Editorial commentaries
1127 Cognitive-behavioural therapy does meaningfully reduce depression in people with epilepsy
M Reisler

1128 Inflammatory neuropathies: all shapes and sizes
N Garg, S B Park, M C Kiernan

1129 Cognitive-behavioural therapy does not meaningfully reduce depression in most people with epilepsy: a systematic review of clinically reliable improvement
A J Noble, J Reilly, J Temple, P L Fisher

Neuromuscular
1145 Neurofascin-155 IgM autoantibodies in patients with inflammatory neuropathies
K Dappert, H Stoege, I Appeltshofer, J Grosskreutz, J K Man Ng, E Meinl, C Sommer

Neurology
1152 Regionally clustered ABCB8 polymorphisms in a prospective cohort predict cerebral oedema and outcome in severe traumatic brain injury

1163 International multicentre validation of the arteriovenous malformation-related intracerebral haemorrhage (AVICH) score

Cognitive neurology
1167 18F-MIBG myocardial scintigraphy for the diagnosis of DLB: a multicentre 3-year follow-up study

Movement disorders
1174 Serum antigliadin antibodies in cerebellar ataxias: a systematic review and meta-analysis
C Y Lin, M J Wong, W Tse, R Piove, A Alatdini, P H R Green, S H Kao

1181 Insights into Parkinson’s disease from computational models of the basal ganglia
M D Humphries, J A Olesso, J K Dreyer

Neurological picture
1189 Small spiral, big mass
N Vijayarani, A J Lees, H R Morris

Neuro-inflammation
1191 Beyond the limbic system: disruption and functional compensation of large-scale brain networks in patients with anti-LGI1 encephalitis

This article has been chosen by the Editor to be of special interest and is freely available online.

This article has been chosen in conjunction with the BMJ Patient Forum to be of particular interest to patients and is freely available online.

The article has been made freely available online under the BMJ Journals open access scheme.
