Volume 95 Issue 3 | JNNP March 2024

Editorial commentary

199 Genetics, cell biology and a novel mechanism for ALS
M E Shy

Neurogenetics

201 Recurrent de-novo gain-of-function mutation in SPTLC2 confirms dysregulated sphingolipid production to cause juvenile amyotrophic lateral sclerosis
M F Dhok, D Bejter, M A Lone, E Bayraktar, P Oflazer, R Orbach, D Deonker, A R Foley, A Rose, M Lyons, R J Louie, K Gable, T Dunn, S Chen, M C Danzi, M Synykiewicz, C G Bohemond, A Naziz Bajak, T Homemann, S Zachter

Movement disorders

206 Unilateral focused ultrasound thalamotomy in early Parkinson’s disease: a pilot study

214 Cognitive and psychiatric outcomes in the GALAXY trial: effect of anaesthesia in deep brain stimulation

222 Effect of long-term Tai Chi training on Parkinson’s disease: a 3.5-year follow-up cohort study
G Li, P Huang, S Cai, Y He, Y Tan, S Chen

Multiple sclerosis

229 Incidence and prevalence of paediatric-onset multiple sclerosis in two Canadian provinces: a population-based study representing over half of Canada’s population
F L A Yusuf, A Aqsa, R A Marie, P Li, K McKay, Y Zhao, F Zhu, C Maxwell, H Trendelt

Neuromuscular

235 Early treatment of type II SMA slows rate of progression of scoliosis
G Coratti, J Lebewitz, M C Pera, A D’Amico, C Bruno, C Gall, N Brozzi, M Pedemone, L Antonaci, M Ricci, A Capasso, G Cicuta, C Cattora, R de Sanzo, S Carnicella, N Forcina, M Gavazzza, M B Damasio, L Liberace, F Monfroni, A Leone, E Bertino, M Pane, S Patarnello, V Valentini, E Mercari

Neurodegeneration

241 Environmental risk scores of persistent organic pollutants associate with higher ALS risk and shorter survival in a new Michigan case/control cohort
S A Gourman, J Boss, D-G Jang, B Mukherjee, R J Richardson, S Butteman, E L Feldman

Epilepsy

249 Reduced long-term mortality after successful resective epilepsy surgery: a population-based study
C Catanhol, A E Tranberg, K Malmgren, M C Strandberg, E Kamlon, P Redfors

Cerebrovascular disease

256 Direct Versus Indirect Revascularization for Moyamoya: a Large Multicenter Study

This article has been chosen by the Editor to be of special interest or importance and is freely available online.

This article has been chosen in conjunction with the BMJ Patient Forum to be of particular interest to patients and is freely available online.

This article has been made freely available online under the BMJ Journals open access scheme. See http://authors.bmj.com/open-access/

The article is part of the Impact Commentaries series

More Contents

Further details available online.
Beyond antithrombotics: recent advances in pharmacological risk factor management for secondary stroke prevention
D Sagris, G Ntaios, H Milionis

Improved naming in patients with Broca’s aphasia with tDCS
L Bonilha, C Rorden, R Roth, S Sen, M S George, J Fridriksson

Cognitive and executive impairments in Parkinson’s disease psychosis: a Bayesian meta-analysis
S Pisani, L Gosse, R Wieretilo, D Ffytche, L Velayudhan, S Bhattacharyya
