Volume 93 Issue 6 | JNNP June 2022

Editorial commentaries

571 Blood biomarkers may distinguish among dementia disorders
L Patani, F Paolini Paletti, L Gasetani

572 Microstructural changes in the normal appearance cerebral cortex of multiple sclerosis detected by an advanced diffusion MRI technique
A Sugiyama, S Kuwabara

Cognitive neurology

573 Results of the COMPARiE trial of Constraint-induced or Multimodality Aphasia Therapy compared with usual care in chronic post-stroke aphasia
M L Rose, J Nickels, D Copland, L Togher, E Gedecke, M Menzler, T Rai, D A Cadilhac, J Kim, M Hurley, A Foster, M Carragher, C Wilcox, J E Pierce, G Steel

Cerebrovascular disease

582 Amantadine treatment is associated with improved consciousness in patients with non-traumatic brain injury

588 Aetiology, secondary prevention strategies and outcomes of ischaemic stroke despite oral anticoagulant therapy in patients with atrial fibrillation

Epilepsy

599 Temporal lobe epilepsy lateralisation and surgical outcome prediction using diffusion imaging

Movement disorders

609 Functional movement disorder gender, age and phenotype study: a systematic review and individual patient meta-analysis of 4905 cases
S C Lidstone, M Costa-Parker, E J Robinson, T Escot, J Stone, FAMD GAP Study Group

617 A comprehensive and sensitive outcome measure for Parkinson’s disease
C Lo, S Aversa, M Lawton, T Barber, T Quinnell, G J Dennis, Y Ben-Shlomo, M T-M Hu

625 Functional tremor developing after successful MRI-guided focused ultrasound thalamotomy for essential tremor
S Alshmimeri, D Vargas-Méndez, R Chen, N Lipsman, M L Schwartz, A M Lozano, A Fasano

Multiple sclerosis

628 In vivo detection of damage in multiple sclerosis cortex and corticospinal tracts using NODDI
P Preziosa, E Pagani, R Bonacchi, L Cacciaguerra, A Falini, M A Rocca, M Filippi

MORE CONTENTS
Phase II study of ketogenic diets in relapsing multiple sclerosis: safety, tolerability and potential clinical benefits
J N Brenton, D Lehner-Galosta, E Woolbright, B Banwell, A G C Bergqvist, S Chen, R Coleman, M Conaway, M D Goldman

Association of adverse childhood experiences with the development of multiple sclerosis
K Eid, Ø Torkildsen, J Aarseth, M Aalstad, A Bhan, E G Celius, M Cortese, A K Dalveit, T Holmøy, K-M Myhr, T Røse, S Schiøler, C F Torkildsen, S Wergeland, N E Gilhus, M-H Bjørk

Serum GFAP differentiates Alzheimer’s disease from frontotemporal dementia and predicts MCI-to-dementia conversion

Differential levels of plasma biomarkers of neurodegeneration in Lewy body dementia, Alzheimer’s disease, frontotemporal dementia and progressive supranuclear palsy
L Chouliaras, A Thomas, M Malpetti, P Donaghy, J Kane, E Male, G Savich, M A Prats-Sedano, A J Heslegrave, H Zetterberg, L Su, J B Rowe, J T O’Brien

Novel approaches to diagnosis and management of hereditary transthyretin amyloidosis
A Carroll, P J Dyck, M de Carvalho, M Kennerson, M M Reilly, M C Kiernan, S Vucic
