Editorial commentaries

457 It is safe to switch therapy from interferon beta or glatiramer acetate to oral therapy in patients with relapsing multiple sclerosis with stable disease
N Koch-Henriksen

458 Plasma microRNA signature as biomarker for disease progression in frontotemporal dementia and amyotrophic lateral sclerosis
R Dewan, B J Traynor

Fashion focus: neurosurgery for tremor
L Zrimo

Cognition

460 Cognitive reserve in amyotrophic lateral sclerosis (ALS): a population-based longitudinal study
E Costello, J Rooney, M Pinto-Grau, T Burke, M Elamin, P Bede, R McMackin, S Duck, A Vajda, M Heverin, O Hardiman, N Pender

Migraine

466 Effect of erenumab on functional outcomes in patients with episodic migraine in whom 2–4 preventives were not useful: results from the LIBERTY study
E Lanteri-Minet, P J Coady-B, U Reuter, S Wen, P Hours-Zeiger, M D Ferrari, J Klatt

Neuromuscular

473 Chronic inflammatory demyelinating polyneuropathy and pregnancy: systematic review
F Kohle, S Kuwabara, H C Lehmann

Neurodegeneration

485 Plasma microRNA signature in presymptomatic and symptomatic subjects with C9orf72-associated frontotemporal dementia and amyotrophic lateral sclerosis

494 Modelling the cascade of biomarker changes in GRN-related frontotemporal dementia

502 Unravelling the clinical spectrum and the role of repeat length in C9ORF72 repeat expansions
E L van der Ende, J L Jackson, A White, H Seelaar, M van Blitterswijk, J C Van Swieten

510 Value of systematic genetic screening of patients with amyotrophic lateral sclerosis
S R Shephard, M D Parker, J Cooper-Knock, N S Verbe, L Tuddenham, P Heath, N Beauchamp, E Placz, E S A Sollars, M R Turner, A Malasipina, P Fratta, C Hesmanadoma, T M Jenkins, C J McDermott, D Wang, J Kirby, P J Shaw, on behalf of the Project MINE Consortium

Neurogenetics

479 Effect of familial clustering in the genetic screening of 235 French ALS families

Neuroethics

497 Medical research: the role of non-human primates in research
E Faye, H renovations, B A Bocca, C C Demerc, P D Gaultier, H Glaeser, U Heverin, J L Poineer, J L Tournier, J L Vaugt, J L Weinstei
