Contents

Volume 87 Issue 7 | JNNP July 2016

Editorial commentary
683 Mesial temporal lobe epilepsy with hippocampal sclerosis as a neuroimmunological disorder
T Kanda

Epilepsy
684 Neuronal autoantibodies in mesial temporal lobe epilepsy with hippocampal sclerosis

Cerebrovascular disease
693 Susceptibility loci for sporadic arteriovenous malformation; a replication study and meta-analysis
K Yamada, N Shinojima, T Hamasaki, Jun-ichi Kuratsu

Movement disorders
697 Induced pluripotent stem cells in Parkinson’s disease: scientific and clinical challenges
B Xiao, H H Ng, R Takashashi, E-K Tan

703 Subthalamic nucleus stimulation improves Parkinson’s disease-associated camptocormia in parallel to its preoperative levodopa responsiveness
K Yamada, N Shinojima, T Hamasaki, Jun-ichi Kuratsu

710 Constipation preceding Parkinson’s disease: a systematic review and meta-analysis
K L Adams-Care, J P Bezwk, S Shribman, A Lees, A Schrag, A J Noyce

717 Bilateral adaptive deep brain stimulation is effective in Parkinson’s disease
S Little, M Beudel, L L Ziino, T Folyine, P Limouzin, M Hariz, S Neal, B Cheetter, H Cagnan, J Gratwicke, T Z Aziz, A Pogosyan, P Brown

Neuroinflammation
722 Safety and diagnostic value of brain biopsy in HIV patients: a case series and meta-analysis of 1209 patients
A M Lee, H X Bao, Y Zhou, D Qiu, J Zhou, M Martinez-Lage Alvarez, P Zhang, Y Tao, X Tang, B Xiao, I Yang

Neurosurgery
734 Does age affect surgical outcomes in patients with degenerative cervical myelopathy? Results from the prospective multicenter A0Spine International study on 479 patients
H Nakeshima, I A Terauchi, N Nagoshi, A Noun, B Kopjar, P M Arnold, R Bartels, H Defi ne, S Kad, Q Zhou, M G Feldings

Migraine
741 Migraine and its psychiatric comorbidities
M T Miren, O De Dhaen, A K V Diest, S Powers, T J Schweig, R Lipton, D Silberweig

Multiple sclerosis
750 A longitudinal study of cortical grey matter lesion subtypes in relapse-onset multiple sclerosis
V Seth, T Youssy, N Mahler, D J Tozer, D Almann, M Rex, C Wheeler-Kingshott, D H Miller, D T Chard

754 Automated brain volumetrics in multiple sclerosis: a step closer to clinical application
C Wang, H N Beadnall, S M Hatton, G Bader, D Tonic, D G Silva, M H Barnett
