Volume 93 Issue 6 | JNNP June 2022

Editorial commentaries
571 Blood biomarkers may distinguish among dementia disorders
I. Paterno, F. Pacinelli Paolo, L. Gaetani

572 Microstructural changes in the normal appearance cerebral cortex of multiple sclerosis detected by an advanced diffusion MRI technique
A Sugiyma, S Kuwatla

Cognitive neurology
573 Results of the COMPARE trial of Constraint-induced or Multimodality Aphasia Therapy compared with usual care in chronic post-stroke aphasia
M I Rose, I Nickells, D Copland, I Togher, E Gedecke, M Menzer, T Rai, D A Cadilhac, J Kim, M Hurley, A Foster, M Carragher, C Wilcox, J E Pierce, G Steel

Cerebrovascular disease
582 Amantadine treatment is associated with improved consciousness in patients with non-traumatic brain injury

Aetiology, secondary prevention strategies and outcomes of ischaemic stroke despite oral anticoagulant therapy in patients with atrial fibrillation

Epilepsy
599 Temporal lobe epilepsy lateralisation and surgical outcome prediction using diffusion imaging

Movement disorders
609 Functional movement disorder gender, age and phenotype study: a systematic review and individual patient meta-analysis of 4905 cases
S C Lidstone, M Costa-Panke, E J Robinson, T Escot, J Stone, FAD GAP Study Group

A composite clinical motor score as a comprehensive and sensitive outcome measure for Parkinson’s disease
C Lo, S Aera, M Lawton, T Barber, T Quinell, G J Dennis, Y Ben-Shlomo, M T-M Hu

625 Functional tremor developing after successful MRI-guided focused ultrasound thalamotomy for essential tremor
S Aishimemeri, D Vargas-Méndez, R Chen, N Lepsman, M I Schwartz, A M Lozano, A Fasano

Multiple sclerosis
628 In vivo detection of damage in multiple sclerosis cortex and cortical lesions using NODDI
P Preziosa, E Pagani, R Bonacchi, L Cacciaguerra, A Falini, M A Rocca, M Filippi

The online version of this article contains multiple choice questions hosted on BMJ Learning.
Phase II study of ketogenic diets in relapsing multiple sclerosis: safety, tolerability and potential clinical benefits
J N Brenton, D Lehner-Galosta, E Woolbright, B Barwell, A G C Bergqvist, S Chen, R Coleman, M Conaway, M D Goldman

Association of adverse childhood experiences with the development of multiple sclerosis
K Eid, Ø Torkildsen, J Aarseth, M Aalstad, A Bhan, E G Celius, M Cortese, A K Dalveit, T Holmøy, K-M Myhr, T Riste, S Schuler, C F Torkildsen, S Wergeland, N E Gilhus, M-H Bjørk

Serum GFAP differentiates Alzheimer’s disease from frontotemporal dementia and predicts MCI-to-dementia conversion

Neurodegeneration
Differential levels of plasma biomarkers of neurodegeneration in Lewy body dementia, Alzheimer’s disease, frontotemporal dementia and progressive supranuclear palsy
J Chouliaras, A Thomas, M Malpetti, P Donaghy, J Kane, E Male, G Savick, M A Prats-Sedano, A J Heslegrave, H Zetterberg, L Su, J B Rowe, J T O’Brien

Neuromuscular
Novel approaches to diagnosis and management of hereditary transthyretin amyloidosis
A Carroll, P J Dyck, M de Carvalho, M Kennerson, M M Reilly, M C Kiernan, S Vucic
