Periodontitis is associated with cognitive function and risk factors for apathy in adults: analysis of NHANCES-III

1202 The neural basis of effective memory therapy in a patient with limbic encephalitis

1206 Periodotitis is associated with cognitive impairment among older adults: analysis of NHANCES-III

1218 Sample size requirements for treatment effects using gray matter, white matter and whole brain volume in relapsing–remitting multiple sclerosis

1225 Screen for intracranial dural arteriovenous fistulae with carotid duplex sonography

1230 Cognitive impairment predicts poststroke death in long-term follow-up

1236 Alcohol in moderation, premorbid intelligence and cognition in older adults: results from the Psychiatric Morbidity Survey

1241 S-100B and neuron specific enolase are poor outcome predictors in severe traumatic brain injury treated by an intracranial pressure targeted therapy

1248 Perioperative risk factors for short term shunt revisions in adult hydrocephalus patients

1254 Vestibular PREHAB and gentamicin before schwannoma surgery may improve long-term postural function

1261 Ruptured carotid artery aneurysms of the ophthalmic (C6) segment: clinical and angiographic long term follow-up of a multidisciplinary management strategy

Cognitive impairment predicts poststroke death in long-term follow-up

Natural history of neuromuscular properties after stroke: a longitudinal study

Review inclusion body myositis: old and new concepts

Short reports

Combined risk effects of IDE and NFP gene variants on Alzheimer disease

Risk factors for progressive supranuclear palsy: a case-control study in France

Thoracolumbar spinal fixation for camptocormia in Parkinson’s disease

Occurrence and risk factors for apathy in Parkinson disease: a 4-year prospective longitudinal study

Focus your mind on quality research every month

Journal of Neurology, Neurosurgery and Psychiatry keeps you right up to date with the whole field of clinical neurological practice, neurosurgery and psychiatry, so you’ll want the guarantee of reading it every month.

Why not recommend the journal to your librarian or better still, obtain your own personal subscription? You will receive a paper copy every month as well as online access for just £209 a year (£282, €408). Too much paper on your desk already? An online subscription is just £122 (£165, €238). Better still, a personal subscription includes the acclaimed bi-monthly Practical Neurology.

Visit group.bmj.com/group/subs-sales - your subscription to this first class journal is just a few clicks away.
