Contents

Volume 91 Issue 10 | JNNP October 2020

2020 Vision
1015 Untangling the natural history of cerebral arteriovenous malformations
D J Werring, R Al-Shahi Salman

2020 Hindsight
1017 Occasional essay: Multiple sclerosis in the digital age: ‘seeing through a glass darkly’
A Compton

1024 Neurosurgery, neurological surgery or surgical neurology: semantics or real impact?
P Warré

Editorial
1027 Guillon-Barre syndrome in times of pandemics
S E Leonard, D R Combe, H P Endts, J J Seijas, B C Jacobs

Editorial commentaries
1030 Genetic-environmental factors finally assessed together in Parkinson’s disease
J Clarimón

1031 Pre-existing anxiety slows recovery after mild traumatic brain injury in children and adolescents
S Fleming

1032 How and how early can we predict a stroke patient’s fate after thrombectomy?
P B Sporns

1033 Combining clinical and molecular heterogeneity within CASPR2-antibody mediated diseases: towards the underlying disease biology
S Binks, S R Irani

1035 Chronic inflammatory demyelinating polyneuropathy and diabetes
S Kawakita, A Tanzversema, S Misawa

Occasional essay
1037 Occupational therapy consensus recommendations for functional neurological disorder

Movement disorders
1046 Parkinson’s disease determinants, prediction and gene–environment interactions in the UK Biobank
B M Jacobs, D Deleete, J Bestwick, C Blauwendaal, S Basanes-Ciga, K Hellbrom, R Dobson, M A Nalls, A Singleton, J Hardy, G Giovannetti, A J Lees, A E Schrag, A J Joyce

Cerebrovascular disease
1055 Early clinical surrogates for outcome prediction after stroke thrombectomy in daily clinical practice
L Meyer, G Brecker, M Bechstein, P Hetman, H Leischner, C Brekenfeld, G Schin, M Deh-Chatterji, A Alojz, G Thomas, J Fischer, H Käst, U Hanning, For the German Stroke Registry – Endovascular Treatment (GSR – ET)

General neurology
1060 Concussion symptomatology and recovery in children and adolescents with pre-existing anxiety
A K Martin, A J Petersen, H W Seznaz, M B Koolmo, K M Ingram, K B Sifo, V N Nguyen, R C Dos, A M Linsabe

Epilepsy
1067 Efficacy and safety of adjunctive lacosamide in the treatment of primary generalised tonic-clonic seizures: a double-blind, randomised, placebo-controlled trial
D G Vossler, S Krake, T F O’Brien, M Watanabe, M Broek, B Steiniger-Brach, P Williams, R Reehling, On behalf of the SP0982 trial investigators

**Contents**

**Neuro-inflammation**

**Anti-CASPR2 clinical phenotypes correlate with HLA and immunological features**

**Neurodegeneration**

**Disease mechanism, biomarker and therapeutics for spinal and bulbar muscular atrophy (SBMA)**
A Hashizume, K H Fischbeck, M Pennuto, P Fratta, M Katsuno

**Neuromuscular**

**Frequency of diabetes and other comorbidities in chronic inflammatory demyelinating polyradiculoneuropathy and their impact on clinical presentation and response to therapy**

**Spinal cord injury**

**Tissue bridges predict neuropathic pain emergence after spinal cord injury**
D Pyffer, K Valloton, A Can, P Freund

**Neurological picture**

**Selective atrophy of the brachialis muscle in neuralgic amyotrophy; ultrasound imaging of fascicular nerve damage**
G Zanette, A Rasera, S Tamburin

**PostScript**

**Letters**

**Chronic inflammatory demyelinating polyneuropathy associated with diabetes: a European multicentre comparative reappraisal**
Y A Rajabally, S Peric, M Cobeljic, S Afzal, I Bozovic, A Palibrek, J Basta

**Guillain-Barré syndrome in SARS-CoV-2 infection: an instant systematic review of the first six months of pandemic**
A Uncini, J-M Vallat, B C Jacobs

**Chronic inflammatory demyelinating polyneuropathy associated with diabetes: a European multicentre comparative reappraisal**
Y A Rajabally, S Peric, M Cobeljic, S Afzal, I Bozovic, A Palibrek, J Basta

**Guillain-Barré syndrome in SARS-CoV-2 infection: an instant systematic review of the first six months of pandemic**
A Uncini, J-M Vallat, B C Jacobs
