neuroplasticity and recent approaches to rehabilitation, 1465

The impact of delays in computed tomography of the brain on the accuracy of diagnosis and subsequent management in patients with minor stroke, 77

The natural course of Sneddon syndrome: clinical and magnetic resonance imaging findings in a prospective six year observation study, 542

Transoesophageal echocardiography: which stroke patients benefit most from this investigation?, 283

Visible infarction on CT after stroke—what does it tell?, 413

stroke assessment, Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452

stroke motor recovery, Stroke motor recovery: active neuromuscular stimulation and repetitive practice schedules, 1562

stroke outcome, Visible infarction on computed tomography is an independent predictor of poor functional outcome after stroke, and not of haemorrhagic transformation, 452

stroke prevention, Vertebral artery origin angioplasty and primary stenting: safety and restenosis rates in a prospective series, 586

subarachnoid haemorrhage, Admission to neurological intensive care: who, when, and why?, 1122

Informed consent in trials for neurological emergencies: the example of subarachnoid haemorrhage, 988

Pituitary deficiency following aneurysmal subarachnoid haemorrhage, 1133

Ruptured intracranial aneurysms: the outcome of surgical treatment in experienced hands in the period prior to the advent of endovascular coiling, 1680
Superficial siderosis of the central nervous system many years after neurosurgical procedures, 1326
subdural haematoma, Outcome of contemporary surgery for chronic subdural haematoma: evidence based review, 937
Pseudosubarachnoid haemorrhage in subdural haematoma, 1131
Subdural haematoma: a potentially serious consequence of spontaneous intracranial hypotension, 752
Surgery for chronic subdural haematoma: is there an evidence base?, 842
substance related disorder, Mental illness in new neurological patients, 817
subthalamic nucleus, Cognitive and behavioural effects of chronic stimulation of the subthalamic nucleus in patients with Parkinson’s disease, 175
Deep brain stimulation of the subthalamic nucleus: effectiveness in advanced Parkinson’s disease patients previously reliant on apomorphine, 170
Deep brain stimulation of the subthalamic nucleus in Parkinson’s disease: evaluation of active electrode contacts, 1036
Mood changes with deep brain stimulation of STN and Gpi: results of a pilot study, 1584
MRI directed bilateral stimulation of the subthalamic nucleus in patients with Parkinson’s disease, 1631
subtype specific antibody, Alterations of muscular acetylcholine receptors in atypical Pick’s disease without Pick bodies, 965
SUNCT syndrome, SUNCT syndrome secondary to prolactinoma, 1590
superficial siderosis, Superficial siderosis of the central nervous system many years after neurosurgical procedures, 1326
supraocular canal lesion, Diencephalic syndrome, Anterior canal failure: ocular torsion without perceptual tilt due to preserved otolith function, 1336
supranuclear palsy, Supranuclear gaze palsy and opsoclonus after apomorphine intoxication, 677
surgery, Surgery for drug resistant partial epilepsy in children with focal cortical dysplasia: anatomical–clinical correlations and neurophysiological data in 10 patients, 1493
surgical treatment, Outcome of contemporary surgery for chronic subdural haematoma: evidence based review, 937
Subdural haematoma: a potentially serious consequence of spontaneous intracranial hypotension, 752
survey technique, Lay versus expert interviewers for the diagnosis of migraine in a large sample of elderly people, 238
survival, Effect of a multidisciplinary amyotrophic lateral sclerosis (ALS) clinic on ALS survival: a population based study, 1996–2000, 1258
swallowing, Neurology of swallowing and oral feeding disorders: surgical treatment, 1627
temporal lobectomy, Potentially misleading extratemporal lobe lesions in patients with temporal lobe epilepsy, 566
temoral lobectomy, Potentially misleading extratemporal lobe lesions in patients with temporal lobe epilepsy, 566
tetanus toxin, Brain lesions in the course of generalised tetanus, 1432
tethered cord syndrome, Adult tethered cord syndrome presenting with refractory diarhrea, 1596
tetrahydroprogesterone, GABAA receptor active steroids are altered in epilepsy patients with tuberous sclerosis, 667
thalamic infarct, Development of selective verbal memory impairment secondary to a left thalamic infarct: a longitudinal case study, 255
thalamic stimulation, Multicentre European study of thalamic stimulation in essential tremor: a six year follow up, 1221
Multicentre European study of thalamic stimulation in essential tremor: a six year follow up, 1387
thalatomy, Ataxic arm movements after thalamotomy for Parkinsonian tremor, 258
thalamus, Multicentre European study of thalamic stimulation in essential tremor, 1362
Thalamic proton magnetic resonance spectroscopy in vegetative state induced by traumatic brain injury, 33
thiamine, Reversible acute axonal polyneuropathy associated with Wernicke-Korsakoff syndrome: impaired physiological nerve conduction due to thiamine deficiency?, 674
thiopental, Favourable outcome of a brain trauma patient despite bilateral loss of cortical somatosensory evoked potential during thiopental sedation, 1157
third occipital nerve, Radiofrequency neurotomy for the treatment of third occipital headache, 88
Thomas Clifford Allbutt, Sir Thomas Clifford Allbutt, 1443
thrombolytic therapy, Intra-arterial thrombolysis in 24 consecutive patients with internal carotid artery T occlusions, 739
thrombosis, Risk of recurrence of cerebral venous and sinus thrombosis during subsequent pregnancy and puerperium, 814
thymoma, Anti-thyroid antibodies are not associated with a specific thymoma histology, 282
thymus, Autoimmune myasthenia gravis after cardiac surgery, 392
thymus histology, Thryotoxic autoimmune encephalopathy: a repeat positron emission tomography study, 504
tiagabine, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339
Vigabatrin, tiagabine, and visual fields, 286
time to clot lysis, Clinical and radiological correlations in acute stroke: is the signal intensity at the end of the tunnel getting brighter quicker?, 840
time–frequency analysis, Application of time–frequency analysis to somatosensory evoked potential for intraoperative spinal cord monitoring, 82
tinnitus, Auditory disturbance as a prodrome of anterior inferior cerebellar artery infarction, 1644
tiotin antibodies, Anti-titin antibodies are not associated with a specific thyroma histology, 282
tone burst, Vestibular activation by bone conducted sound, 771
tonic vibration reflex, The effect of fatigue on abnormal vibration induced illusion of movement in idiopathic focal dystonia, 1154
topographical disorientation, Limbic encephalitis presenting with topographical disorientation and amnesia, 110
traumatic brain injury, Loss of spatial learning in a patient with topographical disorientation in new environments, 61
torticollis, Botulinum toxin type B in blepharospasm and hemifacial spasm, 687
Tourette syndrome, Tourette’s syndrome: a cross sectional study to examine the PANDAS hypothesis, 602
Tourette’s syndrome, Sydenham’s chorea may be a risk factor for drug induced parkinsonism, 1350
trannexamic acid, Multifocal myoclonus secondary to tranexamic acid, 547
transcranial magnetic stimulation, Focused high frequency repetitive transcranial magnetic stimulation for localisation of the unexposed primary motor cortex during brain tumour surgery, 1283
Improvement of central motor conduction after bone marrow transplantation in adrenoleukodystrophy, 373
Increased visual cortical excitability in ecstasy users: a transcranial magnetic stimulation study, 1136
Reversible collal disconnection syndrome in internal hydrocephalus, 389
The effect of transcranial magnetic stimulation on movement selection, 985
transient ischaemic attack, Abnormalities on diffusion weighted magnetic resonance imaging performed several weeks after a minor stroke or transient ischaemic attack, 734
Long term risks of stroke, myocardial infarction, and vascular death in “low risk” patients with a non-recent transient ischaemic attack, 577
Should I start all my ischaemic stroke and TIA patients on a statin, an ACE inhibitor, a diuretic and aspirin today?, 1461
transient ischaemic attacks, Transient ischaemic attacks are associated with increased rates of global cerebral atrophy, 213
transoesophageal echocardiography, Transoesophageal echocardiography: which stroke patients benefit most from this investigation?, 283
traumatic brain injury, Brain tissue oxygen guided treatment supplementing ICP/CPP therapy after traumatic brain injury, 760
Cerebrovascular pressure reactivity is related to global cerebral oxygen metabolism after head injury, 765
Outcome after mild traumatic brain injury: an examination of recruitment bias, 39
Thalamic proton magnetic resonance spectroscopy in vegetative state induced by traumatic brain injury, 33
traumatic optic neuropathy, Visual prognosis after indirect traumatic optic neuropathy, 246
treatment, Radiosurgical cranial radiosurgery for the treatment of third occipital headache, 88
tremor, Chronic deep brain stimulation for the treatment of tremor in multiple sclerosis: review and case reports, 1392
trigeminal neuralgia, Measurement of pulse pressure profiles in patients with trigeminal neuralgia, 533
trinucleotide repeat expansion, Task specific focal dystonia: a presentation of spinocerebellar ataxia type 6, 1444
TSH, Neuroendocrine changes in patients with acute space occupying ischaemic stroke, 725
tuberous sclerosis, GABA_A receptor active steroids are altered in epilepsy patients with tuberous sclerosis, 667
tumour, Cruevelliher and acoustic neuma, 1015
tumour haemorrhage, Spontaneous haemorrhage into metastatic brain tumours after stereotactic radiosurgery using a linear accelerator, 908
ubiquitin, Attenuated nuclear shrinkage in neurones with nuclear inclusions of SCA1 brains, 597
Familial motor neuron disease with dementia: phenotypic variation and cerebellar pathology, 1516
ulcus terebrans, Ulcus terebrans: an unusual cause of paraparesis, 1643
ultrasonography, Second harmonic imaging: a new ultrasound technique to assess human brain tumour perfusion, 333
Unified Parkinson’s Disease Rating Scale, Physical anhedonia in Parkinson’s disease, 1308
untethering, Adult tethered cord syndrome presenting with refractory diarrhoea, 1396
upper airway, Sequential constriction of upper airway and vocal cords in sleep apnoea of multiple system atrophy: low field magnetic resonance fluoroscopic study, 642
upper limb, Effects of levodopa on upper limb mobility and gait in Parkinson’s disease, 1304
vagus nerve stimulation, BOLD fMRI activation induced by vagus nerve stimulation in seizure patients, 811
variant Creutzfeldt-Jakob disease, Screening for variant Creutzfeldt-Jakob disease, 828
vascular dementia, Coexistence of CADASIL and Alzheimer’s disease, 790
vasculitis, Peripheral neuropathy in hepatitis C virus infection with and without cryoglobulinaemia, 1267
vasospastic amaurosis fugax, Vasospastic amaurosis fugax, 149
vein of Galen aneurysmal malformation, Vein of Galen malformations, i42
velocity dependent properties, Velocity dependent passive muscle stiffness, 283
venous sinus, Idiopathic intracranial hypertension: 12 cases treated by venous sinus stenting, 1662
ventricular drainage, Early diagnosis of external ventricular drainage infection: results of a prospective study, 929
Failure of regular external ventricular drain exchange to reduce CSF infection, 1598
ventriculomagnetically, Assessment of the impact of the removal of cerebrospinal fluid on cerebral tissue volumes by advanced volumetric 3D-MRI in posthaemorrhagic hydrocephalus in a premature infant, 658
verbal memory, Development of selective verbal memory impairment secondary to a left thalamic infarct: a longitudinal case study, 255
vertebral artery, Vertebral artery origin angioplasty and primary stenting: safety and restenosis rates in a prospective series, 586
vertebral artery dissection, Economy class stroke syndromes: vertebral artery dissection revisited, 1594
vertebrobasilar insufficiency, Sudden bilateral simultaneous deafness with vertigo as a sole manifestation of vertebrobasilar insufficiency, 539
vertigo, Acute rotatory vertigo caused by a small haemorrhage of the vestibular cortex, 388
vestibular cortex, Acute rotatory vertigo caused by a small haemorrhage of the vestibular cortex, 388
vestibular function, Vestibulo-ocular areflexia in families with spinocerebellar ataxia type 3 (Machado-Joseph disease), 1403
vestibular reflexes, Vestibular activation by bone conducted sound, 771
Vestibular reflexes and positional manoeuvres, 289
vestibular schwannoma, Clinical experience with gamma knife stereotactic radiosurgery in the management of vestibular schwannomas secondary to type 2 neurofibromatosis, 1288
video recording, Trigeminal autonomic cephalalgia/tic-like syndrome associated with a pontine tumour in a one year old girl, 391
video-fluoroscopy, Vocal fold motion impairment in patients with multiple system atrophy: evaluation of its relationship with swallowing function, 982
vigabatrin, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339
Vigabatrin, Tiagabine, and visual fields, 286
violence, New evidence for an association between the CSF HVA:5-HIAA ratio and psychopathic traits, 918
virology, Neurovirological methods and their applications, 1016
vision, A controlled study comparing visual function in patients treated with vigabatrin and tiagabine, 339
visual attention, “Bottom-up” and “top-down” effects on reading saccades: a case study, 1423
visual cortex, Increased visual cortical excitability in ecstasy users: a transcranial magnetic stimulation study, 1136
visual loss, Visual prognosis after indirect traumatic optic neuropathy, 246
visual prognosis, Visual prognosis after indirect traumatic optic neuropathy, 246
vitamin B-12, Low vitamin B-12 status in confirmed Alzheimer’s disease as revealed by serum holotranscobalamin, 959
vocal cord, Sequential constriction of upper airway and vocal cords in sleep apnoea of multiple system atrophy: low field magnetic resonance fluoroscopic study, 642
vocal fold motion impairment, Vocal fold motion impairment in patients with multiple system atrophy: evaluation of its relationship with swallowing function, 982
volumetric MRI, Assessment of the impact of the removal of cerebrospinal fluid on cerebral tissue volumes by advanced volumetric 3D-MRI in posthaemorrhagic hydrocephalus in a premature infant, 658
Development of selective verbal memory impairment secondary to a left thalamic infarct: a longitudinal case study, 255
volumentry, Amygdala volumetry in “imaging-negative” temporal lobe epilepsy, 1245
Medial temporal lobe atrophy in patients with refractory temporal lobe epilepsy, 1627
Von Recklinghausen, Neurofibromatosis, 384
Wallarian degeneration, Wallarian degeneration of the inferior cerebellar peduncle depicted by diffusion weighted imaging, 977
