Emotional memory and perception in temporal lobectomy patients with amygdala damage B Brierley, N Medford, P Shaw, A S David

Neuropsychological effects associated with temporal lobectomy and amygdalol hippocampo-corticaly depending on Wada test failure M E Lacruz, G Alarcón, N Akanuma, F C K Lum, N Kissani, M Kostroumanidis, N Adachi, C D Binnie, C E Polkey, R G Morris

Reliability of self-reported diagnoses in patients with neurologically unexplained symptoms A Schrag, R J Brown, M R Trimble

Neurogenic pain relief by repetitive transcranial magnetic cortical stimulation depends on the origin and the site of pain J-P Lefaucheur, X Drouot, I Menard-Lefaucheur, F Zerah, B Bendib, P Cesaro, Y Keravel, J-P Nguyen

Email triage of new neurological outpatient referrals from general practice V Patterson, J Humphreys, R Chua

Progressive auditory neuropathy in patients with Levé’s hereditary optic neuropathy B Ceránci, L M Luxon

Concurrent hereditary haemochromatosis and idiopathic Parkinson’s disease: a case report series D J Costello, S L Walsh, H J Harrington, C H Walsh

Increased systemic levels of norsalsolinol derivatives are induced by levodopa treatment and do not represent biological markers of Parkinson’s disease J Scholz, I Klingemann, A Moser

Are men at greater risk for Parkinson’s disease than women? G F Wooten, L J Currie, V E Bovbjerg, J K Lee, J Patrie

Religiosity is associated with hippocampal but not amygdala volumes in patients with refractory epilepsy J Wuertel, E S Krishnamoorthy, R J Brown, L Lemieux, M Koepp, L Tebartz van Est, M R Trimble

Brain tissue loss occurs after suppression of enhancement in patients with multiple sclerosis treated with autologous haematopoietic stem cell transplantation J Gallelli, C Finocchiaro, D Righi, M A Ruffino, A Calvo, N Di Vito, P Ghiglione, A A Terreni, R Mutani

Reversible corpus callosum lesion in legionnaires’ disease J C Morgan, R Cavaliere, V C Juel

Intracranial hypotension caused by traumatic intrasacral meningocele T Kihara, T Mitsueda, K Ik, M Miyata

Transient ischaemic attack preceding anterior circulation infarction is independently associated with favourable outcome M Sitzer, C Foerch, T Neumann-Haefelin, H Steinmetz, B Misselwitz, C Kugler, T Back

Multiple cranial neuropathy and HIV-2 S Calado, N Canas, M Viana-Baptista, C Ribeiro, K Mansinho

Progressive encephalomyelitis with rigidity associated with anti-amphiphysin antibodies A Ishii, A Hayashi, N Ohkoshi, S Matsuno, S Sato

Central pontine myelinolysis associated with hypokalaemia in anorexia nervosa S C Keswani. Reply: T Murata, Y Wada

Book reviews

Historical notes

Sir Charles Scott Sherrington (1857–1952) and the synapse J M S Pearce

Lluis Barraquer i Roviralta and the origins of torsion dystonia J M S Pearce

Neurological picture

Scalp metastasis from glioblastoma R S Allan
